582B17. Each..... $4.30

Dots before the eyes?...

THEN YOU'VE GOT SOMETHING!

YES—we hope your eyes have been resting on a stock of new bats that bear certain craftily placed dots on their handles.

Then you've really *got* something for 1938—as fine a line of ball bats as a man ever handled!

For those dots are the sensational "Safety-Grip Dots"—an idea developed by Spalding to teach the player the correct way to hold the bat for maximum *power* drives. A great idea... and one that works!

Spalding also offers bats that are "Resilite-Treated" to insure hard, solid percussion surface along with full, natural whip in the handle—additional assistance to *power* drives. Another great idea... that works!

If by any chance you've missed seeing these great power-packed, sales-primed baseball bats, don't waste any more time. Address your nearest Spalding representative for full information and prices.

Why Does This Veteran

Belong With These New Bats?

Don't forget the brilliant history of this famous baseball! It has been Official since 1878, when the National League adopted it. It is still the only Official National League Ball... and it is played in *every* World Series!

A. G. Spalding & Bros.

MAPLEWOOD PRODUCTS CO. LINE

Division of Menasha Woodenware Corp.

McALPIN HOTEL, Rooms 818-822

For the past several years we have carried the Tyke Toy line separately from our Maplewood Products Co. line, which, in a way, has been somewhat confusing to many of the buyers. We are combining the two lines this year under the name of Maplewood Products Co., a name well known to the toy trade throughout the United States.

Old Glory Piano Accordions

THESE OLD GLORY FEATURES ASSURE SATISFACTION!

Genuine Italian Accordions

All Attractively Finished

Hand-tuned Reeds of specially tempered Swedish steel, individually tuned, give big rich tone in perfect intonation.

Aluminum Reinforced Keyboard on all OLD GLORY models from 48 basses and up. Extra solidity and strength; can't warp!

New Compact Models reduced bulk and weight but no sacrifice of strength or tonal volume.

Full Chromatic Scale with all tones and half-tones. Play any music in any key exactly as written.

Built in Low Pitch (A-440) to chord perfectly with any instrumental grouping

Old Glory Jr. Model, 25 Piano Keys, 12 Basses. Low price, good looks and fine tone make this a favorite for beginners. A real OLD GLORY through and through, made in the same factory and by the same expert craftsmen that make the more expensive OLD GLORY. Finished in polished white pearl celluloid. Has 2 sets of hand-tuned steel reeds, each mounted on individual reed plate. Deep fold bellows. Shoulder straps, square shaped carrying case, and instruction book included. Keyboard, 13⅜ inches; height, 6¼ inches; depth, 13¾ inches.

No. 7A30. Each..... 33.50

Same as above except has 25 Piano Keys and 24 Basses.

No. 7A31. Each..... 40.00

Paloma, 34 Piano Keys, 80 Basses. Here's the answer to the need for an accordion of true artist calibre but lighter and smaller than the full 120 bass models. Finished in polished pearl—choice of WHITE, JADE GREEN or TURQUOISE—5 sets of reeds in the bass; the treble is equipped with 3 sets of finest hand-tuned steel reeds, brilliant and full tone, with automatic, invisible octave-coupler for greater tone control. Aluminum reinforced piano keyboard; double reinforced bellows. In form-fitting velvet lined case; instructor and shoulder straps. Keyboard, 20⅛ inches; height, 7¼ inches; depth, 15 inches.

No. 7A28. Each..... 106 65

Black-and-White, 41 Piano Keys, 120 Basses. Gleaming black and white—the most tasteful and effective color contrast imaginable—make this OLD GLORY a wonderful choice for the artist who frequently appears in the spotlight. And the beauty of finish is well matched by its power and brilliancy of tone! Has four sets of fine OLD GLORY hand-tuned steel reeds in the treble side and five sets in the bass, with automatic invisible octave-coupler on piano keyboard for artistic tone shading. Aluminum reinforced piano keyboard, and double reinforced bellows. Furnished complete with shoulder straps, instructor and form-fitting velvet lined case. Length of piano-keyboard, 21¼ inches; height, 7⅝ inches; depth, 15 inches.

No. 7A11. Each..... 180.00

The Student, 34 Piano Keys, 48 Basses. Ideal for the student who appreciates the advantages of starting out with an instrument of adequate tonal range. Finished in polished white celluloid with hand engraved decorations in colors and rhinestone set. Has five sets of reeds in the bass and 2 sets OLD GLORY genuine hand-tuned steel reeds in the treble, each on individual reed-plate. Aluminum reinforced piano keyboard. Complete with shoulder straps, instructor, and DeLuxe form-fitting velvet lined case. Length of fingerboard, 18 inches; height, 6⅝ inches; depth, 15¼ inches.

No. 7A8. Each..... 100.00

Perla Del Mar, 41 Piano Keys, 120 Basses. Polished pearl finish (choice of White, Jade or Turquoise) and its artistic contrasting trim, this model brings you all you can ask in the way of looks. Be assured that it is equally fine in tone. Three sets of OLD GLORY hand-tuned steel reeds in the treble and five sets in the bass equip it for any professional need; and the automatic, invisible octave-coupler gives complete tone control. Has aluminum reinforced fingerboard; finely built bellows; built to quality standards throughout. Complete with form-fitting velvet lined case, instruction book and shoulder straps. Length of fingerboard, 21¼ inches; height, 7⅝ inches; depth, 15 inches.

No. 7A29. Each..... 150.00

DeLuxe, 41 Piano Keys, 120 Basses. The polished smoke-pearl finish with its lustrous grays and blacks is strikingly beautiful. White pearl finished piano keys, smoke-pearl sharps and flats, pearl bass buttons and smoke-pearl celluloid grille. The secret of its magnificent tone lies in the hand-picked OLD GLORY "SPECIAL" Reeds, made from the finest Swedish steel, each individually tested for tone quality and then hand-tuned. There are four sets in the treble; five sets in the bass. An improved automatic, invisible octave coupler with indicator, on the treble side; and on the bass side an automatic slide-action shift, conveniently located at the fingertips, together give absolute tone control. The piano keyboard is aluminum reinforced (can't warp!); bellows are extra deep-fold, reinforced inside and out. Shoulder straps, instruction book and DeLuxe form-fitting, silk plush lined case included. Length of keyboard, 21¼ inches; height, 7⅝ inches, depth, 14⅝ inches.

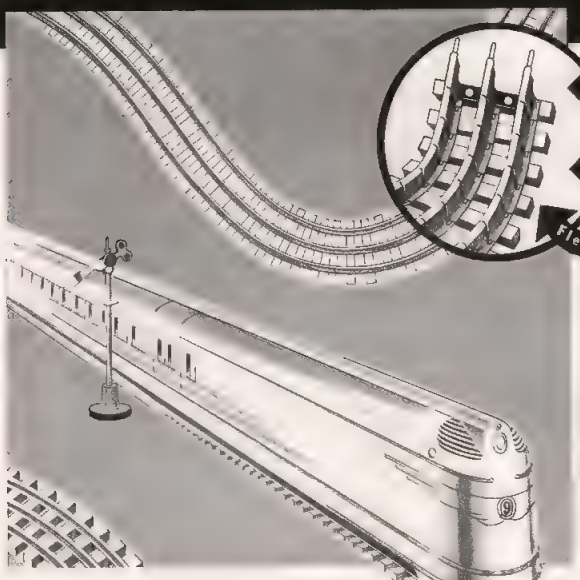
Now! FLEX-I-TRACK OPERATES ALL O-GAUGE MODELS!



STEP ON IT—
without damage, Flex-I-Track will bear the weight of a 200 pound man.

BEND IT—
100 pounds of bending pressure failed to injure Flex-I-Track.

STAYS PUT—
Flex-I-Track takes any curve —right—left—up—down— and "stays put."

SALEABLE ALL YEAR 'ROUND

Here's the track that gave the electric train back to the kids—and made it a year 'round toy. No need now for dad to monopolize the play with hours and hours of tedious work fitting old-fashioned, rigid track into place — puzzling over curves, switches and layouts that never materialize. Now it's all fun—because you just roll FLEX-I-TRACK out—and in 10 minutes you've the most amazing, intricate railroad system—realistic rails that dodge in and out among chair and table legs—through switches, over cross-overs, around parallel curves and straight-away. Then when the day's fun is all over you simply roll FLEX-I-TRACK up again and put it away like any other toy.

Yes Sir!—you can triple your sales AND MORE, because FLEX-I-TRACK is saleable all year 'round. It gives a youngster 52 weeks of pleasure from his electric train equipment every year.

Cash in on the nation-wide advertising campaign that will feature the "Flex-I-Track Railway System".

Permanent Display at our New York Office
200 Fifth Avenue, Room 553

Also on display during the Toy Fair in Room 533 Hotel McAlpin

ROLL IT OUT! ROLL IT UP!

Parker

Fountain Pens and Sets

With the "Visometer" Section

The "Challenger" Line

The "Challenger," a new line by Parker Pen Co. The most attractive colors, with all the features of the Parker Duofold Lucky Curve pens.

The pens are made of unbreakable material in a Jet Black, Burgundy Pearl, Grey Pearl, and Green Pearl. Equipped with the end style Parker clip. Also have the popular push button style filling device, a feature exclusive with Parker for many, many years. The pen points are of 14k solid gold, tipped with iridium. These points are made by the same people, and with the same care exercised, as on Parker's higher priced lines.

The pencils are fitted with a propel, repel and expel movement, which enables the user to have the point at any length desired. A narrow band set in the center of the pencil to match the one on the end of the pen cap.

When sets are ordered both pieces are put up in a very attractive presentation case.

The pens are made in two styles. Long, with clip for use by men; and a shorter and thinner pen with clip for use by the ladies.

"Challenger DeLuxe"

The Pen with the Two-Way Writing Point

Medium on One Side—Fine on the Other

This new style Parker Pen is of the same size and equals in value the famous Duofold Pens. It has a large ink capacity 25 to 50 per cent greater than other pens of equal size. Ultra smooth solid gold point is ground in such a way that it enables the user to write two different ways. By using the point on one side, it writes medium; turn it over and it writes fine. The point is tipped with the finest grade iridium. Now, equipped with the "Visometer," a transparent section showing when to refill your pen.

Made in four colors: A Grey Pearl with a Jet background; Green Pearl with a Jet background; and Burgundy with Jet background. Also a Jet Black.

Obtainable in either the men's or ladies' size. The ladies' pen has the clip set at top of cap to prevent rolling off desk or table.

Parker Royal Challenger

With the "VISOMETER" Shows When to Refill

Not satisfied with their success after bringing out their De Luxe line, the Parker Pen Co. now presents The Parker "Royal Challenger," in truth a regal addition to the ever-popular line of Parker products.

The pens are fashioned of a high grade Pyralin stock in three colors, with a Chevron worked into the material itself at regular intervals around the cap and barrel, giving the pen and pencil a somewhat "princely" appearance, as if it were the dominant article in the pen field. Made in two sizes: Men's and thin ladies' style.

The filler is the ever reliable button type, a feature pioneered by Parker, and copied by many. The points are of solid gold, tipped with iridium and ground by expert workmen to a degree that insures writing satisfaction at all times. The trimmings are all gold filled. Now equipped with the "Visometer," a transparent section showing when to refill your pen. A newly designed "Sword-clip" further adds to the beauty of this outstanding pen.

The pencil has a three-action movement, propelling, repelling and expelling the lead. An extra lead chamber together with eraser and concealed on the inside of the barrel. Trimmings match the pen in all respects.

Made By

PARKER PEN CO.

PARKETTE

In keeping with the trend for quality merchandise at popular prices, the Parker Pen Co. has brought out a line of pen and pencil sets at a figure astoundingly low in comparison with their regular line

Into these sets they have put all the skilled workmanship and exactness so characteristic of "Parker" made pens and pencils. The same trained craftsmen and mechanics employed in the making of their regular line have used their knowledge and ingenuity to make this special line of sets worthy of the name "Parker." They have so much faith in this line that each and every pen and pencil is stamped with their name.

The pens are fitted with newly perfected high grade iridium tipped pen points, ground to perfection by experts so as to insure a smooth writing pen. The pens fill with the gold filled lever found along one side of the barrel. New shape clinch style clip set in such a position that it will rest comfortably in the pocket. Double bands set in both top and bottom of the cap. Now equipped with the "Visometer" a transparent section showing when to refill your pen.

The pencils have a reliable three-action movement, which in addition to propelling the lead, also repels and expels it. A reservoir for the extra leads, together with the eraser are contained on the inside of the barrel. The trimmings on the pencil match the pen in all respects. Both pieces are put up in a neatly designed presentation case.

The colors are the most popular on the market

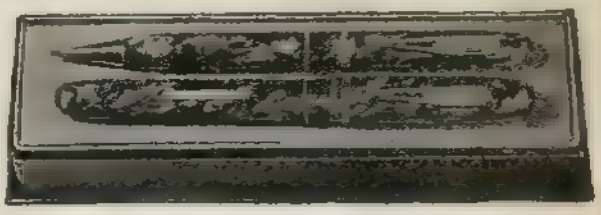
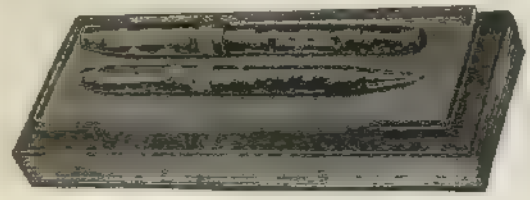
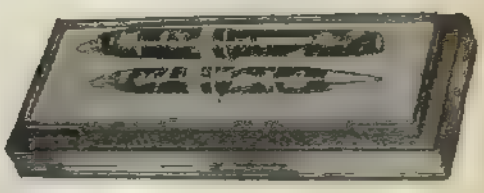
No. 658596/3.	Green Pearl	
No. 658596/4.	Gray Pearl	







Pen and Pencil Sets in the newest pearl colors. Made of unbreakable material. Put up in new shape presentation cases. The pens are fitted with 14K solid gold pen points and are iridium tipped. Pencils have a three-action movement. They propel, repel and expel the lead. Have an eraser and extra leads concealed in a reservoir on the inside of the barrel. Both pieces have filigree bands inlaid at caps to further set off their appearance. This new shape is more restful to the hand, as it relieves the customary strain experienced when using a round pen or pencil. Tapered tops

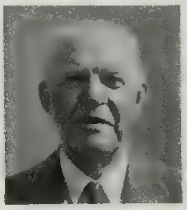
Fred J. Ratsch, Founder of Mfrs.' Ass'n, Dies

Fred J. Ratsch, former manufacturer, and first president and one of the four founders of the Chamber of Commerce of Athletic Goods Manufacturers' Association, died March 8, at Pasadena, Cal., where he had been living since his retirement from the industry nearly 20 years ago.



FRED J RATSCH

The body was to arrive at Chicago the morning of March 14 and will be taken to the P. A. O'Connell Funeral Home, 2917 South Michigan. The Knights of Columbus will hold ceremonies there on the evening of March 14, and burial services will be conducted the next day at St. James Catholic Church, with interment at Mt. Olivette Cemetery. Mr. Ratsch was the owner of the old Chicago Sporting Goods Company, which he sold in 1919 to the Thomas E. Wilson Company (now the Wilson Sporting Goods Company). During the prewar and war periods, he was a prominent figure in the sporting goods industry.

More than 40 years ago, Mr. Ratsch and three other manufacturers -Walter Stall, John Maynard and Oscar Goldsmith—met at New York City and formed the organization which now is known as the Athletic Goods Manufacturers' Association. The only survivor of the group is Oscar Goldsmith, who retired some years ago from the P. Goldsmith Sons Company and now lives at 1454 Warnall avenue, Westwood Village, Los Angeles, Cal.

The original four members started out to enroll other manufacturers in the association, but for a time met only with disappointment. However, the founders continued to meet twice a year, and sometmes three or four times, when it was necessary to do so.

At one time, all the members resigned except two—Ratsch and Goldsmith—but this pair kept on holding meetmgs and appointed a "special committee of two" to call on other manufacturers and ask them to join.

The faith of Ratsch and Goldsmith ultimately was vindicated when new members began to join the association, one by one. The Rawlings Mfg. Company became a member in 1907, and nearly every year thereafter saw the addition of one or more firms.

During all of this critical period, Mr. Ratsch continued to serve as president, until he sold his business. He then retired to Pasadena, where he built a home and occupied his time looking after his flowers and shrubbery and otherwise enjoying life. However, he always maintained a keen interest in developments in the sporting goods industry.

LITTLE SELLS RETAIL OUTLET TO SPALDING

The John T. Little Sporting Goods Company of Spokane, Wash., one of the oldest purely sporting goods businesses in the Northwest, sold its retail store at N. 111 Howard street to A. G. Spalding & Bros., on February 21. The transaction included a five-year lease on the store space.

The Little company will continue its wholesaling and manufacturing activities on the second floor of the same building, and will specialize in fly making. It will also job skates and camping equipment under the new set-up, according to John T. Little, who founded the firm 30 years ago, and who has his son, John T. Little, Jr., associated with him in the business.

The store is at present closed for alterations, which include the installation of a modernistic front, new floors and ceiling.

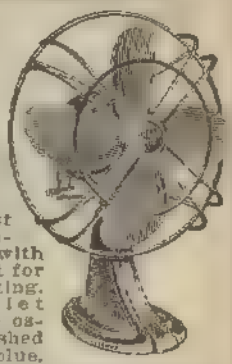
Dependable Electric Fans and Ventilators

8-inch Stationary Electric Fan. Induction type motor, non-radio interfering. **Operates on 110 Volts, A.C., 60 Cycles only.** New improved cast iron streamline base, with key hole slot for wall mounting. Electrically welded double ring guard. Finished in two-tone blue, electrically baked. Each in carton. Shipping weight about 4 lbs.

No. 7C26. Each..... 1.10

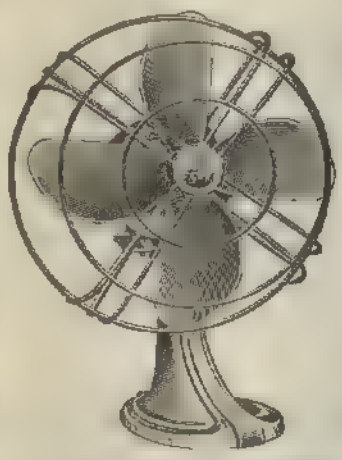
Pedestal Type 10-inch Oscillating Electric Fan. The ideal fan for home use. Easily moved to any location. Height adjustment 3 feet 3 inches to 4 feet 8 inches. High-speed efficient motor, no radio interference. Smooth oscillating operation. Self-lubricating bearings. On and off switch conveniently located away from blades. **Operates on 115 Volts, 50-60 Cycles A.C. only.** Chrome plated blades and guard. Heavy cast metal base, frosted brown baked finish, with chrome trim. Long rubber cord and grip plug. Each in carton. Shipping weight about 26 lbs.

No. 7C20. Each..... 7.80



8-inch Oscillating Electric Fan. Induction type motor, non-interfering. **Operates on 110 Volts, A.C., 60 Cycles only.** New improved cast iron streamline base, with key hole slot for wall mounting. Sturdy quiet worm-drive oscillator. Finished in two-tone blue, electrically baked. Each in carton. Shipping weight, about 4½ lbs.

No. 7C27. Each..... 2.45



10-inch Oscillating Electric Fan. Induction type motor, non-radio interfering. **Operates on 110 Volts, A.C., 60 Cycles only.** New improved cast iron streamline base with key hole slot for wall mounting. Sturdy worm-drive oscillator. On and off toggle switch on motor housing. Finished in two-tone blue, electrically baked. Strong electrically welded triple ring guard in bright finish. Each in carton. Shipping weight about 8 lbs.

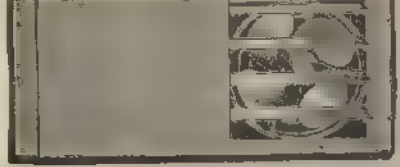
No. 7C28. Each..... 3.85

10-inch Oscillating Rubber Bladed Electric Fan. Quiet, efficient and safe. Induction type motor. **Operates on 110-120 Volts A.C., 60 Cycles only.** Cast iron base, tear-drop design, with latest style streamlined support arm. **4 rubber aerodynamic blades** with bullet shaped nose. Lever type switch, 2 speeds and stop located in base. Oscillating movement completely concealed in motor housing. Equipped with automatic safety release. May be operated as non-oscillating fan. Finished in gun-metalescent, electrically baked, chromium trim. Each in carton. Shipping weight about 8½ lbs.

No. 7C29. Each 6.50

DeLuxe Electric Window Ventilator. Equipped with 10-inch Fan. Made of heavy sheet steel, opal brown finish. Will fit windows from 24 to 32 inches wide, adjustable sliding louvres for protection against inclement weather. Easily operated from inside without removing ventilator. Equipped with 10-inch fan, quiet motor (no radio interference). **Operates on 110 Volts, 60 Cycles, A.C. Current only.** Each in carton. Shipping weight about 11 lbs.

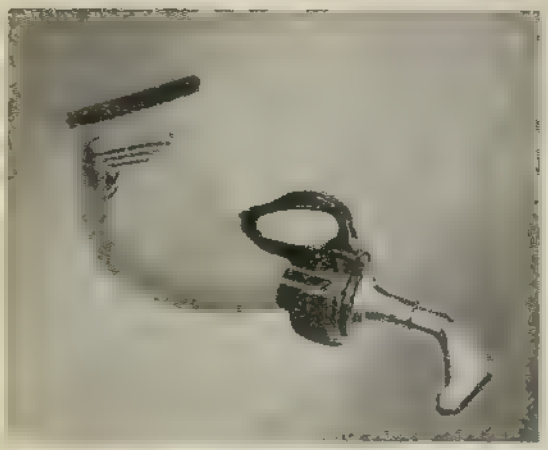
No. 7C19. Each..... 4.



Air-Flow Electric Window Ventilator. Equipped with 10-inch Fan. Heavy metal construction, shutter style. Size 13 inches high, 24 inches long, with slide. **120 Volts, A.C., 60 Cycles only.** On and off switch extension to 34 inches. Shutters controlled by pull-cord. Tight closing keeps out cold and rain when not in use. Equipped with 10-inch fan, induction type motor, non-radio interfering. **Operates on 110-** in cord. Gunmetalescent finish, with chrome plated fan blades. Each in carton. Shipping weight about 14½ lbs.

No. 7C30. Each..... 6.50

Westinghouse *Super Featured* VACUUM CLEANERS



DELUXE HAND VAC with Moth-Proofing Outfit

- 1. Over-powered Suction Action.
- 2. ½ the Weight.

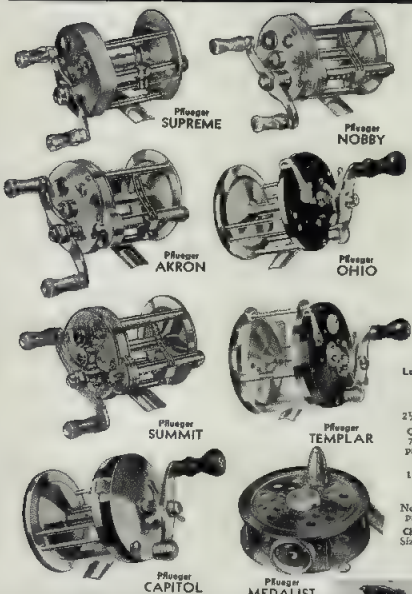
Fish LIKE PFLUEGER *Baits*
Anglers LIKE PFLUEGER *Reels*



● This page appears in April issues of leading outdoor sports publications—again calling anglers' attention to Pflueger Reels and Baits for their new season's fishing.

It should also remind you to re-check your stock of these popular Pflueger numbers—and see that you are supplied with sufficient quantities for ample display and spring sales.

Quality construction in Reels and Baits has made *Pflueger a Great Name in Tackle* and pleased customers for dealers and distributors.

Fishing Contest Leaders

Pflueger Reels lead in national fishing contests year after year. Winners in the 1937 contests now being announced by Field and Stream and National Sportsman—Hunting & Fishing give Pflueger Reels an outstanding lead over all other reels mentioned in both contests.

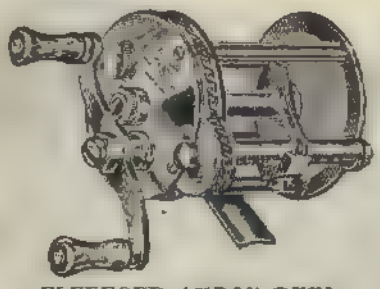
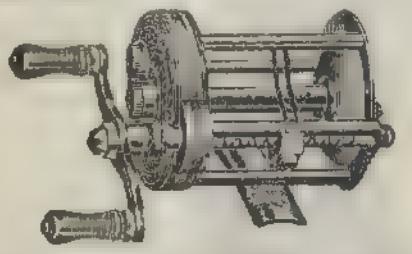
Pflueger, Blue Grass and Spiral Wind Reels



PFLUEGER AKRON REEL

Pflueger Akron, Level-Winding, Anti-back-lash, quadruple multiplying reel with genuine jeweled oil cups. Distinctive design, light weight and built to wear. Fancy crank with green mottled pyralin handles. Phosphor bronze bearings. Diamolite finish. Will hold 60 to 210 yards according to size of line used. Each in box.

No. 16R44. Each..... **3.53**

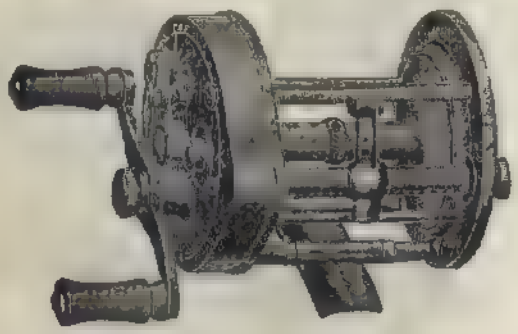


Pflueger-Summit Level-Winding Anti-Back Lash Jeweled Reel. Quadruple multiplying, chrome plated finish. Black and white pearl handles. Mechanically well made and ornamental in design. Has 1⅞ inch pillar and 2 inch plate. Spiral gears. Will hold from 75 to 300 yards, according to size line used

No. 16R61. Each..... **5.88**

Same as above with light spool.

No. 16R62. Each..... **5.88**

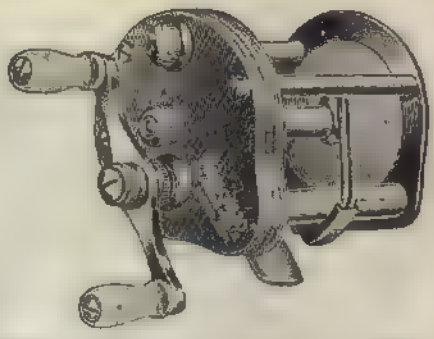


PFLUEGER SUPREME FISHING REEL

Level-Winding Anti-Back-Lash

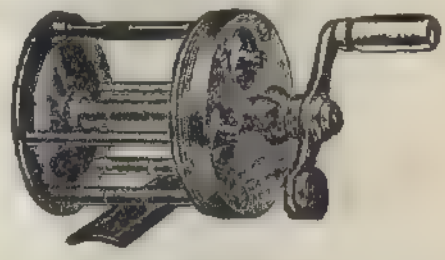
Pflueger Supreme Fishing Reel. Level-winding anti-back-lash quadruple multiplying, generated spiral tooth gears, steel pivots, tempered and polished. Black and pearl handles and all trimmings are chrome plated. Phosphor bronze bearings, adjustable back sliding click, fancy balanced double handle crank. Will hold from 75 to 200 yards according to size of line used. A booklet describing and also giving instructions how to operate reel is enclosed. Each in box.

No. 16R30. Each..... **14.50**



The New Meek. A level winding reel of quality of workmanship and beauty of design well worthy of the name of Meek. Constructed with spiral gears, pinions of finest hardened and tempered Stubs' steel, bronze bearings. Very quiet and smooth running. Non backlash device is instantly adjustable to several degrees of tension. Diameter of spool 1½ inches. Length of spool 1⅞ inches. Capacity 85 to 100 yards 18 lbs. test casting line. Complete with aluminum spool and double grip handle.

No. 16R56. Each..... **10.78**



BLUE GRASS REEL

Blue Grass Reed. A popular size for general purposes, suitable for bass, pickerel, trout and often used for muscallonge and salmon. Made of nickel silver, quadruple multiplier with click and drag and screw-off caps. Capacity 130 yards. Each in box.

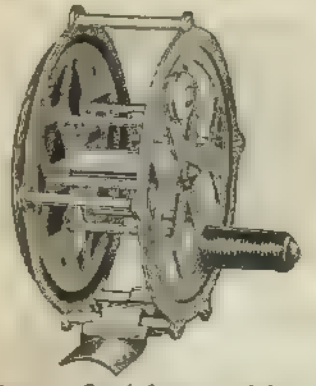
No. 16R48. (Mfg. No. 3B).

Each..... **13.27**

Spiral Wind Bait Casting Reels, permit longer casts and fewer backlashes. With this feature it eliminates numerous parts used in other level-winding reels. New type anti-backlash handles. Quadruple multiplying. The sturdy spiral shaft revolves with an oscillating motion forward and back thru ⅞ of a revolution to 15 turns of the crank. The line follows the low point of the spiral and is laid smoothly the full width of the spool. A choice of two models.

No. 16R51. Spot-Cast Model. Each..... **6.54**
No. 16R52. Tru-Cast Model. Each..... **9.80**

Dependable Trout Reels

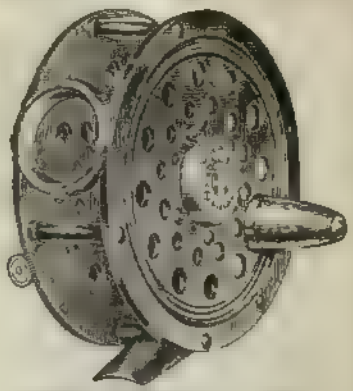


Beacon. Spool flanges and frame perforated to provide line drying facilities. Lustrous gun metal finish. Length of pillar 1 inch. Capacity 80 yds. Adjustable click. Weight 4 ozs. Fits all standard makes of fly rods and casting rods.

No. 16R104. Per dozen. . 5 50
Each .... .50

Weber-Henshall Fly Reel. Beautiful mottled brown finish Bakelite. Very light—4½ oz., yet will not bend or break from dropping. Large bearing axle shaft. Large diameter drum. Bronze scoop of universal pattern fits all fly rod seats. Capacity 100 feet size C line.

No. 16R31. Each 2.00



Pflueger Medalist Reel. Single action, satin nicalum, gun metal finish. Adjustable drag. Line guard of polished Diamalloy. Spool can be instantly detached from frame.

Each. 3.53
No. 16R33. Weight 6 oz.
Each 3.92

Automatic Reels

MEISSELBACH AUTOMATIC REEL

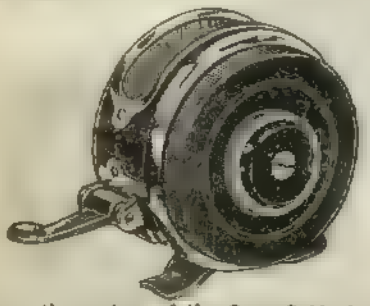
Beautiful in design. As light as a good automatic reel can be made. Constructed of a special metal light as aluminum, strong as steel and most important of all rust-proof. Winding mechanism is completely enclosed. Paying out the line, winds up the reel and a feather touch on the lever reels in the fish. Spring can also be wound up by simply turning drum on top of reel. Weight 10 1/10 ounces

No. 16R64. Each..... .... 2.26

PFLUEGER AUTOMATIC REEL

Pflueger Superex Automatic Reel, satin Nicalum, gun metal finish, ¾-inch pillar, 3½-inch plate, swinging loop line guide of Tungsten steel. All gears machine cut, spool of rigid construction and closely fitting. Instructions for operating and care inclosed. Each in box.

No. 16R40. Each..... 3.53



There are three sizes of the **Oren-O-Matic Fly Rod Reel,** all of which have noteworthy exclusive features. In its design, one aim has been paramount—to produce a quietly operating reel that has the automatic free stripping advantages. It is so constructed that it fits the reel seat in a manner to insure perfect balance and prevent any "rolling in the hand" of the rod when in use. Knurled spring release disc operates silently. It is finished in maroon color with line guide chromium plated. Packed one in a box.

No.	Mfg. No.	Capacity	Each
16R53.	1130B	50 yds. G Line	4 09

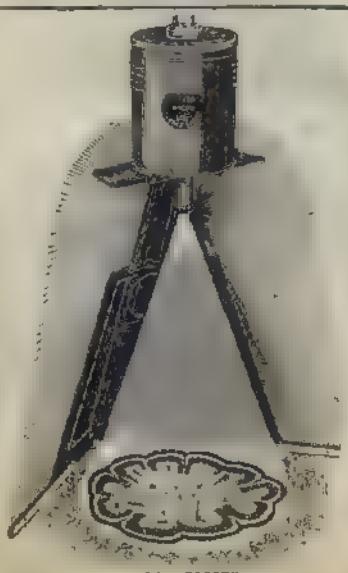
No. 82N110. Each..... 5.85



No. 79N78

Micro-Science Scopes

Micro Science-Scope projects ordinary microscopic slides and biological specimens of insects, wings, eyes, etc., and small sections of flowers, leaves etc. The amazing novel sight of crystals forming in the very act of creation from just a speck of a substance and a drop of liquid, lends enchantment and adds zest to the natural desire to try new combinations with the things at hand around the household. Another big Feature — Micro Science - Scope projects onto a wall as well as onto the paper on the table, with just a simple adjustment. It provides new thrills—continuous interest—stirring excitement as the magnificent effects unfold right before your eyes as the colors change from the deep reds, sapphires, to the cool blues and greens. Kit No. 1. Consists of the Science-Scope, 10 glass slides, 1 pair tweezers, 1 glass rod. Cord not furnished. Uses standard 100-watt frosted bulb. Packed each in box.
No. 79N78. Each..... 2.00

Kit No. 2. Consists of Science-Scope, special 75-watt projecting lamp, double condenser lens, six assorted chemicals, twelve glass specimen slides, tweezer, two glass stirring rods, dissecting needle and instruction book. Packed each in box.
No. 79N79. Each..... 3.33

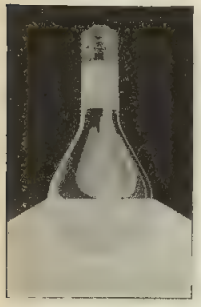
Birdseye Silvered Reflector Lamps

For Direct and Indirect Lighting



Designed to eliminate all waste and to utilize every ray to the fullest extent.

Inside silvering, oversized bulbs, specially placed filaments and neck reflectors concentrate the light and direct it on the work plane.

No light can escape through the neck or through horizontal beams. The application of a light frosting to the entire exterior surface makes these lamps unusually attractive.

Indirect Type

The indirect reflector lamps are coated on the inside of the bulb with pure silver before the lamps are manufactured. This construction reduces maintenance costs on indirect fixtures to a minimum. They have a guaranteed rated average life of 1200 hours.

750	4.00	P.S.52	Mogul	12
1000	4.50	P.S.52	Mogul	12

*Furnished with spirals cut in the silver.

Direct Type

The direct silvered reflector lamps have a guaranteed rated average life of 1000 hours. They require no fixtures or auxiliary lighting equipment, and may be used in any standard unit.

The reflecting features of this lamp will provide from 20 to 35 per cent more illumination on the working area than ordinary lamps, which makes it possible in many cases to use a lamp of lower wattage, thus effecting a considerable power saving.

Uncle Elby's Famous Dog

NAPOLEON

Newest Feature in

MAWAPHIL LINE

New Creations of Mary Waterman Phillips

Sensation of Toy Season

Now Mawaphil exclusively presents another new and totally different novelty *toy—NAPOLEON—the funniest dog in America.* This familiar character is today featured in 600 newspapers throughout the United States and Canada.

In this unique character Mary Waterman Phillips has truly accomplished the unusual. Napoleon can be placed in any position shown in the cartoon. His large roving eyes cause a change of expression with every movement.

Napoleon, like other novelties in the Mawaphil line, will be sensational. You'll profit by placing orders early.

REMINGTON RIFLES

MODEL 37 REMINGTON BOLT ACTION TARGET REPEATING RIFLE

Rangemaster—Model 37—.22 Caliber

Bolt action. Made in .22 long rifle caliber only. Carefully bored and rifled for extreme accuracy. Heavy 28 in. full floating barrel, double countersunk at the muzzle. American walnut stock, full fashioned with pistol grip, semi-beavertail forend, and designed especially for target shooting. Sharply checkered steel butt plate. Remington micrometer rear sight with ¼ minute clicks and with six-hole eyepiece, and large adjusting knobs. Redfield globe front sight with seven inserts. Both sights removable without changing sight setting. Specially heat treated, smooth speed action. Double locking lugs. Double extractors. Detachable magazine box, capacity five shots. Remington patented loading platform for single loading. Adjustable trigger pull. Adjustable front sling swivel. Carney shooting sling made of fine heavy leather. Positive thumb safety. Standard telescope blocks. Overall length 46½ in. Weight approx. 12 lbs.

No. 37—.22 caliber long rifle.....Each **$69.95**

MODEL 341 REMINGTON BOLT ACTION REPEATING RIFLE

Sportmaster—Model 341

.22 bolt action repeater, take-down. 24 in. round tapered barrel crowned at muzzle. Full sized, one-piece pistol grip stock of genuine American walnut. Long, full welt rounded fore-end of semi-beavertail type. Composition butt plate. Chambered to take without adjustment .22 short, .22 long and .22 long rifle, regular or Hi-Speed cartridges. A specially designed Remington rear peep sight adjustable for windage and elevation with two interchangeable discs, and a hooded front sight with four interchangeable reticules. Conveniently located positive thumb safety. Length overall 42 in. Length taken down 30⅝ in. Weight about 6 lbs. Magazine holds 22 only short, 17 long or 15 only long rifle cartridges.

No. 341P—.22 caliber.....Each **$15.20**

Same as No. 341P except that it has a step adjustable rear sight and white metal bead front sight.

No. 341A—.22 caliber.....Each **$14.45**

MODEL 341 REMINGTON RIFLE WITH TELESCOPE

Fitted with Weaver No. 344 telescope, giving 4-power magnification with universal focus. It has an achromatic lens system, giving a clear field of vision of about 25 ft. diam. at 100 yds. Fine cross-hair reticule. Micrometer focus at eye piece. Both windage and elevation adjustments are internal. Controlled by knurled knobs, each click moves bullet ½ in. at 100 yds., ¼ in. at 50 yds. Adjustments are within the scope tube where they are completely protected and will not get out of adjustment. This permits a rigid, single piece mount that is easily removable. Mount is low, yet scope may be used in combination with open or peep sights without removing one or the other.

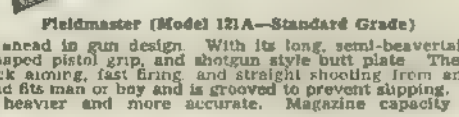
No. 341P Sportmaster repeating rifle equipped with a No. 344 Weaver telescope.

No. 341P-344—.22 cal. with telescope.....Each **$23.45**

No. 341A Sportmaster repeating rifle equipped with a No. 344 Weaver telescope.

No. 341A-344—.22 cal. with telescope.....Each **$22.70**

MODEL 121 REMINGTON SLIDE ACTION REPEATING RIFLE



Fieldmaster (Model 121A—Standard Grade)

A step ahead in gun design. With its long, semi-beavertail fore-end properly shaped pistol grip, and shotgun style butt plate. These features permit quick aiming, fast firing and straight shooting from any position. The fore-end fits man or boy and is grooved to prevent slipping. The barrel is longer, heavier and more accurate. Magazine capacity is greatly increased.

Slide action, takedown, hammerless, solid breech, 24 in. round tapered barrel. American walnut pistol grip stock with shotgun style steel butt plate, grooved long semi-beavertail fore-end; chambered for .22 short, long and long rifle Hi Speed or regular cartridges which may be used interchangeably without adjustment. Magazine holds 20 short, 15 long or 14 long rifle cartridges. Rear sight with adjustable step for elevation, white metal bead front sight, length overall 41 in., length taken down 27½ in. Weight, about 6 lbs.

No. 121A—.22 short, .22 long, .22 long rifle..... Each **$26.95**

Elsinore

STERLING SILVER — GRAY FINISH

GUARANTEED 925/1000 FINE

In Elsinore—silver design takes a Danish trend, and from the far-off shores of Denmark comes the inspiration for this service of reposeful harmony and blending beauty

Named for Hamlet's castle, on the waters of the Oresund, Elsinore follows the age-old principles of pure design, and with them commingles a touch of present day feeling, giving to the flatware and matching hollowware, unusual grace of line and beauty of proportion.

Trianon

STERLING SILVER — GRAY FINISH

GUARANTEED 925/1000 FINE

The more restrained beauty of the French Renaissance is evident in Trianon. Outlines as simple and stately as those of a Greek temple are crowned with a rich and graceful ornament. Here is a contrasting of elements that makes this silver particularly adaptable.

Trianon is a design for those happy conservatives who prefer to express their appreciation of beauty in quiet and subtle ways. Its simple dignity, its remarkably fine workmanship make it doubly impressive

Simplicity

achieves its glory by its grace of line and the subtle modulation of the handle from pleasant weight to tapered, up-tilted delicacy. Its only adornment is your monogram — the final personalizing touch.

WM. ROGERS & SON—*Reinforced Plate*

Talisman Pattern

Illustration shows Viande Style Knife and Fork (Reduced Size)

Talisman pattern was selected from a number of beautiful silverware designs by more than 1600 representative young women in sixteen typically American cities, from coast to coast.

Talisman is another "natural" in name, for it suggests a charm or memento, to bring good fortune; also, the beautiful Talisman Rose. Both are skillfully interpreted and combined into one magnificent pattern by the world's foremost silverware designers—then —overwhelmingly chosen by this vast jury of American women.

Rolls Razors

QUANTITY PRICE APPLIES ON PURCHASES OF SIX PIECES OF ONE STYLE OR SIX PIECES ASSORTED

THE IMPERIAL NO. 2 MODEL

The Imperial No. 2 Model Rolls Razor. Has many marked advantages over the usual type of safety razor. It is very compact and simple to handle. Its first cost is the last, for the One Safety Blade of a Rolls Razor is tooled from the finest Sheffield steel, hollow ground the same as a straight razor. Properly handled it will give a lifetime of perfect shaves. The attractive metal case contains the blade, its handle and an automatic stropping and honing device. This model nickel plated throughout.

No. 83J22. Each 6.53
In quantities of six or more. Each..... 5 00

THE IMPERIAL NO. 2A MODEL
WITH EXTRA BLADE

The Imperial No. 2A Model Rolls Razor. This particular model has an extra blade and is equipped with a telescoping handle. Nickel plated throughout. A rich appearing and practical razor that would be appreciated by the most discriminating persons. Each razor with its extra blade is in an attractive imitation red leather covered metal case.

No. 83J342. Each 9 80
In quantities of six or more. Each..... 9.00

THE IMPERIAL NO. 3 MODEL
WITH EXTRA BLADE

The Imperial No. 3 Model Rolls Razor with Extra Blade. The razor case of this model is made of stainless metal which is non-tarnishable. The shaving handle is telescopic and a spare blade is provided in a polished metal container. Each of these razors with extra blade comes in rich mottled brown outer case which adds an aristocratic touch to its appearance.

No. 83J343. Each 13.06

Rolls, World's Finest Safety Razor

Rolls Razor

This is the finest safety razor on the market today regardless of price. It has many marked advantages over the usual type of safety razor. It is compact, complete and its first cost is the last, for the One Safety Blade of a Rolls Razor is tooled from the finest of Sheffield steel, hollow ground the same as a straight razor and, properly handled, will give a lifetime of perfect shaves.

No. G13701 "Imperial" No. 2 model. This razor is nickel-plated throughout, and its shaving handle is not telescopic. It is in a strong cardboard box and its shaving efficiency is of the usual Rolls Razor quality.
Price, each $15.00

No. G13702 — The "Imperial" No. 2A model is nickel plated throughout. Its shaving handle is telescopic and a spare blade is included in the handsome red outer case.
Price, each.. . . . . $22.50

No. G13703—Rolls Razor Shaving Soap Bowl and Refill. The Rolls Razor Shaving Soap is ideal. The soap is free and fine in its lathering qualities and being particularly pure, will not irritate tender skins. The moulded "Rollsite" Bowl with its "quick-release" lid is handy for traveling and hygenic in use.
Price, each $1.00

No. G13704—"Imperial" No. 1 model. Heavily electro silver-plated case and beautifully finished throughout. Has telescopic shaving handle. Contained in mottled blue case with rounded corners.
Price, each. $18.75

No. G13705—"Imperial" No. 3 model (with spare blade). The razor case of this model is made of stainless metal which is non tarnishable. The shaving handle is telescopic, and a spare blade is provided in a polished contained. The rich mottled brown outer box lends an aristocratic air to this model.
Price, each $30.00

No. G13706—Rolls Razor Soap Refill. Soap refills may be obtained which only need pressing into the bowl, which has an indefinite lifetime.
Price, each. $1.00

ROLLS RAZOR SPARE PARTS

No. G13707—Extra Blade with guard.
Price, each $4.00

No. G13708—Hone Stone.
Price, each. $2.40

No. G13709—Strop.
Price, each $1.60

No. G13710—Shaving handle.
Price, each. $2.50

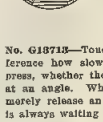
No. G13711—Strop lid only, (no strop)
Price, each. $2.40

No. G13712—Hone lid, (no hone).
Price, each. $2.40

MYSTERIOUS RONSON

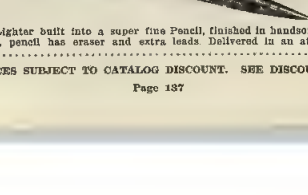
Touch-Tip

FOR HOME AND OFFICE USE



Touch-Tip and its' lift

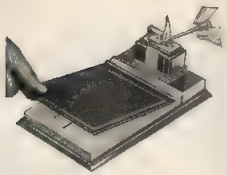
No. G13713—Touch-Tip. It makes no difference how slowly or how quickly you press, whether the Touch-Rod is erect or at an angle. When you Touch Tip, you merely release an automatic action which is always waiting to serve you. Base and fitments of polished chrome plate. Body of handsomely finished Ronsonoid in black. List price. $7.25



No. G13714—A genuine Ronson Lighter built into a super fine Pencil, finished in handsome chrome, engine turned design with pocket clip and monogram shield, pencil has eraser and extra leads. Delivered in an attractive gift box. Outstanding gent's gift for all occasions. Price, each. $4.65

LIST PRICES SUBJECT TO CATALOG DISCOUNT. SEE DISCOUNT SHEET

RONSON TOUCH-TIP WITH CALENDAR PAD

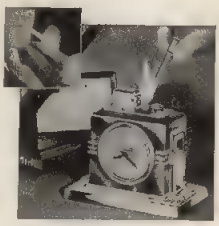


Ronson Touch-Tip with Calendar Pad. Lighter is a modern version of the famous Ronson Touch Tip with its liberal fuel capacity. The replaceable appointment or memo pad is fastened under an attractive gold stamped hinged cover. The daily calendar pages themselves provide space for half hour appointments throughout the day, with additional room for memoranda and calendar for the current and following months. Perforated lines permit the removal of the date panel for incomplete memos, or the entire page.

A convenient pencil or pen ledge is fastened between Touch Tip and Pad. Attractive duo-bronze finish, enameled in tortoise

No. 83J359. Each $21.60

Touch-Tip and Watch Combination

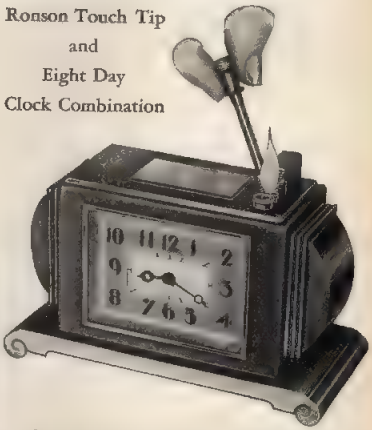


Ronson Touch Tip and Watch Combination Enameled in Tortoise or Black with base and fitments in polished Chromium Plate. Built-in watch—dependable stem wound, stem-set. Height 4 inches.

No. 83J197. Each $16.50

Shown in greatly reduced size

Ronson Touch Tip and Eight Day Clock Combination

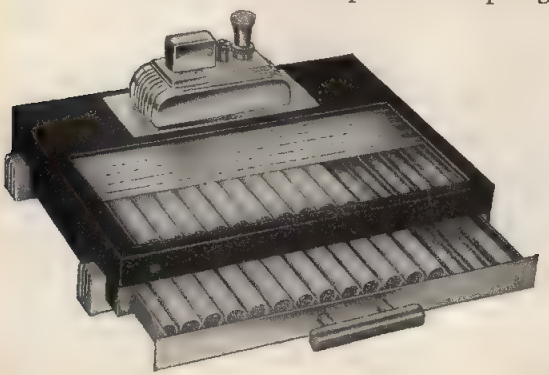


Ronson Touch-Tip & Eight-Day Clock Combination. A handsome simple and substantial desk or table combination, featuring modern classic lines. Clock has a highly dependable 8-day movement and a large, legible, rectangular dial; the Touch-Tip Lighter has a large fuel capacity requiring filling only once in several months. The model is finished in Copper Bronze, in two-tone effect, while dial is finished in Two-Tone Silver with black numerals. Height 5 inches, Width 8¼ inches, Length 7 inches

No. 83J288. Each $30.00

Shown about half actual size

Ronson Roll Top Touch-Tip Cigarette Cabinet



Ronson Roll Top Touch-Tip Cigarette Cabinet Streamlined Touch Tip Lighter built into handsome, modern Cigarette Cabinet. As the drawer is pulled open, the metal slatted top slides back mysteriously. Both the upper compartments and the drawer space are fluted to hold cigarettes in place. Exterior handsomely plated in genuine Chromium and richly enameled in Black. Interior of compartment and drawer fashioned in RONSON Duresco, a thru and-thru alloy in rich yellow gold effect. Height 8⅜ inches, Width 8¼ inches, Length 8 inches

No. 83J289. Each $30.00

UP TO THE MINUTE!

AUCTIONEER
$1.00 Retail

Zestful game of furious bidding for unknown prizes. Game includes gavel and derby hat for the auctioneer, plus toy money, pads, pencils, prize envelopes, etc., in decorated box.

CHINESE CHECKERS
25c, 50c, $1.00 Retail

Beautifully boxed playing board with indentations to hold 100 marbles in star formation. Players move and jump marbles from one star point to another, similar to the game of checkers. Complete with colored glass marbles in elaborate box.

TIME $2.00 Retail

Novel, scintillating game of chance. One player acts as banker for 3 to 9 "gamblers" who risk their chips on the turn of a card. Deck of 72 number cards, 200 chips, etc., in brightly decorated box.

VOX POP
50c Retail

Best question and answer game, based on the popular Johnson and Butterworth VOX POP radio program. Seven sets question cards, answer cards, colorful counters for prizes, in attractive box.

Milton Bradley, ever watchful for new, popular game ideas, presents these five new successes—tested, approved, and demanded by the American public. They're more than modern; more than popular! These games have everything—low price, good looks, distinctive appeal, and fun galore. Put 'em on your counter and watch your customers shell out their quarters and dollar bills! These new numbers are games of chance played without dice — so popular they are ordered in dozens by discerning buyers.

CHECKO $1.00 Retail

New, unique number checking game with unusual scoring feature. Players place small number cards on master card in furious attempts to total highest score. Eight master cards, 8 sets small cards, 52 checko cards, etc., in colorful box.

960-E	90.00	84	18 to 48	496

Universal One Man Turntables

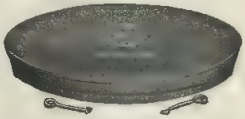
Loaded to full capacity or carrying no weight at all a Universal Table may be turned by one man

The reason for this ease of turning is the ball race course. Unlike the ordinary ball bearing turntable, the Universal is equipped with a serpentine course, which eliminates fully 75% of the friction met with where the ordinary race course is used

The table is revolved on a serpentine circular track filled with 2, 2½ or 3-inch balls, according to the diameter. As the weight of the table is sustained only by those balls at the highest point, friction is greatly reduced. The balls roll around the race course in the ordinary manner.

Each table, regardless of size and style, is 6 inches in depth, which allows it to be placed in any flooring. The construction is such, the top casting overlapping the bottom, that there is no place for dirt to accumulate.

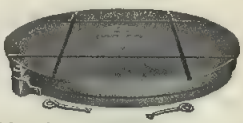
No. 1 Turntable



No. 1 Universal, Serpentine Track, Ball Bearing, Turntable is made with plain checkered top, without grooved track. Without locking device.

Diameter Feet	Gauge	Weight Pounds	Price Each
3½	18 to 24	730	$85.00
4	18 to 30	850	90.00
5	18 to 36	1250	130.00
6	18 to 42	1725	150.00
7	18 to 48	2435	220.00
8	18 to 56½	3125	285.00

No. 2 Turntable



No. 2 Universal, Serpentine Track, Ball Bearing, Turntable is made with grooved track top and locking device.

Diameter Feet	Gauge	Weight Pounds	Price Each
3½	18 to 24	780	$90.00
4	18 to 30	925	100.00

A Trade To Bank On

How About Your Stock of Carrom and Crokinole Game Boards

There will be a bigger demand this fall for **Carrom, Crokinole** and combination game boards than ever before. It is a trade to bank on. The steadiest and most actively increasing line in the entire toy trade. We know this by actual comparison. ***We can prove*** that the demand for **Carroms, Crokinole** and our combination game boards has shown a steady, consistent increase year after year.

The point is—get your share of this business. If your stock is low, let us send a new supply of boards at once. ***Handsome new catalogue*** illustrating latest features in Carrom, Crokinole and combination boards. Every board illustrated in natural colors and fully descriptive of the various games.

CARROM-ARCHARENA CO., Ludington, Mich.

And It's Just As True Today

The above advertisement appeared just about 30 years ago, but we think we could write a better sales talk for Carrom Board today. It is said that things change overnight these days, and a lot of them do. But lots of basic things are as true today as they were when some of you who are reading this were youngsters. And we are expressing the exact facts when we say today, as we said in 1908, "There will be a bigger demand this fall for Carrom, Crokinole and combination game boards than ever before." We repeat again "If your stock is low, let us send you a new supply of boards at once." It was good advice in 1908 and it's just as good advice today.

The Carrom Company • LUDINGTON • MICH.

REORDERS ON "KAN-U-GO"

The A. A. Burnstine Sales Organization is highly pleased over the many reorders which are being received daily from all parts of the country on their popular "Kan-U-Go" crossword card game. Mr. Burnstine feels that this is a definite indication of a brisk fall and winter sale for this intriguing game which caught on so strongly with game fans last season. Hardly a day passes but that the Burnstine firm does not receive one or more letters from confirmed "Kan-U-Go" enthusiasts. Several people in various parts of the country have even taken the trouble to order a half dozen or a dozen "Kan-U-Go" games for their friends. It is this sort of reaction, direct from the consumer that leads Mr. Burnstine to feel that "Kan-U-Go" has won a strong and definite place in the hearts of game lovers.

TOYS FOR BRITAIN

Murray & Jenner, Inc., are now interested in buying toys and games and novelties for export mainly to the British market, and manufacturers should get in touch with this company, which is controlled by Mr. Edmund Jacobson and Philip J. Mereine, both of London, England. The office is at 11 West 42nd Street and the telephone number is Pennsylvania 6-8943. It will be recalled that Mr. Jacobson is buying on behalf of Kay (Sports & Games) Ltd.).

KAHN COSTUMES FOR 38 YEARS

M. L. Kahn, of New York City, pioneer manufacturer of doll costumes, during a recent conversation with a PLAYTHINGS representative, stated that he has been engaged in beautifying dolls for the past thirty-eight years. "M-L," who has seen the American doll industry grow from infancy to its present dominating position, is a firm believer in quality merchandise and, as a result, enjoys an enviable reputation in his field. This year's costumes reflect the modern style trend in infants' apparel, with added artistic touches in design that make them outstanding examples of what the well-dressed doll should wear.

MARIONETTE OUTFITS

In the opinion of H. M. Porter, of the Hull Manufacturing Company, Hagerstown, Md., extraordinary values are necessary today to produce volume sales. Working in conjunction with their sales staff, Levy, Osten & Co., and several leading department store buyers, the Hull Mfg. Co., has designed a very unusual and attractive Marionette Outfit consisting of a beautifully decorated stage 35" x 26" with a backdrop and front curtain that can be raised and lowered. The Marionettes are operated by means of five string controls. The entire outfit, attractively packed, and including directions, and a three-act marionette playlet, is priced to retail for $1.00, with a liberal margin to the trade. An elaborate Demonstrator, showing the Marionettes in motion, actually walking with swinging arms and moving head, is available to the trade at less than the actual cost of manufacture.

JUNEL'S ALL NATION DOLLS

A comprehensive line of All Nation Dolls to retail for $1 and $2 is being offered by Junel Novelties, Inc. In the $1 series 11 characters, 15" high are available, while the $2 group includes 16 characters, 16". These dolls have soft bodies, artistically hand-painted faces and are colorfully costumed to depict people of all principal countries.

Junel's Dutch Doll

STONER CORP. INTRODUCES 'TRIMLINE' PLAYTHINGS

The Stoner Corporation, Aurora, Ill., for years have been successfully manufacturing amusement devices, and lately have turned their attention and concentrated efforts to products of an essentially juvenile character. Known as the "Trimline" this group of juvenile items embraces furniture, shoofties and games, with play action embodied in each, and all designed along trim and graceful lines that well conform with the name given it. Among these new furniture numbers created by Stoner is a beautiful model Vanity Dresser and chair combination, constructed of English maple, and provided with round plate mirror 12" in diameter. Top dimensions of the dresser are 14"x20", finished in chrome hardware; the entire set possessing a decidedly smart appearance, sturdily built, and practical. This set we are told was highly acclaimed at the 1938 Toy Fair.

In addition to the vanity set there is a "Classmate" desk and chair set for studious scholars for home work, and midget, standard or de Luxe table and chair sets of equal attractiveness and customer appeal. A 2-passenger "Teeter-Rocker" for indoor or playyard use is another item of the line for small children; also a shoofly, with non-creeping feature, provides infinite advantages for toddlers. Another play action number in this extensive line is the "Galloping Bronc," a rocking horse with new riding action and safety provision for youngsters from two to six years old. Several games are included in that range, among them being "Skiball" (here illustrated), that is intended for grown-up amusement as well as for children. With unique scoring principle this fast action marble game is one full of interest for players of all ages.

The Stoner Manufacturing Corp. have appointed Levy, Osten & Co. factory representatives, and the entire Stoner Trimline of juvenile play-action furniture, games, etc., are on permanent display at the showrooms of Levy, Osten & Co., Fifth Avenue Building, New York City. For further details regarding the line the manufacturers invite requests for illustrated catalog, and such inquiries by the trade may be addressed to Levy, Osten & Co. or to Stoner Mfg. Corporation, Aurora, Ill.

No. 143 MECHANICAL WALKING PENGUIN. One of the most appealing new mechanical action toys on the market. Moulded of light, but exceptionally strong composition, this realistic Penguin is finished in black and white enamels with an orange beak and webbed feet. It waddles along as if it were actually alive—an entirely different type of action, never seen before. The Penguin stands 9" high, and is equipped with a powerful motor with separate key. Packed in a red and black display box, 9½" high x 5½" wide x 5⅛" deep. Retails at $1.00.

The Scotty Line of plastic toys includes many unusual fast-selling items. The Musi-Kazoo for kitchen bands and novelty orchestras, the Siren and Two-Tone Tooter for noise making, the two color Quintuplet Bubble Pipe, and the Unbreakable Police Whistle are products with wide sales appeal. There are also complete outfits, such as Radio Patrol Sets with Sirens, Microphones, Police Whistles, Guns and Holsters, etc., as well as Musical Noise Maker Sets for fun of parties. Ask your regular supplier to furnish complete descriptive literature, details and prices.

SCOTTY TOYS

LEWIS & SCOTT MFG. CO., INC., PLANTSVILLE, CONN.

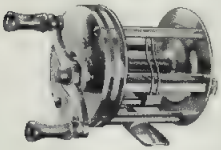
This Tackle Executive Not Shooting Fish

"MITCH" JAMAR of James Heddon's Sons, Dowagiac, Mich., stepping into action on a covey of quail while on a recent visit to Florida. The picture was taken by Eaves Allison, Leesburg, Fla., tackle dealer, who with Heddon's Lou Caine, accompanied Jamar on the hunting trip. "Next to fishing," said Jamar, "I love to hunt, and this is the first time I have shot quail since I was a small boy. We also did some bait casting, both fresh water and salt, and had fine results on small tarpon and snook using that new Heddon Chugger Spook with ordinary bait casting outfits."

SHAKESPEARE PIONEERS TWO MONEL METAL REELS

Two new monel metal level winding reels, the No. 1936 Superba, pictured herewith, and the No. 1968 Majestic, introduced in 1937 by the Shakespeare Company, Kalamazoo, Mich., are reported by that firm to be enjoying growing popularity, particularly in salt water territories. Besides its well known corrosion-proof qualities, monel metal also offers great strength with comparatively low weight. With the exception of the new balanced adjustable drag, designed for continuous use in casting, featured on the Superba, the same quality features are found on both reels. Both the Superba and majestic reels incorporate the exclusive Shakespeare features of three-unit design (frame, spool and head-cap assembly), patented instant take-down, level wind and matched spiral gears.



SUNSHEEN 1938 PRICE LIST ISSUED

Price lists for 1938 were recently mailed to the tennis trade by the Sunsheen Tennis String Company, 1121 Twenty-first street, Oakland, Cal. New items quoted in it include Qualitee gut, suggested as an eight dollar retail number. Among the firm's line of accessories is a splicing clamp to aid in repair work. The string line shows a few new colors, but no price changes.

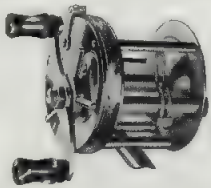
Shakespeare Service Reel in Stainless Steel

The Service reel of the Shakespeare Company, Kalamazoo, Mich., is now available in stainless steel at only slightly higher prices than the regular models. The non-corrosive qualities of stainless steel make this new reel ideal for salt water use. In addition to the sturdy and dependable qualities of the regular model Service reels, a three-piece bridge gives added strength and guarantees perfect alignment of gears at all times. The finish is bright buffed chrome with Burlite head ring. This is a long-lived free spool reel equipped with new spindle type star drag and knurled throw-off lever. It is also available in non-free spool, with the same efficient design and finish, but minus the star drag and throw-off mechanism.



F. T. C. GOLF BALL DECISION ANNOUNCED

Eight golf ball manufacturers and their trade association the Golf Ball Manufacturers' Association, 105 Nassau street, New York City, and its officers, and the Professional Golfers' Association of America, 14 East Jackson boulevard, Chicago, Ill., its officers and a number of its members were served by the Federal Trade Commission on February 28 with an order to cease and desist from various pricing practices held to be in violation of the Federal Trade Commission and Robinson-Patman Acts. The respondent manufacturers are: A. G. Spalding & Bros., John Wanamaker, Inc., L. A. Young Golf Company, Worthington Ball Company, Wilson Sporting Goods Company, U. S. Rubber Products Company, Dunlop Tire & Rubber Company and Acushnet Process Company. Certain individual golf professionals also were named respondents as representative of approximately 1,500 members of the Professional Golfers' Association engaged in the retail sale of golf balls throughout the country.

CYCLES TO SHOW AT 1939 WORLD'S FAIR

The return of cycling as one of the nation's most popular recreational sports will form the theme of a dramatic exhibit by the Cycle Trades of America in the building, MAN—His Clothes, His Sports, being erected at the New York World's Fair of 1939

E. H Broadwell, general manager of the organization, made known the theme when he announced that contracts for an exhibit room of 800 square feet space had been signed recently between the Cycle Trades of America and the Men's Apparel Quality Guild, sponsors of the building. Both bicycles and exercise bicycles on rollers will be displayed.

"LEARNING TENNIS" BOOKLET PROVES POPULAR

Harry C. Lee & Company, 10 Warren street, New York City, have published an interesting and instructive booklet titled "Learning Tennis" by Karel Kozeluh. Lessons on all phases of the game by this well known player and coach of the American Davis Cup team are presented in the booklet, which is being sold to dealers with their imprint on the cover for five dollars per hundred. Individual copies are suggested to retail at 15 cents each.

"Learning Tennis" made a hit immediately upon its introduction recently and, at this early date, a second printing is being run.

SHIRLEY TEMPLE DOLLS

All sizes, with moving eyes, hazel, just like Shirley's. Each size is Shirley Temple to the life. Each size reproduces, with photographic fidelity, Shirley's winning smile, laughing eyes, cute dimple and natural hair, worn as Shirley wears hers. Each size dressed in authentic copies of the clothes worn by Shirley in her hit pictures Each size packed in a special Shirley Temple box bearing the little star's picture and signature confirming that it is the one and only Shirley Temple doll Each doll wears a celluloid Shirley Temple button which her little mother can proudly wear to school

These Shirley Temple dolls are all made of hard-to-break composition, with unbreakable glace-like eyes

An 8x10 in. autographed photo of Shirley Temple suitable for framing comes with each doll

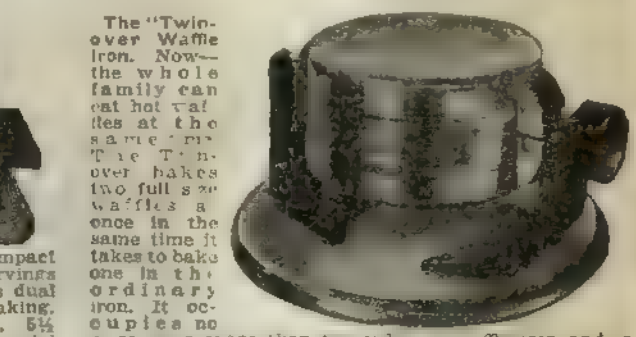
Manning-Bowman Quality Electric Appliances

Top section of the Twin Reversible waffle iron ready for the waffle batter.

Reversing the Twin Reversible waffle iron for baking the second waffle.

The "Twinover" Automatic Waffle Iron. And here is the automatic version of the Twinover, America's most talked of waffle iron. Think of it—two delicious full size waffles every time—and baked automatically to suit the taste all the time. The new waffle dial can be turned in on any kind of waffle all the way from "Light" to "Dark" with four intermediate positions for more exacting tastes
No. 2G25. Each **11.90**

Twin Waffle Iron. The new "Twin" is a compact efficient appointment that bakes twin waffle servings quickly and to a turn. The single base with its dual covers make for faster, more economical waffle baking. The aluminum baking grids are good size, 5½ inches square, and each case of each cover has a special expanding hinge that insures heat will cooked waffles. The bottom tray is designed to catch any slight overflow of batter. Chrome finish with solid walnut trimmings. Overall size 14 inches long, 8⅝ inches wide, and 4½ inches high.
No. 2G27. Each **6 08**



The "Twinover Waffle Iron. Now—the whole family can eat hot waffles at the same time. The Twinover bakes two full size waffles at once in the same time it takes to bake one in the ordinary iron. It occupies no more table space than the ordinary waffle iron and is as simple to operate. This double duty iron is finished in chrome plate and mounted with brown bakelite. The handle support is fastened top and bottom, to keep the waffle iron always in an upright baking position. A sensitive bake indicator in the top tells when to put in the batter and warns user if he permits the iron to get too hot.
No. 2G26. Each **8 53**

The "Puritan" Automatic Waffle Iron with New Dial Control. The dial control is the most sensitive instrument yet devised for automatic control of waffle baking. From "crisp and crunchy" to "light and moist" the waffle dial gives a wide selection to meet varied tastes. Including "Dark", "Light" and "Off" seven positions are clearly marked on the brown bakelite dial. The aluminum grids are full 7 inches in diameter and a special trough on the lower grid catches any surplus batter. An expanding hinge at the back assures light delicious waffles. For use on A.C. only.
No. 2G7. Each..... **6.75**

Quality Waffle Iron. Chromium plated waffle iron at a low price, with heat indicator that takes the guess work out of waffle making. The grids are pure aluminum, 7 inches in diameter. Attractive black molded trimmings. Complete with silk covered cord and double plug. Our price leader
No. 2G6. Each **3 58**

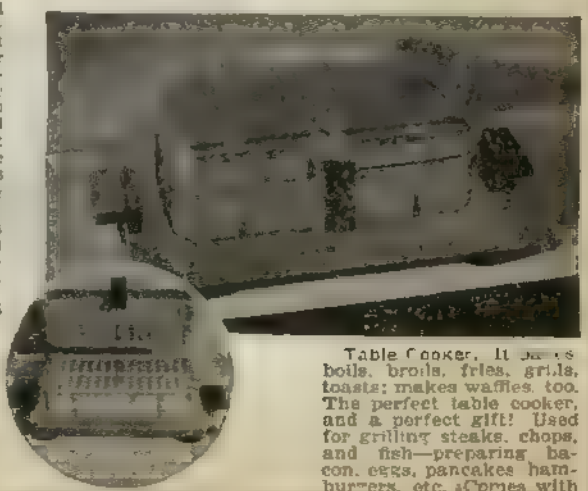


Table Cooker. It bakes, boils, broils, fries, grills, toasts; makes waffles too. The perfect table cooker, and a perfect gift! Used for grilling steaks, chops, and fish—preparing bacon, eggs, pancakes hamburgers, etc. Comes with [illegible] grids of pure aluminum size 7x7 inches, for making waffles at the same time. Oversize heating elements in both upper and lower grids. The cooker is finished in [illegible] with solid walnut handles. Complete with silk covered cord and double plug
No. 2G64. Cooker only. Each **4.70**
No. 2G55. Cooker with Waffle Grids. Each..... **6.08**

Genuine **SILEX**

Coffee retains its own delightful taste, unspoiled by metallic corrosion, when made in Silex. The bowls of Silex are impervious glass, and Pyrex at that, guaranteed against heat breakage.

Not only can you see through transparent glass to assure yourself that Silex is clean, but Silex is easier to keep clean . . . it has fewer parts than the old-fashioned devices, and the Silex parts are easily rinsed under the faucet

Serve Perfect Coffee. Use "Anyheet" Control Plug and Cord

SILEX JR. ELECTRIC MODEL

No. G28201—A popular priced model with compact, pedestal style stove (yet like all Silex electric stoves it has the "quick cooling" feature that controls the period of infusion between water and coffee). Handle, neck, cover and stove base furnished in black only

6 cup size $7.40
No. G28202—8 cup size 7.40

SILEX JR. KITCHEN RANGE MODEL

No. G28203—The Silex Jr. Kitchen Range Model is the most popular Silex glass coffee maker for use over an open flame. The Pyrex brand glass, guaranteed against heat breakage, can be used safely over any heat—gas, coal or oil. No protective mat needed. Gives you full-flavored coffee because it makes coffee in glass protecting you against "metallic corrosion." Furnished with handle, neck and table mat in black only

Comes in Pyrex brand glass guaranteed against heat breakage

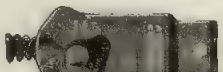
12 cup size $10.42

No. G28206—New Yosemite model 8-cup Electric Stove model Handle, neck, cover and stove base furnished in black only. Complete with Anyheet control plug and cord

Price each $10.50

Anyheet Control

IT'S AUTOMATIC



Keeps coffee warm automatically. The new Anyheet Control Silex Coffee Maker.

The Anyheet Control automatically controls coffee temperature after brewing.

The last cup of coffee can now be served at the same temperature as the first. Coffee may be poured for one member of a family during the meal, and for another after dessert forty minutes later . . . yet there is no change in temperature. Moreover, maintaining temperature constantly preserves coffee flavor unchanged

ALSO OPERATES AS AN ON-AND-OFF SWITCH

When brewing you turn to the "high" position. When coffee rises to the upper bowl you turn it to the "off" position. So far it acts as a switch. But after brewing you turn to any position desired inside the "low heat range."

Anyheet Control is the only heat maintaining device not interfering with the exclusive Silex advantage of complete brewing without removing glass from stove.

Anyheet Control is available to old as well as your new Silex glass coffee maker users.

No. H28207—Anyheet control Plug and Cord complete to fit any Electric Silex model

Price each $2.25

SILEX ELECTRIC COFFEE SERVICE

1847 ROGERS BROS.

For 90 Years America's Finest Silverplate

LOVELACE PATTERN

Like the presentation of a social leader, the rare distinction that sets her apart from all other debutantes—tells you at once that you are in the presence of a future social leader. And so with LOVELACE—it is destined to be the greatest pattern of the generation. One glance tells you that it is lovelier than any other plate. For only the skill of 1847 Rogers Bros. craftsmen made it possible. Orange blossoms, with the daintiness of wedding ring design—delicate open-work as lacy as a bridal veil. It will start a new trend in silver styles.

COMMUNITY PLATE

Berkeley Square Design

Berkeley Square is a thoroughly modern design. The plain flat edge with the occasional notches surmounted by the little half-round tip combines charmingly with the simple leaf, the two disks and the flat bands of the shank. The strictly modern treatment of graceful outline, simple ornament and plain surfaces make Berkeley Square a design of rare beauty and charm.

COMMUNITY PLATE

Lady Hamilton Design

The charm that has flowered in the smart world of today, blooms now for today's table in this new Community design—a charm as old as Eve, as young as tomorrow's bride. In its exquisite simplicity the Lady Hamilton blends the essence of modern design with unmistakable implications of aristocracy.

COMMUNITY PLATE

Deauville Design

The keynote of The Deauville design is its sophisticated simplicity. Full of dash and spirit that modern style demands, yet it possesses the dignity, the restraint essential to true distinction in any art.

COMMUNITY PLATE

FEATURE THE NEW RENDEZVOUS DESIGN

Not only . . . because it will be strongly advertised in the leading magazines. Not only . . . because it is the newest creation by the Master-Designers of Community Plate. Not only . . . because Elegance is the true style note of today . . . But also . . . for those many, many women who want a design in Community Plate that is richly ornamented all over.

STEERING COASTERS

SILVER BULLET

Streamlined

Chromium plated front gear, aluminum finish uprights or knees and runners. Black enameled top, attractively stenciled in red. Runners of high grade spring steel with deep grooves and heavy steel front end. Shaped setback bar that is flexible, making steering easy. Top is securely held with rivets and washers which will hold indefinitely

Nos.	736	745
Length, in.	36	45
Width, in.	12	13
Per dozen	$35.40	47.40

Sixth Dozen in a Bundle with Cardboard Between to Avoid Damage to Top

SPEED KING

Streamlined

Light in weight, strong and sturdy to stand the bumps, steers easy and slides over the snow fast. Has all the features which every child desires. Selected shaped ash top and side rails, heavily varnished on both sides, high quality steel grooved runners, uprights or knees of heavy gauge steel to insure rigidity and strength, cleats or braces holding top have turned ends without sharp corners all rivets holding top have washers to prevent pulling out easily. Woodwork is natural finish and attractively decorated and red painted runners.

Nos.	Per Doz.	Length In.	Height, In. Front	Height, In. Rear	Width In.	Knees
320	$18.00	32	7⅛	6¼	11¾	4
360	24.00	36	7½	5¾	14	4
400	27.00	40	7½	5¾	14	4
450	33.00	45	7½	5¾	14	4
500	39.00	50	7½	5¾	14	6

TOP SPEED

Length 32 in. Set back bar, white pine seat boards without much striping, otherwise similar to No 320.

No. 232 .....Per dozen $15.00

Sixth Dozen in a Bundle

MICKEY MOUSE

Sturdy, easy steering sled, decorated in color showing Mickey Mouse dashing down hill on his sled, with Minnie Mouse excitedly standing by. Natural finished top, red enameled runners.

Length 30 in. Height 5½ in. Width 11 in.

No. 80.....Per dozen $16.80

Sixth Dozen in a Bundle

FLEXIBLE FLYER AIRLINE SLEDS

Airline Eagle

Streamlined from curved bumper and steering bar to the turned up runners at the back. The sloping seat completes the streamline effect. The oval seat consists of three boards, the outer end of the side pieces being raised above the flat surface, affording edges on which the user can get a secure grip. The old type of hand rail has been eliminated. The seat is riveted to the supports. The boards are tapered to carry out the streamline effect—wider in front but narrower in the rear. Have a new steering principle, made of a special analysis steel, which enables user to steer twice as sharp as formerly without upsetting. The wood parts are selected white ash with natural finish. The runners and standards are red, the bumper, front rails and steering bar are chromium plated.

Length 51 in. Height: rear 5⅛ in., front 6⅛ in. Width 12 in. 4 knees.

No. 151.....Each $9.45

Two in a Bundle

Airline

Same as No. 151, except the bumper and front rail are black enameled and the steering bar is wood, natural finish.

All sizes have the smartly curved steering bar, the oval seat, and the runners gracefully curved up in back—the safest runner construction ever offered.

Also have the famous patented super-steering which doubles the ease and range of steering—and the safety of sledding.

Nos.	Name	Each	Length In.	Height Rear In.	Height Front In.	Width In
37	Ace	$3.50	37	6	6	12
41	Pilot	4.25	41	5	6	11¾
47	Pursuit	5.50	47	5¼	6¼	11¾
51	Junior	6.00	51	5½	6½	12
60	Racer	7.75	60	5¾	7	13½

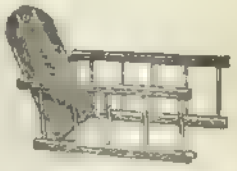
Two in a Bundle

SLED AND WAGON GUARDS

A simple and most easily attached guard. Fits any width of sled instantly with no adjustments to make. The back is 9½ in., just the right height and slant for maximum comfort and support. Lower sides make ideal arm rests. All of selected hardwood, smoothly finished in natural varnish. Will fit sleds 9 to 12 in. wide. Sides, length and height 18½x7 in.

No. 618.....Per dozen $12.00

Half Dozen in a Carton



Made from selected hardwood, rigidly constructed, easily and quickly attached to any sled or coaster wagon. Finished with high lustre varnish. Back rest ornamented in green and red. Back can be reclined in any position. Height 7 in., minimum size 12x18 in., maximum size 16x18 in.

No. 718.....Per dozen $18.00

One in a Chip-board Box, Half Dozen in a Carton

BOB SLEDS

Fleetwing

Built low with streamlined hood it dives ahead at ever increasing speed. Steering is safe and sure, through patented automobile type steering mechanism. Has knee action bobs which absorb the bumps. Tough northern white ash is used for top and side rails, stained green with orange lettering and striping. Bobs are of maple, enameled orange with ⅜ in. round steel runners. Orange enameled hood is sheet steel, attached with screws. Steel foot rests for three passengers are provided. Length 72 in. Size top 14½x63 in. Weight 53 lbs.

No. 72.....Each $13.75

Two in a Shipping Carton

SILVER PLATED BEVERAGE ARTICLES

Distinctive Beverage Sets and other articles that are very attractive, substantially made and heavily silver plated.

Prices Subject to Catalog Discounts. See Page 1.

GS4946 Shaker **$9.50**
A handy economical shaker with strainer for mixing a few drinks. Capacity 1 pint. Silver plate on nickel silver. Height 8¼ inches.

GS4947 Cocktail Set 21 pieces, as illustrated **$75.00**
A fine substantial set applied borders on all pieces. Silver plate on nickel silver. Bright butler finish. For other pieces in this pattern see pages 196 and 199.

GS4948 Cocktail Set, 8 pieces. Shaker, 6 goblets and tray GS4953	25.00
GS4949 Shaker, capacity, 1¾ quarts. Height 11 inches	11.00

Saddle diameter, inches	6½
Weight each, lbs.	198
Each	$82 50

AUTOMOBILE JACK

Barrett's

For motor trucks and garages, the leverage is so compounded by gears the load is lifted by one-third of the direct leverage effort.

Number	160
Capacity, tons	3
Height, inches	10¼
Raise, inches	5¼
Weight each, lbs.	16
Each	$12.00

All above loose.

AUTOMATIC LOWERING JACKS

Barrett's

SINGLE ACTING TYPE

Constructed of malleable iron and steel, all working parts machined. Easy operation is secured in these ruggedly built jacks by use of a large number of small teeth on the lifting rack. The effort required on the lever is reduced so greatly that the strokes can be made very quickly, hence the lift is very rapid. A completely enclosed oil-tempered spring actuated mechanism assuring smooth, safe, automatic lowering at all times. All working parts are fully enclosed and protected from dirt. Each with a hardwood handle

Adapted to every lifting requirement coming within its capacity.

Number	516

SKIS AND ACCESSORIES

Lund Hard Maple Flat Top Touring Skis

A very fine looking ski of beautiful, clear, hard (Rock) White Maple. Will slide easier than any other ski and stand hard wear. Finished in a rich walnut brown color which brings out the beautiful grain of the wood. The finish is waterproof and will wear for years. Rounded top edges. Reinforced heel. One-sixteenth inch red rubber footplate.

6 ft. Hard Maple . . . . . per pair $7.50
6½ ft. Hard Maple . . . . . per pair 8.00
7 ft. Hard Maple . . . . . per pair 8.60
7½ ft. Hard Maple . . . . . per pair 9.30

Lund Yellow Pine Skis

A lightweight touring ski for youths and small children. Made from strictly selected Southern Yellow Pine, quarter sawed. Extra thickness at heel to add strength. Finished in a rich dark brown color with grooved white striping. Black rubber footplate. Mortised.

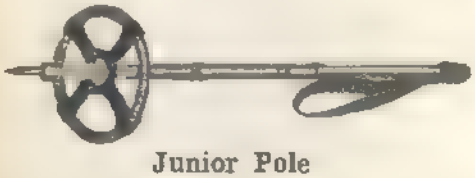
4 ft. Hard Yellow Pine . . . . . per pair $2.00
5 ft. Hard Yellow Pine . . . . . per pair 2.40
5½ ft. Hard Yellow Pine . . . . . per pair 3.00
6 ft. Hard Yellow Pine . . . . . per pair 3.80
6½ ft. Hard Yellow Pine . . . . . per pair 4.40
7 ft. Hard Yellow Pine . . . . . per pair 5.00

Ski Poles

Service Pole

A pole of selected Tonkin cane, nicely finished with Duraloid covering. Rattan ring, 7 in. diameter with Indian Tan leather lacing. Handstrap of high grade webbing. Steel ferrule and point.

4¼ ft. Service Poles . . . . . each $3.20
4½ ft. Service Poles . . . . . each 3.20
4¾ ft. Service Poles . . . . . each 3.20



Junior Pole

Bamboo, Duraloid covered. Rattan ring, 5½ in. diameter, Indian Tan leather filling. Handsrap of webbing. Steel ferrule and point. A good-looking and serviceable pole for juniors.

4 ft. Junior Poles . . . . . each $2.20

Overland Binding

For mortised skis. The choicest, extra heavy leather is used in toe and side straps to give strength and long wear. Interlocking teeth on the side irons permit the required adjustment. Large, improved tightening lever at the heel. A practical binding for touring and one that has been in the market for many years.

Overland Bindings . . . . . per pair $2.80

UNIVERSAL FIVE STAR WAX. An all purpose wax for varying snow conditions in cold or mild weather.
Five Star Ski Wax . . . . . per doz. $4.20

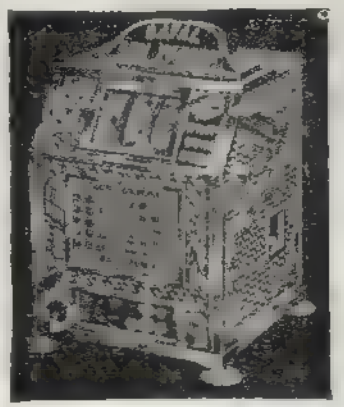
Counter Coin Machines

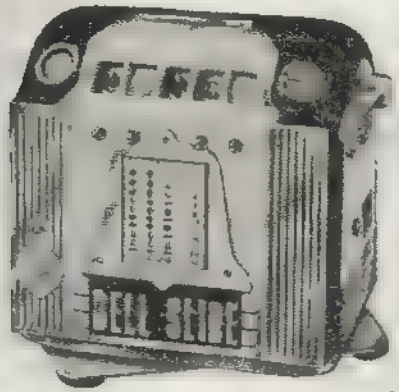


Daval Gum Vendor. Plays pennies, nickels, dimes and quarters through the same slot. Newly designed duro-silver finish aluminum case. Improved mechanism. Window at side shows last coin played. Clogproof coin chute. Permanent gum display. Can also be furnished in penny slot only or nickel slot only, upon request.

No. 19A117. Each..... 12.50

Same machine as shown above, only with jackpot.

No. 19A118. Each..... 14.50



Bell Slide has five reels, the middle of which is always exposed to view. The others cover up with shutters upon insertion of penny, nickel, dime or quarter. When either coin is played, player has choice of opening any 2 of the 4 buttons to see if he can get a winning combination, according to score card. Exclusive turn table which allows Bell Slide to be swung around to any position. Window on side to show last coin played.

No. 19A181. Each..... 23.75

Penny Pack. The most beautiful modernistic penny cigarette machine with ball gum vendor. Will capture all of the loose "sales tax" pennies, on any location because of its large odds paid to players. For the investment of a single penny player can get from one to ten packs of cigarettes. Size 8½x 8½x10½.

No. 19A168. Each..... 17.50

Reel Dice. A small size machine that will get plenty of play. Has a four-way coin chute, and window on the side to show the last coin played. In REEL DICE the player can win from 2 to 1 to as high as 30 to 1. These "LIVE ACTION" ODDS makes Reel Dice the greatest reproduction of true dice action with a just-right average payout percentage.

No. 19A176. Each..... 18.75

Reel "21," the thrilling "Old Army Game" of "Black Jack" played "according to Hoyle." The fastest and most interesting game in the world. In Reel "21" you don't play against a fixed award card. You actually draw cards against the dealer or "House." The "House" hand and Awards change with each play—the same as in real "Black Jack." 4-way play—1c-5c-10c-25c offers the player odds ranging from 2 to 1 up to 100 to 1. Window on the side to show the last coin played which makes it fool-proof.

No. 19A170. Each..... 23.75

Tri-O-Pack. A machine that is sure to capture all of the loose "sales tax" pennies because of its large odds paid to player. Pays out from one to ten packs of cigarettes. TRI - O - PACK has everything you expect from a counter game. Beautiful design, silent mechanism, cheat-proof reels and shutters. Window on the side to show you last coin played.

No. 19A177. Each..... 24.75

SNOW WHITE TEA SETS

The Aluminum Goods Mfg. Co. has taken over the exclusive rights to the use of the characters "Snow White" and "The Seven Dwarfs" in connection with the manufacture of Aluminum Toys. The company will show the many new sets during the Toy Fair in the company's New York Show Rooms in the Fifth Ave Building. Each set is packed in an attractive box showing " Snow White" and "The Seven Dwarfs" in color. Each plate is embossed with "Snow White's" figure and will attract the attention of the youngsters, as well as the adults. Prices range from 50c to $2.00 with a range in service of two to six. (Price slightly higher in south and west.)

HARVARD'S NEW CATALOG

Some of the most advanced steps in practical merchandising, for the benefit of dealers, have been taken this year by the Harvard Specialty Manufacturing Corporation of Cambridge, Massachusetts, makers of the well known Harvard Table Tennis line. Coming out with a new de luxe line of table tennis equipment at prices planned to encourage business in this rapidly growing market, the makers of Harvard Table Tennis equipment feel justified in taking pride in their 1938 merchandise. Duplicating their pioneering in the Table Tennis field with equipment which has always been outstanding for quality and "playability" this progressive organization does not rest there. "Rather than change in any way the enviable position enjoyed by Harvard Table Tennis Equipment" say the manufacturers, "we have met the demand for popular priced equipment which dealers could offer with confidence." While the Harvard people strongly urge the greatest effort on the well known de luxe Harvard line, they do feel that in offering the new line as a secondary proposition this year they are enabling dealers to turn many lost sales into dollars because of price. The new line is called the "Acme" line and to insure full confidence on the part of both dealers and the public, the manufacturers have placed the "Harvard" label on all Acme equipment. The complete table tennis equipment offerings of the Harvard Specialty Manufacturing Corporation are shown in their new catalog just issued. New boxes, new labels, new items, all contribute to an attractive salable line for 1938. Dealers are invited to write for the new catalog and prices.

A HURDY-GURDY WITH MONK FOR THOSE WHO MISS TONY

This being the season of year when the street organ-grinder with monkey used to make their reappearance in our cities and towns, after the customary Winter layoff, a new item lately brought out by the Miniature Hurdy Gurdy Co. of Chicago would seem to offer a pretty timely and realistic substitute for the stock in trade of the now vanishing Sicilians. As a plaything for youngsters, of course. This novelty number consists of a hand-cranked organ, that emits a tune, slung from the shoulders of the child, together with a flexible stuffed monkey, secured by a chain, in traditional get up for the make-believe solicitation of pennies while on the ground or atop the music box. The selection of organ tunes to be available include such familiar favorites as "O, Sole Mio," "The Peanut Vender," "Parade of the Wooden Soldiers," "The Merry-go-Round Broke Down," "Big Bad Wolf" and "Sidewalks of New York." This boxed toy combination of monkey and organ is offered at $2.95 list, with one dozen boxes to the shipping carton. Relative size of the hurdy-gurdy outfit will be seen in the accompanying illustration, and may be regarded as a source of fun for girls as well as boys. For merchants the manufacturers stress its novel nature as an outdoor toy, and its appeal as a profitable item for filling in seasonable stocks. Inquiries for detailed particulars and discounts addressed to the Miniature Hurdy Gurdy Co., 14 North Michigan Avenue, Chicago, will receive prompt response.

THAYER TINSEL PRODUCTS

E. H. Thayer of the Thayer Mfg. Co. will be on hand at their display at the Hotel McAlpin during the Toy Fair with a complete line of Tinsel Products. Many new styles and ideas in Gift Tying Cords, Novelty Tinsel Ribbons, Cellophane Ribbons and Christmas Decorations have been prepared and will be on display.

Lou Koppelson

KOPPELSON CRUISES IN SOUTHERN WATERS

That well tanned, healthy looking young gentleman in the showrooms of the Ay-Won Toy and Novelty Corporation is Lou Koppelson, who recently returned from a well merited vacation cruise. Aboard the S. S. Empress of Australia, Lou visited Bermuda, Nassau and Havana. One of the features of the boat trip was a masquerade dance, which the merrymakers thought had been turned into a barn dance when they heard what was apparently a flock of chickens bursting upon them. It turned out to be Lou with a couple of Ay-Won's Cackling Hens, which completely stole the show as the dancers crowded around with requests to be allowed to turn the crank of one of these realistic sounding novelties. Mr. Koppelson enjoyed a stay of several days in Havana, and hopes to be able to visit that sunny city again. He is now back on the job ready to greet old friends as they come to New York for the Toy Fair.

SUPERIOR TYPE'S NEW PRESS THAT PRINTS POST-CARD SIZE

A real rotary printing press, that will print up to twelve lines of type, spaced any desired distance apart, and turning out the job as fast as the paper can be fed into the machine, is Superior Type Company's latest contribution to the boy printer of America. This new press by Superior, called the "Swiftset Rotary Printing Press," comes complete with over 400 (four hundred) characters of type, together with all accessories needed to start the press rolling immediately. Any child old enough to spell is able to set the grooved, patented and fool-proof type, which readily slides into the type line, then ink the roller and turn out clean and clear "newspapers," cards, tickets, programs, announcements, notices, invitations, etc. on post-card size paper or cards. No lock-up or make-ready of the type form is necessary. The entire outfit sells for $2.50 at retail. The "Swiftset" press promises to be a sensational success, according to the predictions of its manufacturers, and because of its practicability and simplicity will hit the age range span of from six to sixteen years, with a considerable additional prospective sales volume from adults who will want such a handy press for commercial and social printing requirements. Additional information about this latest Superior Type Company's press will be available by communicating with their New York office, 200 Fifth Avenue.

SALES-MINDED TOY BUYERS *Will Not* PASS UP

THIS YEAR'S OUTSTANDING OFFER

The SNOW WHITE *and the Seven Dwarfs* CLEANING SET

FEINBERG-HENRY FEATURES LONE RANGER SCHOOL BAGS

"It's back to school we go" say the two N. B. C. child radio stars shown in the accompanying photo. Back to school wearing the leading styles of the season. Note the attractive Lone Ranger School Bags that both of them have posed. Their choice will be the choice of thousands of other boys and girls, for the Lone Ranger is the No. 1 hero of the day. Every child who sees these Lone Ranger Bags wants them. The Lone Ranger Bag is an exclusive product of the Feinberg-Henry Mfg. Co. It is built with a rubberized inner lining; the bag will withstand rough usage. A plus feature is the pen and pencil holder on the outside of the bag—easily accessible. A gayly decorated picture of the Lone Ranger on the front gives it eye appeal and makes it stand out among all other bags. And the magic of the name Lone Ranger gives it buy appeal—makes it a bag that every youngster is determined to get.

Below:

Shop Chairman Eli Rosen presents a bronze tablet on behalf of the Gund workers to J. and A. Swedlin on August 4th coincident with the opening of the Firm's new Fifth Avenue Building showroom. The following inscription appears on the tablet: "To Messrs. J. and A. Swedlin on the occasion of the opening of Gund's Fifth Avenue showroom. May all your efforts grow from strength to strength. August 4 1938 Gund Workers"

WALT DISNEY CHARACTERS IN RUBBER

Children truly treasure Seiberling's clever reproductions of Walt Disney's famous movie characters. They thrill with the pleasure of this first choice gift selection. Each delightful character is authentically designed, beautifully decorated in rich, permanent, non-injurious colors with crackless, peel-proof, washable finish—molded from unbreakable, resilient rubber—safe lasting playmates that retain appealing interest indefinitely.

The complete selection of these delightful gifts for children includes Mickey Mouse, Donald Duck, Elmer Elephant, Pluto the Pup, Three Little Pigs, the Big Bad Wolf, Snow White and the Seven Dwarfs, and Ferdinand the Bull. Colorful displays and decorated gift boxes invite quick buying action. A record breaking sales success wherever displayed, the complete line of Seiberling character toys today is on the Christmas season buying list of toy departments everywhere. All Seiberling products including a full line of sponge rubber and inflated play balls may be inspected at the Seiberling Latex Products Company showrooms, 354 Fourth Ave., New York City, Merchandise Mart, Chicago, or at their large and spacious factory in Akon, Ohio.

THIRD OF A CENTURY FOR IDEAL

The Ideal Novelty & Toy Co. has travelled far along the road of business progress since its founding a third of a century ago. Ideal started out in the toy field at about the same time that PLAYTHINGS did, and on the same small scale. As the toy and doll industry progressed, so did Ideal, surviving conditions that took heavy toll among less rugged concerns. Gradually this firm forged ahead to a position in the front ranks of the industry, until today it enjoys a reputation international in scope for producing dolls and stuffed toys that appeal to the public. The 1938 Ideal lineup includes an array of names that are proven drawing cards. There is Shirley Temple, whose popularity continues high in doll form as on the screen. Snow White and the Seven Dwarfs, including the impish Dopey, are offered in colorful reproductions of Walt Disney's creations. Cinderella is a charming doll available in a variety of organdie and taffeta dance frocks and formal evening gowns. Betsy Wetsy, the Ideal nursing baby, is being offered in a wide range of smartly packaged sets and combinations as well as individually. And the recently introduced Frank Buck Animals are proving by their sales records that the famous "Bring 'Em Back Alive" man has a large army of loyal fans all over the country. The Comical Camel shown here is a member of the Frank Buck Animal Kingdom that Ideal is producing, and there are twelve other interesting stuffed toys in this group.

--a Waterproof Permanent, Flexible Adhesive for All Sports Uses

Bit, Evans' Sport Cement is useful for the repairing and reproofing of boots, duffle bags, leather leggings, gloves, mittens, leather goods, golf bags, suitcases, tents, tarpaulins, canvas, rubber soles, moccasins, leather soles, rubber shoes, mountain boots or leather parts. Excellent for cementing photos and many other purposes. It can be used on any porous or semi porous material such as leather, cloth, paper or wood.

Hunters, lumbermen, trappers, campers, scouts, athletes, schools and many users for H. E. Evans' Sport Cement. The handy size for carrying in an attractive carton with marking material and complete instructions. Retail at 25 cents. Jobbers and dealers write for further details and attractive discounts.

TRI-TIX, INC., 1330 Sherman Ave., Evanston, Ill.

South Bend Brings Out Four New Obites

Four new Obite lures have been added to its line of fishing tackle for the 1938 season by the South Bend Bait Company, South Bend, Ind. Two of these are Bass-Obites and two are Two Obites. All are produced in Tenite, a plastic substance which is extremely strong and durable.

Two-Obite.

Cutaway view of Two-Obite

Bass-Ob te

Counter Display Box

The new Bass-Obite retains all of its darting, diving, erratic action, but is greatly increased in durability and is much stronger, because the hooks are attached to the body by a stainless steel pin which is easily removed and allows hooks to be replaced or changed in a very short time.

The new Two-Obite is "two baits in one," a deep traveler or a surface zig-zagger. It is effective for fresh water game fish and a variety of the smaller salt water species. Cadmium plated hooks are used to prevent rusting.

A feature which will interest dealers is the manner in which these lures are displayed. The standard display package contains six lures which are in boxes with cellophane lids. The box is ready for display the minute it is opened and is always selling the tackle inclosed.

RINAL MAILS "STREAM TESTED" CATALOG

"Stream Tested" is the appropriate title of the new No. 15 catalog of the Rinal Fly Studios, Libertyville, Ill. The booklet is eight and one-half by 11 inches, letterhead size and fits conveniently into a regular reference file. The company's wide selection of flies is illustrated in multi-color in the new book, which also shows the attractive counter cards which go with dozen orders.

U. S. LINE USING COLORFUL ENVELOPE STUFFER

The U. S. Line Company, Westfield, Mass., maker of U. S. L. fish lines, is including a colorful envelope stuffer with its mail which, in addition to giving a brief summary of the features of 11 lines, also includes two fish weight formulas.

• SPEED KING COASTER WAGONS •

Maryland

SOLID STERLING SILVER

THE grace and beauty of Early Colonial Silver have ever been cherished by those desiring harmony and dignity throughout the home

Named for Maryland — one of the original thirteen states whose glorious defense inspired 'The Star Spangled Banner' — it is a true interpretation of the early art of Colonial Silversmithing

This beautiful pattern of authentic CHIPPENDALE origin, lends gracious harmony to the decorative "ensemble" which dominates the VOGUE of the day.

Gainsborough

SOLID STERLING SILVER

The genius of "Thomas Chippendale . . . set the style for ever-lasting fame as a wood carver and cabinet maker during the 18th Century (1735-1779), is exemplified in this artistic pattern of Sterling Silver.

In the day of the decorative 'ensemble' - the Chippendale motif plays an important part. Therefore, this new sterling pattern is designed expressly to display the ensemble of Chippendale in harmony with today's mode. Its heavy weight and beautiful border finish assure lasting satisfaction.

Named for Thomas GAINSBOROUGH (a contemporary of Chippendale) famous for the painting of "BLUE BOY."

A new pattern of exquisite design combining the masterful arts of hand-chased effects in deep relief with gracefully executed modern panelled handles. All pieces are of heavy weight
Mastercraft
EXQUISITE STERLING SILVER
Modern living demands a new note of freshness in table appointments.
This beautiful new pattern "MASTERCRAFT" in Alvin Sterling is so conned because it is truly a classic among contemporary patterns
The masterful execution of the hand-carved effect lends a feeling of rhythm to the lovely contour and perfection of the pattern. Its charm is further accentuated by the beautiful Butler finish that will make it always a treasured possession

Chased Romantique

SOLID STERLING SILVER

A NEW pattern, richly endowed with the beautifully chased scroll and flower effects of the romantic Louis XV Period, that again becomes the mode of the day.

Its slender, flute-like panels lend a touch of feminine dignity, the deep-cut chased effects being emblematic of the pomp and splendor of the period from which it was inspired.

The excellence of design is accentuated by its beautiful, bright butler finish

MODERN AMERICAN STERLING

Here is one of the very loveliest of the new patterns. Its simple graceful lines are refreshingly beautiful — and very smart are its slender handles and the conventional petal-motif tip. A most delightful interpretation of the modern mode.

SILK FISHING LINES

Supertex

Just what the name implies. Made from selected high grade Japanese silk of a very fine texture. Braided hard and even over a core to give full maximum strength and roundness, and will not kink easily or stretch. It is small in size for test which means less resistance and greater distance in casting. Will not run flat and being thoroughly pregnated with waterproofing prevents it from waterlogging. Made to give the fisherman long and satisfactory service with reasonable care. Six each black and white in a box 50 yd. spools, 2 connected.

No. 633—18 lb. test .....Per dozen $12.00
Half Dozen in a Box

Dollar Wonder

High grade Japan silk of long fibre. Small in size but strong in test. All black color and thoroughly waterproofed that prevents silk from deteriorating soon and makes for longer service. One of the outstanding fish lines and one of the greatest quality values. 50 yds. on large spool, two connected. Highly recommended, fully guaranteed

No. 634—18 lb. test .....Per dozen $12.00
Half Dozen in a Box

Trophy

Braided from the very highest quality Japan silk and one of the few supreme dry lines made. Its great strength and endurance under rough usage, together with running smoothly from the reel, makes it a welcome addition to any fisherman's kit. SILK FISHING LINES

The Finest Black Silk Waterproof Line Modern Skill and Knowledge Can Produce

Starting with the raw silk from Japan in the highest grade obtainable, every operation is skillfully performed and carefully supervised by experts only. The mechanical arrangement of the fine filaments into cover threads and core threads, arranging the core threads into a cable, braiding the cover threads into a snug sheath whose elasticity exactly matches that of the core. All this knowledge and skill goes into the making of Uncle Tom line. In addition only the finest dyes and carefully blended waxes and solvents for waterproofing are used.

Uncle Tom lines are made on a 16 carrier braider of 3-ply silk thread, making 48 ends in the cover, and a 3-ply orange core, making a total of 51 separate threads not stretched. Experience and tests prove that the natural stretch should not be removed from the threads.

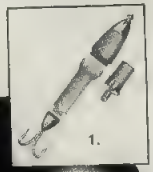
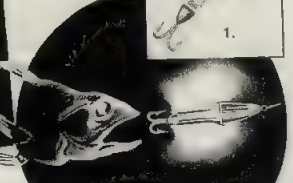
Mr. Dealer! HERE ARE 2 SMASHING SENSATIONS FROM THE NEW YORK SPORTSMAN'S SHOW





Lur-O-Lite Trade Mark Reg. and Vibro-Lure

Will Prove Sensational Sales Makers Over YOUR Counter

Sure Catch Lures were the talk of the New York Sportsman's Show! Even skeptical old-timers were 100% "sold." Dealers placed orders on the spot for immediate delivery. Sporting editors crowded the Sure Catch Lure Booth in order to get material to turn out yarns about these marvelous new lures!

Lur-O-Lite and Vibro-Lure will prove as much of a sensation to Dealers and Distributors as they have at the Sportsman's Show, for here at least is something to whet the imagination of fresh and salt water fishermen!

HOW LUR-O-LITE WORKS

Lur-O-Lite duplicates nature's wonder, the Anglerfish, which provides an illuminated lure. Made of Du Pont unbreakable opaque and transparent plastics of various colors, Lur-O-Lite contains a *standard* flash light battery and bulb. Whether used for day or night fishing, Lur-O-Lite glows brightly and provides a definite attention arrester. It may be had in different sizes for fresh or salt water fish and can be used for trolling, or jigging, while Lur-O-Lite, also, may be used for casting. All are scientifically balanced and fool-proof. The battery lasts 3 to 4 hours and may be replaced easily. Head of lure is provided with a swivel to which line may be attached.

THE NEW VIBRO-LURE SHIMMERS LIKE LIVE BAIT

Another hit at the Show! Here at last is artificial bait which captures all the shimmer, all the attention arresting qualities that any angler could hope to get! Vibro comes in 3 sizes for fresh or salt water fishing. Made of a transparent body within which is a shiny, metallic spiral which vibrates rapidly when drawn thru the water—or even at rest in the water. It captures the sunlight, and the iridescence of live bait. Natural and lifelike in appearance.

Note: Vibro-Lures are non-illuminated.

A SURE WINNER FOR DEALERS AND DISTRIBUTORS

Stock up on *Lur-O-Lite* and *Vibro-Lure* Lures NOW! Cash in on our large space advertising in *"Field and Stream," "Jim Britten's Guide,"* and other Sportsmen's periodicals. You're bound to get inquiries. We back you up with beautiful attention-compelling displays, testimonials, blow-ups—and even moving pictures of gamefish taken from the water with the aid of Sure Catch Lures! Wire or write TODAY for our FREE catalogue describing the entire line as well as prices and discounts to Dealers and Distributors!

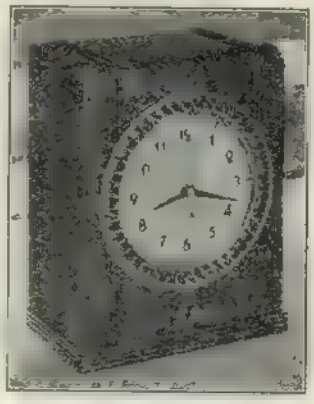
ORGANIZER HOUSEHOLD TIMER



A Many Purpose Switch-Clock

Is not only a beautiful timepiece, but it will automatically turn the radio on and off, and automatically bring in favorite radio programs, once it's been set in advance. Simply connect it to an alternating current outlet, then connect the radio to the outlet on back of clock case. There are 48 keys outside the dial, each representing a 15-minute internal. When a key is pulled out, "Organizer" will turn on the radio for the indicated 15-minute period. When more than one successive key is pulled out, the radio will operate for the corresponding number of 15-minute periods. At the end of an interval, power to the radio is turned off. Any number of programs may be set up as much as 10 hours in advance. "Organizer" can be used as an alarm clock too, wherever radio reception can be heard in bedrooms.

Case—Walnut color, molded plastic, with two buffed and lacquered gold color metal bezels surrounding 15-minute period keys. A tumbler switch for automatic or manual operation is conveniently located below dial.

Dial—Metal, 3¼ in. diam., with black characters on a light cream background. Hands—Metal, blued and lacquered.

Furnished with 6 ft. art silk cord attached, bearing Underwriters' Laboratories label. Height 5⅝ in., width 5¼ in., depth 3⅝ in.

No. 8B53 .....Each $9.95
One in a Box, Four in Std. Pkg.

No. 8F03.....Each $7.50
One in a Carton, Four in Std. Pkg.

ELECTRIC CLOCKS

Telechron

SELF-STARTING SYNCHRONOUS ELECTRIC CLOCKS

Telechron clocks are silent and uncannily precise. A tiny patented, self-starting, synchronous electric motor runs the hands which are directly geared to it. These clocks, like lamps or lights, start immediately after being plugged in to any regulated A.C. electric outlet in your home or office. They require no winding, oiling, cleaning or regulating—and the operating cost is but a very few cents a month

With Telechron master clocks in power houses, extreme accuracy is assured by this modern method of timekeeping

Telechron clocks are used by many of the nation's leading schools, hospitals, office buildings, railroad and broadcasting stations—where accurate timekeeping is convenient and necessary. All clocks bear Underwriters Laboratories label.

NINE REASONS WHY TELECHRON CLOCKS ARE OUTSTANDING

1. Operates on alternating current, regulated for accurate electric time by the Telechron master clock in your power house.
2. All Telechron models are substantially built. Alarm models will not "walk" or mar furniture when ringing.
3. Self-starting synchronous motors superior in many respects to cheaply constructed—insufficiently lubricated non-self-starting motors.
4. Telechron designs outstandingly popular everywhere.
5. The most thoroughly advertised line of electric clocks on the market
6. Made by the synchronous electric clock industry's pioneer. (Note point 1)
7. Telechron motors used in scores of world-widely known precision instruments
8. Many government buildings, hospitals, schools, etc., are equipped with Telechron commercial clock systems.
9. Sold by leading retailers from coast to coast for many years.

SWARTHMORE

Banjo Clock

Everybody's goin' to town with these NEW ANIMAL BLOCKS *by the* EMBOSS

NOT ONLY goin' to town, but goin' to profit. For this NEW line is absolute tops in embossed cubes. It's got everything—design, color, package, price. You'll marvel that any embossed blocks can be made so well, yet sell for so little.

And here's what the customer gets for his money—two frisky animals (downright saucy) deeply embossed on each round cornered cube. Appealing critters, every one. Jamb-packed with personality. A whole litter of them in clean white enamel against strong, harmless-colored backgrounds. Sharp, brightly printed pictures and numerals dress up the other four sides. Sets are gaily packaged in red, white and blue.

Of course we'll be glad to hear from you.

Sets retail from 25¢ to $1.50. This here one sells at about 50¢ . . . and we mean SELLS!

MODEL PLANES, FASTEST-GROWING U.S. HOBBY, IS A $2,500,000 BUSINESS

Excerpt from Life, May 16, 1938

Twenty-five years ago, the few American youngsters who built model airplanes fashioned their flying machines out of two pieces of balsa wood and a strong rubber band. Today 2,000,000 Americans build and fly model planes. Most of them are still in the balsa-and-rubber-band stage but there are 9,000 who are serious students of aerodynamics. Their models are amazingly realistic. Powered with gasoline motors, they have wingspreads up to 14 feet, can stay in the air for almost an hour. Model makers insist that theirs is the fastest-growing [illegible] hobby. The business of supplying model demands runs up to $2,500,000 a year.

On April 24, a gusty Sunday, 300 gas-model owners from five States trundled their ships out to Seversky Airport at Farmingdale, Long Island, for the annual Eastern States [illegible] hornet, issued by the National Division of the Federal Government in the U. S. without an N. A. A. people under 16. The meet was [illegible] whose plane glided for three [illegible]

Write for full information on this new trend in the enormously popular hobby of scale railroad model building.

MODEL SPEED BOATS

Clock mechanism capable of 5 to 7 min. drive, $1.95. With electric outboard motor less batteries, $4.95.

LIFE, with its finger on the public pulse, recognizes the importance of hobbies, particularly the model airplane. But long ago, Megow foresaw this trend of the times and the great opportunity which it presented, and assumed leadership in the new industry by actively stimulating interest in model-building. This has been carried on constantly by encouraging clubs and contests, by research, by development of finer models, and by providing kits so complete that the amateur could produce models of astonishing accuracy and beauty.

Through active cooperation with far-sighted dealers, the fascinating, healthful and educational features of model airplane building have been "sold" to young America and his dad. Thousands of dealers have recognized the business opportunity in model airplanes—and are profiting greatly by making substantial investments in the line, establishing special departments and cultivating this eager market.

Megow's is offering dealers complete cooperation—business-getting suggestions, displays, advertising, etc. Write today for full details.

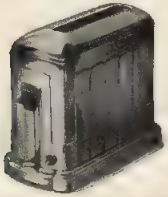
Toastmaster Products for 1939

Junior 2 Slice Toaster. It's not fully automatic, like the Toastmaster with the patented Flexible Toast Timer, but it has many outstanding and exclusive Toastmaster features. Operation is simple. Drop in the bread, press down the lever—and the current comes on. When the toast is done, a finger tip touch of the lever pops it up, both sides browned at once. The current is cut off automatically. Chrome Plated.

No. 52G29. Each **$10.00**



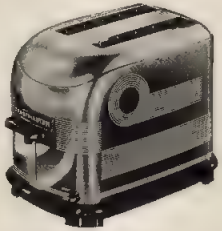
The One-Slice Toastmaster Toaster is fully automatic. Equipped with Toastmaster's exclusive Flexible Toast-Timer. Chromium Plated.

No. 52G1. Each **$14.00**

NOW MORE BEAUTIFUL THAN EVER

The New Toastmaster TOASTER

AUTOMATIC POP-UP TYPE



The New and Improved Fully Automatic 2 Slice Toastmaster Toaster. This new Toaster leads in modern styling. Beautifully finished in lustrous chromium. The base, handles and other moulded parts are dark brown bakelite, with permanently attached cord and unbreakable rubber plug to match.

No. 52G2. Each **$21.34**

Toastmaster Waffle Baker. Fully automatic operation. The red light shows until the waffle is browned to perfection, then automatically goes out, signifying that the waffle is done. Handsomely styled and beautifully finished in chromium and black.

No. 52G3. Each **$16.65**

The New Toast n Jam Set. This set includes the newly designed, 2-slice automatic pop-up type Toastmaster Toaster and two gay colored peasant pottery dishes for jams and jellies, all on a beautiful tray of primavera, a smart new wood.

No. 52G33. Per Set **$23.94**

NEW HOSPITALITY SETS

DE LUXE

The De Luxe Hospitality Set includes a large tray, four lap trays for individual service, and toast cutting board all in a stunning new design of richly grained walnut or beautifully figured mahogany. TOASTMASTER TOASTERS

WITH THE EXCLUSIVE "POP-UP FEATURE"

2-SLICE FULLY AUTOMATIC TOASTER

The Most Famous Toaster in the World.

First Slice or Hundredth—It's all the Same.

No. GG7008—With the Toastmaster Toaster on the job you don't have to worry about the toast burning after the toaster has been running a while. For the flexible-timer automatically shortens the toasting time as the toaster heats up. And as each pair of slices are ready up they pop, done to a turn on both sides—and the current is shut off automatically. Weight each 6¼ lbs.

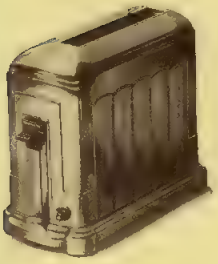
Price, each **$24.00**

JUNIOR TOASTER

SMART in Appearance—SMART in Efficiency

No. GG7009—Trim and sleek as a streamlined train—capable as a well-trained cook. The Toastmaster Junior Toaster toasts two slices on both sides at once. And its simple and economical operation makes it just about the finest non-automatic toaster you could buy. And you'll be amazed at its low price. Shipping weight 3½ lbs.

Price **$11.25**



TOASTMASTER ONE-SLICE TOASTER

No. GG7010—It's fully automatic like the 2-slice Fully Automatic Toaster—has every feature including the flexible timer. It turns out the same uniformly delicious toast just the way you want it—one slice at a time. It is ideal for smaller families. Shipping weight 5 lbs. Price **$15.75**

Toastmaster Fully Automatic Waffle-Baker

No. GG7011. Fully automatic. Has instant acting temperature control assuring perfect waffles every time. Heating elements respond instantly. Heavier and exclusive non-overflow grids bake waffles faster—without fuss or bother. No guessing—the red light tells when the waffle is done. Wattage 750, AC current only; shipping weight 7¼ lbs.

Price, each **$18.75**

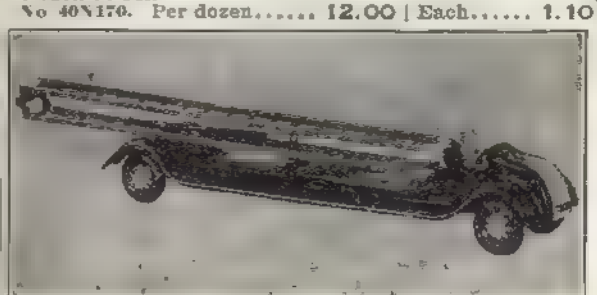
Mechanical Toys

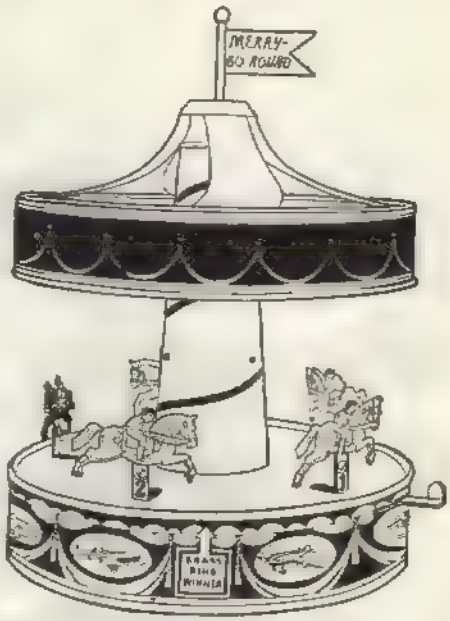
The New Trailer Truck. Kingsbury's latest . . . the Trailer Truck. The tractor is designed from the Studebaker Cab-Over-Engine model, and the truck is, of course, powered with the famous Kingsbury steel spring motor. The trailer is the latest type stream lined moving van, and the big rear door is so hinged that when open it acts as a ramp for running up into the truck. Six rubber tires. Total length, 30½ inches; height of body, 6 inches. Packed 1 each in a box.
No. 40N168. Per dozen..... 8.25

The Coupe and Trailer. The coupe is almost an exact model of the 1937 Ford, powered with the dependable Kingsbury steel spring motor, rubber tired and smartly finished. The modern streamlined trailer has a door on the side, and imitation Venetian Blinds at the windows. Length, 23½ inches. Packed 1 each in a box
No. 40N166. Per dozen.... .... 8.25

Fire Engine. A modern tractor-style toy with steam boiler type of Fire Engine. As in other Kingsbury fire apparatus, it is powered by a strong steel spring motor. The Studebaker Cab-Over-Engine model is copied in the tractor, and heavy-duty rubber tires complete the assembly. Equipped with automatic gong. Packed 1 each in box
No. 40N170. Per dozen..... 12.00 | Each..... 1.10



The Ladder Truck. A modern tractor type ladder truck equipped with three all-steel ladders, automatic gong, and powered with Kingsbury's steel spring motor. Lively, long-living rubber tires all around add to its appearance and quiet performance. Length over all is 25 inches.
No. 40N171. Per dozen..... 12.00 | Each..... 1.10



Merry-Go-Round. Operates without winding. One pressure of the lever in the base sends it whirling steadily around while the music tinkles merrily. The horses are numbered. Beautifully finished in brilliant colors—sturdy construction throughout. Packed in individual box.

Manny Fink

PLAYSKOOL'S TRAVELERS MEET OLD, MAKE NEW, FRIENDS

Maurice Rogatz, who lately has been entrusted with the responsibility of representing Playskool Institute, Inc., in the New England and North Atlantic states, returned to Chicago in early August from a five weeks' trip, with both he and associates in the company highly gratified with results. He tells us of the fine reception accorded the Playskool line by old customers, and that many new ones were made by these contacts. Equally successful, it is further stated, has been the experience of Manny Fink, middle-west territory man for Playskool, who was kept busy for the month of July making the high spots in a half dozen or more central states. Messrs. Rogatz and Fink will again take to the road shortly after Labor Day, to wait on the trade not included in their previous trips. Production and forwarding affairs at the home offices of Playskool Institute, Inc., are in the capable hands of Ralph Heller, and like most shirt-sleeve workers he's doing a good job. Visitors, both out-of-town buyers and locals in Chicago, are cordially welcome at the Playskool showroom, that the company maintains at its spacious, airy and well-lighted quarters at 900 S. Clinton Street. It is easily accessible by surface car from the Loop, and can be reached in a few minutes, by taking the "Taylor-Sedgwick" car on Wells Street going south and getting off at Taylor and Clinton Streets. Mr. Heller will be happy to greet you and show you the varied Playskool product in its new set-up. The company has permanent display room in the Fifth Avenue Building, New York, and a Pacific Coast office at 718 Mission Street San Francisco.

Maurice Rogatz

OLD TIMER FOR CERTAIN

In connection with the Anniversary Number of PLAYTHINGS, the Copy staff prepared what it thought would be a most attractive advertisement for the Hafner Mfg. Company of Chicago. Bill Hafner wrote that he was too modest to use the ad as it appeared. However, facts are facts, and they will be told here instead of on the advertising pages. 'Way back in 1901, Bill Hafner produced a miniature horseless carriage. As far as the writer knows, this is the earliest American made toy automobile now in existence. It had a tin body, pewter wheels and rubber tires. Louis Hertz, who collects old American toys, ran across one of these gems in a New England farmhouse and loaned it to PLAYTHINGS in order that a photograph might be made. As you will see, this old rattler was up-to-date at the time in every particular. Later on, the Hafner Mfg. Company began to manufacture mechanical trains and has been carrying on ever since. Today, Hafner ranks as the oldest manufacturer of mechanical toy trains in the country. Other mechanical train lines have come and "gone with the wind" long ago, but Hafner still forges ahead.

Hafner's Horseless Carriage

LITTLE ORPHAN ANNIE JOINS "TOYCRAFT" FAMILY

Little Orphan Annie, that seasoned lovable little trouper, is now being featured in a "Toyco" toss-up balloon. It retails for 5c and considering the popularity of Little Orphan Annie and the quality of "Toyco" Balloons, it should be a big Fall number. Made exclusively by The Toycraft Rubber Co. of Ashland, Ohio.

ROLAND DELFAUSSE WEDS

Roland J. Delfausse, son of Mr. and Mrs. A. H. Delfausse, was married to Miss Katherine Scutakes on September 3rd, at Burlington, Vt. Young Mr. Delfausse met his bride at the University of Vermont, where he has been a teacher of economics. During his college career the young man made a nationwide reputation as an athlete.

NEW "TOY CENTER" CATALOG PORTFOLIO

Every year the Toy Center in the Fifth Avenue Building issues an attractive catalog portfolio. This year the organization has outdone itself. The portfolio is bound with an embossed cover, printed in two colors, and contains many announcements by the exhibitors in the Fifth Avenue Building. In addition to the announcements themselves, there is a very complete directory giving the names, room numbers and telephone numbers of the members, arranged according to floors, and a classified directory of all toy exhibitors in the building.

DANCIN-DAN FAMILY

Pictured below are the members of the Dancin-Dan family of wooden tap dancing dolls, made by the Associated Syndicate. Reading from the well known left to the w. k. right, they are Dancin-Dan, Dancin-Dina, Dancin-Dan, Jr., and Dizzy, The Dancing Fool. The latter two are new additions to the family. Jr. retails for 50c, while Dizzy is a 25c seller. The senior tap dancing dolls sell for $1.00 each, and are also available together as a dancing team to retail at $2.00. All numbers are equipped with holders and paddles, and by tapping the latter in steady rhythm, with or without music, it is a simple matter to make the figures "strut their stuff."

De Luxe Play Stove with highly polished aluminum kitchen utensils, including a whistling tea kettle. For those children who are not yet of an age to play with electric devices here's a handsome new stove that has everything a little housewife could desire. A removable heating drawer, a workable oven with hinged door; movable gas cocks, heat gauge and temperature regulator; and a clock with movable hands. With the set come 7 perfectly proportioned pieces of aluminum kitchenware including 2 good size pots with lids, a bowl, a strainer, a ladle, a mixing spoon—and best of all, a whistling tea kettle in the new dome shape. Stove is sturdily constructed of heavy metal. Size of stove 14 inches wide, 14 inches high and 7¼ inches deep.

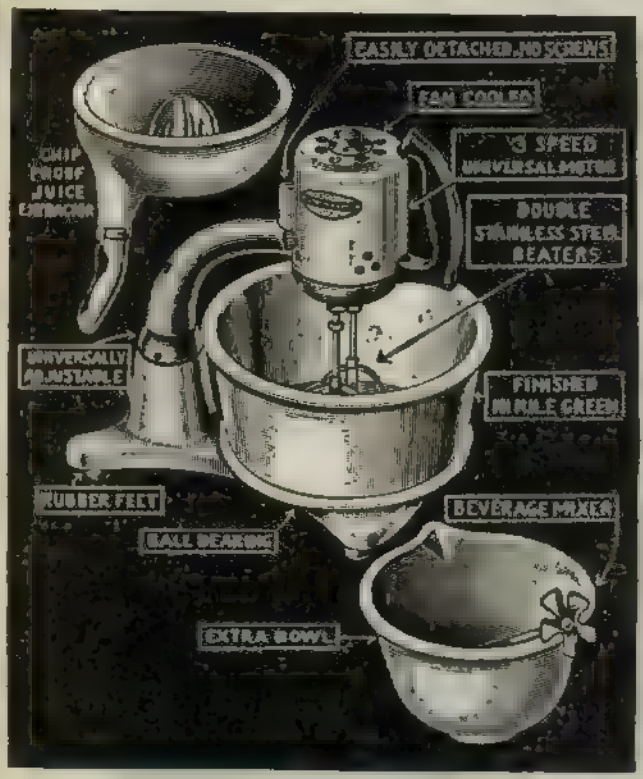
Low Priced Electric Food Mixers



The Improved DeLuxe Dormeyer

With Heat-Proof China Mixing Bowls

The Original Electric Food Mixer Compare this new Dormeyer with any Mixer you ever saw

New Beauty . . . More Convenience . . . Easier to Operate . . . Greater Power . . . Always Reliable . . .

A complete combination kitchen appliance that does every task you could expect of it . . . perfectly . . . effortlessly and then surprises you with new clever uses you hadn't thought of. It's beautiful, with its sea-foam green enamel and glistening chrome plating—but above all it is sturdy enough to serve you many years.

As for convenience, the Dormeyer is a woman's machine and is designed the way a good cook wants it with no mechanical botner. The Mixer tips back for removing bowls or to drain beaters. Beaters detach easily and quickly by gently pulling them out, no screws. Turntable works on ball bearings and revolves automatically when beaters are placed off center. Motor gives 3 mixing speeds. Changes to Juice Extractor instantly. The beater just lifts from stand, making it portable and easily cleaned.

Complete with drink mixing paddle, rubber spatula and oil dripper.

No. 3G46. Each..... 11.46

AUTOMATIC TOASTER

The newest development in Automatic Toasters always remembers for you—requires no watching and when toast is ready removes it entirely from the oven so there is no chance of it being burned.

It toasts 2 slices of bread at a time . . both sides at once . . size 4 x 4¾ inches . . exactly the way the toast is wanted: light brown, dark brown or medium. Moreover, the toast CANNOT BURN — because this Toaster is equipped with a New Selective Toast-Minder which controls the degree of brownness and removes the toast the moment it is ready! The bread rack automatically tips out and down on hinge. Think of it! Perfect toast every time! Toasted quickly! Toasted easily! No watching necessary.

SAFE CYCLING SECURES CUSTOMERS

(*Continued from page 234*)

Conservative estimates place between six and seven million bicycles in use at the present time. There are twenty-nine million fast-moving motor vehicles now on the roads. Contrast this situation with that which existed when bicycles were popular in the horse-and-buggy days, and it is obvious that the bicycle rider of today is entitled to be given some consideration for his safety.

The Cycle Trades of America believe thoroughly in the 3 R's of bicycling—Registration—Recognition—Regulation.

Registration gives to the rider a sense of responsibility to ride safely and carefully. It is also a wonderful theft deterrent.

Recognition brings to the public the needs of the bicylist for Cycle Paths in the Parks, along the Boulevards and Parkways; and the knowledge that a bicycle is a vehicle and is entitled to the same consideration.

Regulation means the making of proper laws governing the use of bicycles, and the enforcing of same.

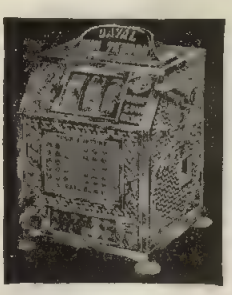
Effecting Registration, Recognition and Regulation is an important work, and a big step toward broadening the market for bicycles. It is important that dealers recognize this by appealing to the municipal authorities to aid the bicyclists. In making such appeals, it might be advisable for dealers to present petitions signed by bicycle club members, parents of children who ride bicycles, and public spirited citizens, as well as civic organizations. Anything done toward furthering the safety of riders will come to the public's attention and will, consequently, increase both interest and sales in bicycles.

Dealers who will turn their thoughts to promoting safe cycling and who, through public activity, will endeavor to win for bicycles the recognition they deserve, will find the market for bicycles will be increased considerably and that numbered among the customers will be those whose attitude toward the safety of cycling has been changed entirely.

Next month's bicycle article will include suggestions for stimulating sales, arranging displays and conducting promotions. The value of deferred payment plans and the forming of clubs will also be discussed, as will also ways of turning prevailing economic conditions to good advantage by tapping new resources

RELY ON PLAYTHINGS FOR AUTHENTIC ARTICLES ON MERCHANDISING BICYCLES

Counter Coin Machines



Daval Gum Vendor. Plays pennies, nickels, dimes and quarters through the same slot. Newly designed duro-silver finish aluminum case. Improved mechanism. Window at side shows last coin played. Clogproof coin chute. Permanent gum display. Can also be furnished in penny slot only or nickel slot only, upon request.

No. 19A117. Each..... 12.50

Same machine as shown above, only with jackpot.

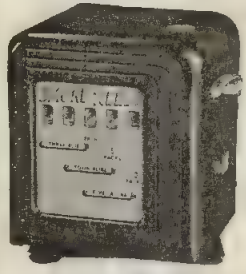
No. 19A118. Each..... 14.50

Bell Slide has five reels, the middle of which is always exposed to view. The others cover up with shutters upon insertion of penny, nickel, dime or quarter. When either coin is played, player has choice of opening any 2 of the 4 buttons to see if he can get a winning combination, according to score card. Exclusive turn table which allows Bell Slide to be swung around to any position. Window on side to show last coin played.

No. 19A181. Each..... 22.50

Penny Pack. The most beautiful modernistic penny cigarette machine with ball gum vendor. Will capture all of the loose "sales tax" pennies, on any location because of its large odds paid to players. For the investment of a single penny player can get from one to ten packs of cigarettes. Size 8½x8½x 10½.

No. 19A158. Each..... 17.50



Smoke Reels. A new de luxe penny cigarette machine with odds as high as 150 to 1. Has a silent, cheat-proof and fool-proof mechanism. Money compartment is partitioned off to prevent coins from jamming mechanism. Cabinet made of solid walnut with a window on the side to show last coin played. Equipped with swivel turntable base.

No. 19A185. Each..... 22.50

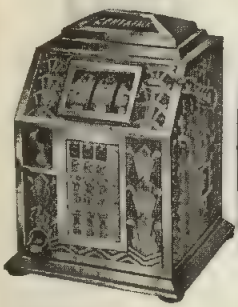
Joker. Solid walnut cabiner with swivel turntable base. It's real poker! Players go wild with excitement! The joker is wild. Plays pennies, nickels, dimes and quarters; or any of these exclusively when specified. Precision-built, silent, cheat-proof and fool-proof mechanism. Window on the side shows the last coin played.

No. 19A186. Each..... 22.50

Tri-O-Pack. A machine that is sure to capture all of the loose "sales tax" pennies because of its large odds paid to player. Pays out from one to ten packs of cigarettes. TRI-O-PACK has everything you expect from a counter game. Beautiful design, silent mechanism, cheat-proof reels and shutters. Window on the side to show you last coin played.

No. 19A177. Each..... 23.50

Counter Coin Machines

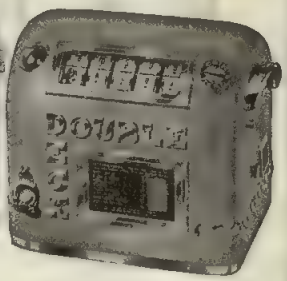


Cent-A-Pack Cigarette Machine with Gum Vendor. A small counter size machine which takes up little space. Has a device that makes reels come to a positive stop and cannot be shaken to change combinations. Highly polished aluminum case. Window on side to show last coin played which provides absolute slug protection.

No. 19A163. Each..... 14.00

Reel Spot with Odds from 2 to 1-to-20 to 1. The good old shell game by Daval. Pick the spot. That's All!! In a counter game it's a "natural" for the operator. All four reels spin when coin is inserted. But only the odds reel is exposed to view. When all the reels stop spinning, the player opens the shutter over one of the other reels by pressing the button beneath it. If player finds the spot, he gets the odds indicated. Window on the side shows the last coin played.

No. 19A179. Each..... 29.75



Double Deck is a 5-reel poker game which automatically deals and shuffles complete hands to two players at the same time! It has a device that makes the reels come to a positive stop and cannot be shaken to change combinations. Plays pennies, nickels, dimes and quarters through the same slot. Has window on the side to show last coin played which provides absolute slug protection.

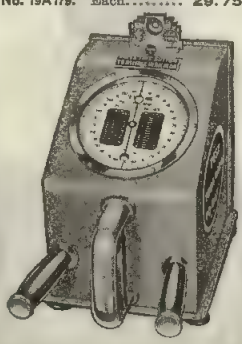
No. 19A178. Each..... 22.50

Giant Grip Scale. Finished in Chinese red crackled duco, full chrome trim. Test strength of hand grip. Size 8¾ inches wide, 13½ inches deep, 12½ inches high. Button indicator control for competitive play.

No. 19A182. Each..... 17.50

Metal stand for above machine.

No. 19A184. Each..... 2.50



DeLuxe Grip Scale. 3-way strength tester. Test grip and strength of arms for push and pull. Chinese red crackled duco with chromium trim. Button indicator control for competitive play. Size 8¾ inches wide, 15 inches deep, 12½ inches high.

No. 19A183. Each..... 19.50

Metal stand for above machine.

No. 19A184. Each..... 2.50

Alwin. A machine representing a radical departure from the usual counter game. 4 reels, one of which is the odds reel. Odds range from 5 to 20, plus a jack pot award. Equipped with the popular "Fruit" strips but differs from the ordinary machine in that any "3 of a Kind" wins an award, including the jack pot, these odds being based on the odds shown on the first reel. Machine is a straight 5c play with window on the side to protect it against the use of slugs.

No. 19A174. Each..... 25.00

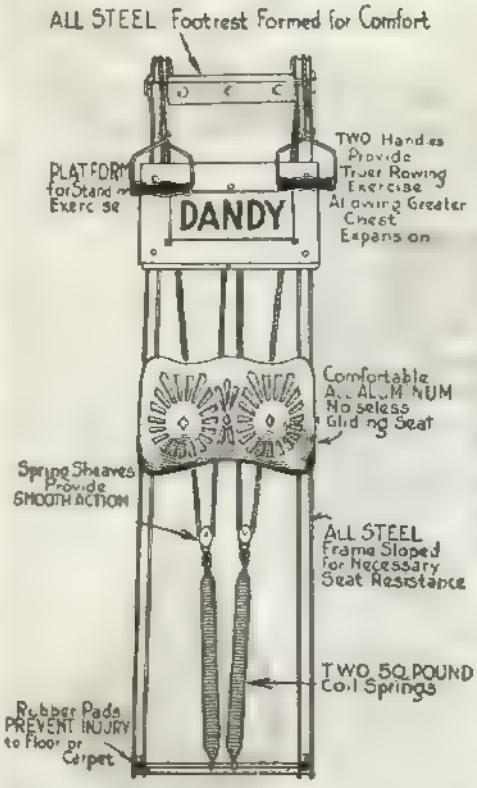
Rowing Machine Exercisers



ALL STEEL Footrest Formed for Comfort
PLATFORM for Stand ng Exerc se
DANDY
TWO Handles Provide Truer Rowing Exercise Allowing Greater Chest Expans on
Comfortable ALUMINUM Noiseless Glid ng Seat
Springs Sheaves Provide SMOOTH ACTION
ALL STEEL Frame Sloped for Necessary Seat Resistance
TWO 50 POUND Coil Springs
Rubber Pads PREVENT INJURY to Floor or Carpet

The Dandy

All Steel Frame Construction

The Dandy Exerciser has long been placed on the market to fill a long felt need for an inexpensive means for indoor exercise. The frame is constructed entirely of steel, rigidly welded. Side rails are structural steel channels designed with the proper slope to provide the necessary seat resistance. Steel foot rest of comfortable shape. Entire frame finished in blue metalustre. Large wooden pulleys, scientifically designed and located with reference to the malleable iron spring sheaves, assure an even pull in almost all directions. Wood grip swivel handles. Two fifty pound nickel plated coil springs are provided which allow a vertical pull of sixty inches for standing exercises. All aluminum seat provided with noiseless rubber tired rollers, assures easy gliding and comfort. Machine cushioned with six rubber bumpers to prevent scratching floors.

No. 10R54. Each.....3.20

The Challenge

with Aluminum Front and Platform

The Challenge Exerciser has an all steel frame construction which has been finished in green metalustre. It is provided with an all aluminum front and platform which are polished and buffed. Handle frames are made of cast aluminum and provided with wood grips. Aluminum seat is highly polished. Equipped with four thirty-pound nickel plated coil springs with wood roller rope sheaves, making a practically noiseless but smooth acting combination. The method of attaching springs to sheaves and back cross members is such that immediate and easy changes can be made when it is desired to use on two springs.

No. 10R55. Each.....5.25

Athletic Equipment for the Gymnasium

Basketball Goals. For backyard practice and play. 16-inch ring of ¼x¾-inch steel; riveted to braceless type steel brackets. Enameled in black. Complete with nets.

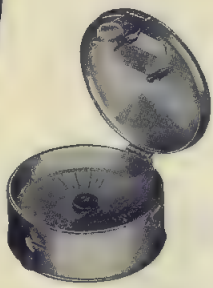
USED FOR EITHER INDOOR OR OUTDOOR PATROL

Approved by the National Board of Underwriters and Associated Factory Mutuals.

Station box open, showing key and chain.

Special Waltham Movement, showing Dial Carrier Spindle

Fifteen jewel, 8-day, stem wind and set. Breguet hairspring. In an inner housing. Proof against dust, dampness and jarring



Clock with case opened, showing dial in place and partial registration.

Clock in leather carrying case with strap.

These clocks are made up with registering mechanism for 16 or more stations and are sold with any number of stations from six up. If at first a system of six or eight stations would be adequate and later it should be necessary to extend the service, the additional stations then required can be supplied promptly and without interruption to the established service.

The Special Model with sixteen stations costs no more than the regular model with sixteen stations, and has this advantage, that its capacity can be increased later

Case die cast aluminum keys of hardened bronze, nickeled, station boxes close with spring lock. Operation key registers embossed figure on dial. Records perfectly after twenty years of use. Sent on approval if desired

PRICES

635H1. Regular Model. Six station outfit, complete with one year's dials (16-station capacity) $130.00
635H2. Additional stations up to 16 in all. Each 5.00
635H3. Special Model. Sixteen-station outfit, complete with one year's dials (30-station capacity) 180.00
635H4. Additional stations. Each 5.00
635H5. Extra Dials. One year's supply 5.00

AUTOMATIC TIME SWITCH CLOCKS

For Store Windows, etc. Turning Lights Both On and Off. For Use with Either Alternating or Direct Current. Approved by the Underwriters. Eight-day Lever Movement. Prices Each.

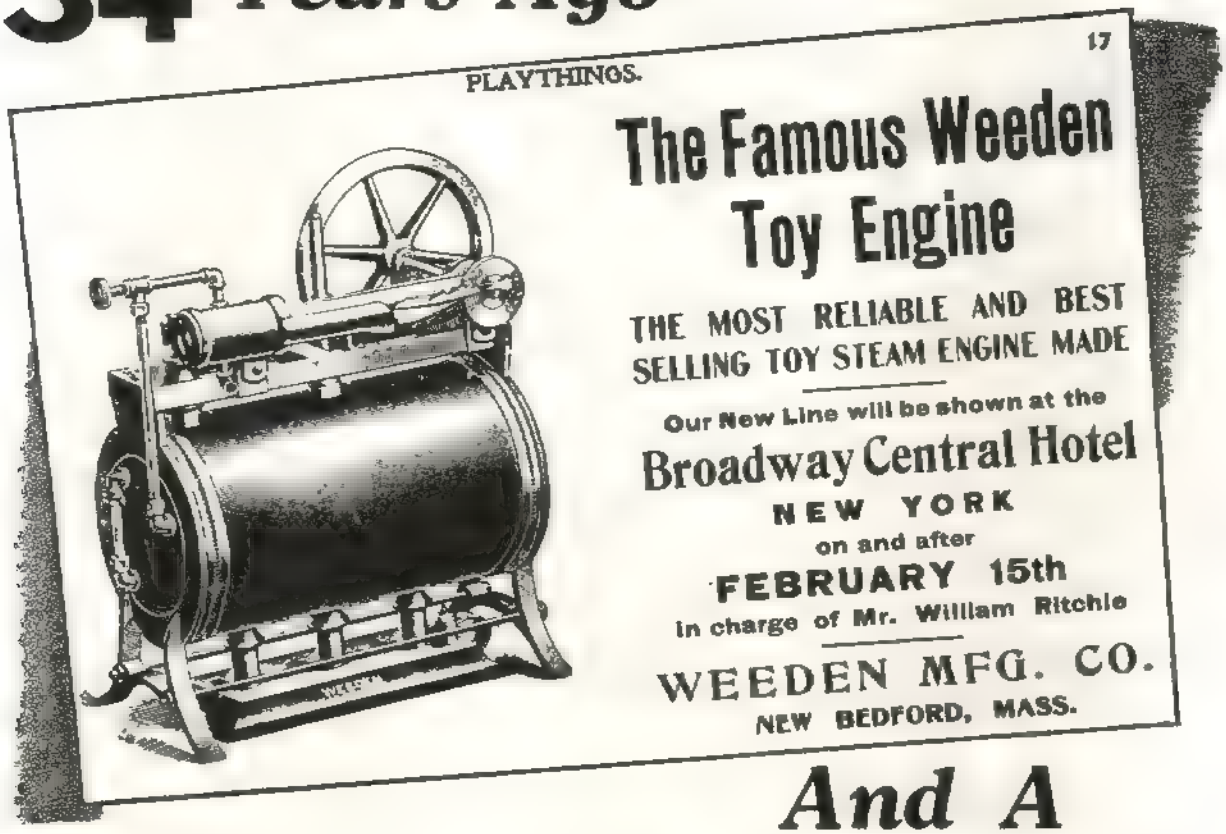
A TRUE STORY

34 *Years Ago*



PLAYTHINGS. 17
The Famous Weeden Toy Engine
THE MOST RELIABLE AND BEST SELLING TOY STEAM ENGINE MADE
Our New Line will be shown at the
Broadway Central Hotel
NEW YORK
on and after
FEBRUARY 15th
in charge of Mr. William Ritchie
WEEDEN MFG. CO.
NEW BEDFORD, MASS.

And A True Story Today!

Thirty-four years ago, we truthfully informed the trade that the "Famous Weeden Toy Engine" was "the most reliable and best selling toy steam engine made."

Since those early days, millions of efficient little WEEDEN Engines have left our factory to chug merrily in the homes of each up and coming generation of American boys. And since then, too, thousands of toys have come and gone, including steam engines, but with all the changes in toys WEEDEN Steam Engines are just as much on the job today as ever—perfectly made, reliable and with a fascinating appeal to real boys that no other toy has ever been able to surpass.

In an age of action, toy steam engines are the ACTION toy supreme, and WEEDEN Steam Engines is the line that has successfully stood the test of time.

WEEDEN MFG. CO.

Miss Delphine Del Bello

Toy Department to be Increased

MISS DELPHINE DEL BELLO, who has rounded out her first year as toy buyer for The Wm. Hengerer Company, in Buffalo, N. Y., told the PLAYTHINGS Roving Reporter that she intends to have a much larger toy department just as soon as the new addition to the store is made ready for occupancy. Miss Del Bello also stated that she will attend the Fair

A.M.C. Meeting on May 2nd and 3rd

D. K. OSBRIN, of the Associated Merchandising Corp., 1440 Broadway, advises that a two day meeting with toy buyers in the group will be held on May 2nd and 3rd. The buyers who will attend this meeting include: C. E. Hjelte, Abraham & Straus, Brooklyn; Mrs. D. Manlove, L. S. Ayres & Co., Indianapolis; Maurice K. Stern, Bloomingdale's, New York City; C. Kersko, Boston Store, Milwaukee; D. Harrison, Bullock's, Los Angeles; J. W. Pickerill, Burdine's, Miami; E. A. Mayer, H. C. Capwell Co., Oakland, Cal.; T. H. Merriam, The Dayton Co., Minneapolis; F. R. Cook, Wm. Filene's Sons Co., Boston; J. C. Fullmer, Joseph Horne Co., Pittsburgh; M. G. Brinkman, J. L. Hudson Co., Detroit; N. B. Gardiner, Jr., Hutzler Bros. Co., Baltimore; R. M. Johnston, F. & R. Lazarus & Co., Columbus, Ohio; M. R. Wall, Rike-Kumler Co., Dayton; T. S. Everett, The John Shillito Co., Cincinnati; "Mark" L. Neumann, Stix, Baer & Fuller Co., St. Louis; H. R. Landsdown, Strawbridge & Clothier, Philadelphia; A. Currie, Wm. Taylor Son & Co., Cleveland; Miss Mary Marks, Thalhimer Bros., Inc., Richmond, Va.; and J. Wiley, R. H. White Co., Boston.

"Buying Day" Booklets

STUDENTS' MICROSCOPES

Students and adults may now enjoy in their homes the adventurous explorations and breath-taking disclosures of the hidden world. These high grade American instruments are simple to use and surprisingly efficient. Microscopy is a hobby which retains its fascination for a lifetime.

Prices Subject to Catalog Discounts. See Page 1.

GL7275 Bausch & Lomb Model R Microscope with 440 Page Book $81

A superior microscope approaching the standard laboratory equipment. Patented bakelite stand patterned after research type. New designed optics 75x to 300x, give extremely high resolving power. Two objectives, one built in. Chromium draw tube with magnifying powers engraved on it. Concave adjustable mirror. Rack and pinion focusing. May be used as a microprojector and for photomicrographs. Height extended 10¾ inches. Supplied in solid walnut carrying case, slide holder with 7 prisms and one specimen slide. Supplied with 440 page standard and scientifically accurate book on amateur microscopy that regularly retails at $7.50 per copy. 300 illustrations. This book was especially planned for the amateur and is the most complete work on the subject published.

GL7276 Student Microscope $36

8x & 20x power, 50x to 350x 9 inches high. Rack and pinion focusing. Revolving disc and three apertures. Double wheel adjusters 3 individual detachable objectives 8x powers, 35x, 100x, 150x, 170x, 200x and 350x. A high type students' precision instrument. Attractive in design and finish. Mahogany cabinet and mounted slides.

GL7277 425X Wollensak Microscope . . . $80

Magnification 100x to 425x, graduated in steps of 25x. Double achromatic objective lenses. Removable concave mirror. Rack and pinion focusing. Adjustable stand tilts to any position. Detachable base. Height collapsed 7 inches. Height extended, 11¾ inches. Rhodium plate and black lacquer finish. Supplied with tweezers, two plain slides, one prepared slide. Powerful enough for the general microscopic work for laboratory school or home. Lacquered wood case.

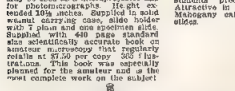
AMERICAN MADE READING GLASSES

GL7282 3 Inch Diameter $2.50
GL7284 4½ Inch Diameter 3.75
GL7285 4 Inch Diameter 4.50

Fine clear polished optical lenses, excellent vision without objectionable color fringes. Polished nonbreakable chromium plated frame. Vulcanized rubber handle.

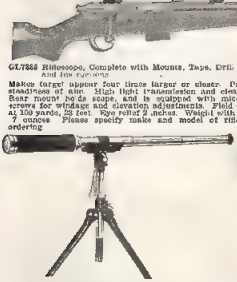
GL7286 Rectangular Reading Glass . . . $3.50

Bausch & Lomb. An artisan made high grade reading glass, easy to read naturally, and particularly desirable over long periods of reading. Excellent for map reading, photo retouching, and general microscopic work. Size 3½ x 2 inches. Focus 3 inches.



GL7288 Riflescope, Complete with Mounts, Tape, Drift and Fine Key Screw . . . $15

Makes target appear four times larger or closer. Promotes steadiness of aim. High light transmission and clear view. Rear mount folds compactly. Front mount is equipped with micrometer screws for windage and elevation adjustments. Field of view at 100 yards, 35 feet. Eye relief 2 inches. Weight with mounts 7 ounces. Please specify make and model of rifle when ordering.



STOPPING SCOPE

GL7278 20X Stopping Scope with Tripod . . $8
GL7279 Tripod Only (for any size Telescope) . 1

An excellent all around telescope of renowned Wollensak quality at a price recommended for the rifle range, meeting the demands for a fine instrument at a popular price. Small bore holes can be spotted with detail and clarity from 25 feet up to 100 yards. When calibrated, this instrument is very compact and will fit nicely in the shooting kit. Tripod is of sturdy construction, adjustable as to rise from 9 to 14 inches, and has both a panoramic and elevation movement and may be locked in any position. Telescope solidly fastened into cradle, and held securely. Made of aluminum alloy, finished in black lacquer and gold.

Note. May be used with telescopes of greater power if desired. Prices on application.

WOLLENSAK ACHROMATIC TELESCOPES

GL7280 20X Telescope, 3 Draw Tubes, 17 ounces . . $21
GL7281 40X Telescope, 4 Draw Tubes, 25 ounces . . 27
GL7282 45X Telescope with Celestial Eyepiece (described below) 55

SPECIFICATIONS

Number	Power	Diameter of Objective	Length Extended	Length Closed	Field of View at 1,000 yds
GL7280	20X	1¼"	24¾"	8"	81 yds.
GL7281	40X	2¼"	48¾"	12¾"	18 yds.

High grade achromatic lenses giving great precision with sharpness over wide field of view. Reinforced by mounted to slide main color-fringes and eyestrain. Chromium plated draw tubes attractively ribbed fore bodies assure permanence and durability. Smooth acting true fitting tubes permit quick focussing and perfect alignment. Sturdy waterproof cases.

THE CELESTIAL EYEPIECE

The Wollensak 45X Telescope permits the use of a special Celestial eyepiece bringing you more intimate contact with the wonders of the heavenly bodies. The use of this Celestial eyepiece increases the magnification to 60X for astronomical work. With this combination the belts of Jupiter, the rings of Saturn, the ice-capped poles of Mars, and the countless oceans of space may be studied and enjoyed in your own home.

Supplied with sun glass for solar observations and furnished a mount to interchange with standard eyepiece lens.

MAGNIFIER—CARRYING ITS OWN LIGHT

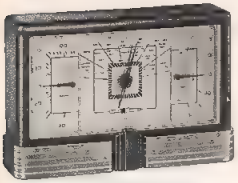
GL7289 Radiant Magnifier and Light . . . $5.00

Excellent all chromium, dual purpose, for jewels stamp collectors, photographers, engravers, engineers, machine tool operators, detectives, police readers etc. Two 1¾ inch lenses in mounted position 3¾ diameters of field with clear sharp definition to extreme edges with least distortion or aberration. Complete with batteries and bulb. Battery Length 6¼ inches.

BAROMETERS AND WEATHER GUIDES

These instruments are useful to those interested in checking weather conditions and air conditions. The barometer enables one to tell at a glance the weather to expect tomorrow. Air condition indicators indicate if proper air conditions for health and comfort exist in your home or office.

Prices Subject to Catalog Discounts. See Page 1.



PERSONAL WEATHER BUREAU

GL7290 Taylor Fairmont Combination $30

Stormoguide, telling the weather of tomorrow with automatic rising and falling indicator, thermometer, and humidity indicator. Enclosed in bakelite case, chrome mounted. Silvered metal dial covering all three instruments. Really a compact personal weather bureau. Size 8 x 5¾ x 3 inches. Splendid gift.

THE WEATHERMAN

GL7291 Walnut and Gold $6.00
GL7292 Black and Gold 6.00

A new high grade aneroid barometer and accurate weather forecaster. Exquisitely designed in color and also in harmonies with any surroundings. Simplified reading dial. Size 5¼ inches, 3 inch dial.

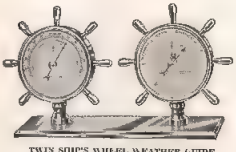
GL7293 Taylor Trempoint Combination $37

An ideal combination piece for home or office. Offers a Stormoguide, a Thermometer and a Humidiguide in one piece. Attractively designed for use on a desk or wall. Solid walnut case with matt gold trim and modern gold dutch bar frame. The stormoguide tells the weather of tomorrow. It is compensated for temperature with latest Taylor automatic signal showing rising or falling. The convenient thermometer and Humidiguide are easy to read and dependably accurate. Length 11¾ inches.

TAYLOR'S YACHT STORMOGUIDE

GL7294 Brass Case, 4 in. Dial $25
GL7295 Weme Case, 5½ in. Dial 15

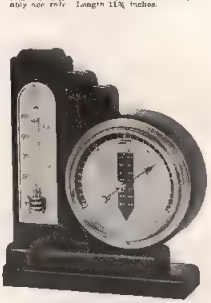
Steering wheel design. Attractive, easy reading Stormoguide dial simplified for easy and accurate weather forecasting. Brass shaded and bezel.



TWIN SHIPS WHEEL WEATHER GUIDE

GL7296 Chromium Weather Guide $18
GL7297 Bronze Weather Guide 18

Barometer and thermometer mounted on an attractive chrome base and ship's wheel. 3 inch silvered dial lettered in black enamel for a simplified reading and forecasting. Red hands indicate the reading of both. For use for mantel, desk or table. Width 8½ inches. Height 8½ inches.



COMBINATION WEATHER STAND

GL7298 Mahogany Finish $19
GL7299 Walnut Finish 19

A skilful combination of the artistic and practical. Smart modern design. Adaptable to home or office. Aneroid barometer, 2¾ inch gilt dial, with easy reading, weather forecasting. Gilt back thermometer, 4½ x 1¼ inches. Scale to match barometer. All over size 7 x 9¼ x 5½ inches.

ENGLISH WEATHER SET

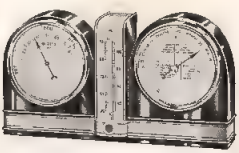
GL7300 Forecaster Weather Set $31

Oriented easy reading forecaster dial for direct reading, with double pointed hand. Closed brass etched dial with rising indicators in black, falling and color in red. Hygrometers with substantial coil type instrument. Brass trim thermometer to match. Easel hanger for hanging on wall. Genuine mahogany. Size 8 x 4 inches. Dial 2¾ inch diameter.

TAYLOR HUMIDIGUIDE

GL7302 Hampton Humidiguide $6.50

Direct reading hygrometer of modern design enables you to tell the correct humidity in the air of a room. Molded brown case, size 3¾ x 5¾ x 1¼ inches. White dial with black lettering and graduations. Red pointer. Indoor thermometer to match.



AMERICAN COMBINATION WEATHER SET

GL7301 Combination Set $25.00

Three instruments in one, relative humidity, temperature and barometer. Smartly designed combination, attractive and decorative. Silvered dials 4 inch, with chrome bezels. Silver thermometer, silver hand inlaid in black bakelite housing. Height 4¾ inches. Width 8½ inches. Tells instrument will show you the temperature, accurately the correct percentage of moisture in the air and forecast future weather conditions.

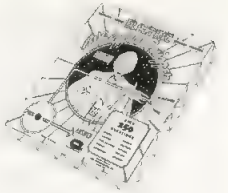
NEW TOYS ON PARADE

Introducing the Mystoplane, a new toy airplane that flies at a wave of the Magic Wand without springs, motor or mechanism. Just wave the wand and the plane will go any direction desired. What keeps the Mystoplane in the air? What makes it faithfully obey the Magic Wand? This is a startlingly different new toy full of thrilling mysterious action. Retails for $1.00. Eighteen small planes are furnished with each toy and the toy itself offers considerable value. The manufacturers are MYSTOPLANE CO., Inc., 8 East 23rd St., New York City. Manufacturer's representatives also handling this line are Kenneth Stedman, 718 Mission St., San Francisco; Charles H. Carroll, Merchandise Mart, Chicago; Fred Jones, Atlanta, Ga.; and Welcome G. Young, Boston, Mass.

Foto-World, the news-reel cameraman game, played on an up-to-the-minute map of the world in five colors: red, yellow, blue, buff, black. It's a three-panel game board, cellophane wrapped. Spinner, pawns, and assignment cards are packed separately in a blue-green and black box. As news-reel cameramen, players travel everywhere via train, airplane, caravan, boat and dog-sled. Write to CADACO-ELLIS, Inc., 200 Fifth Ave., New York or to their executive offices at the Merchandise Mart, Chicago, for further information.

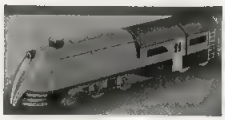
RIGHT:

One of the sensations of the present season, according to buyers, is the amazing new "Mystery Box" introduced by REX ACCESSORIES CO., Racine, Wis., who are represented in Chicago by The Toy Market, Rooms 1417-18 Merchandise Mart. This fascinating, amusing and baffling mystery box answers instantly and accurately over 250 questions on a wide range of subjects—sports, history, politics, aviation and many others. All that is necessary is to choose a question and press the button! The carton is unusually attractive, printed in several colors. It retails at a popular price.



New in the field of educational construction sets is the "Mak-A-Lamp" outfit made by A. & P. IRMISCHER CO., 712 Blackhawk St., Chicago. It is an instructive as well as educational pastime for any youngster. Each set contains enough material to make a complete lamp, and the style and construction may be changed to suit the individuality of the child. New and different pieces may be added as desired, since all parts, sizes, and threads are of standard make. All metal parts are either nickel or copper plated, or of Old English finish. When assembled, which is easily done, the finished lamp makes a beautiful gift that anyone would appreciate. There are three sets, retailing at $1.25, $2.00 and $3.50, and each is put up in a very attractive carton in colors.

One of the most popular and fastest selling toys in the new Wolverine line is this big, powerful modern locomotive and tender that has remarkable new features. It is equipped with a mystery power plant which drives the engine hurtling ahead by a mere pressure of a lever in the back of the cab. No key, no battery, no bothersome winding. A pull attachment, also in the cab, rings the



bell before the locomotive gets under way. It is lithographed in brilliant colors to simulate every detail of the latest "iron horse." On a level surface the locomotive will forge ahead quite a distance. It can also be used as a pull toy by attaching string to cow-catcher. The WOLVERINE SUPPLY & MFG. CO., 200 Fifth Ave., New York, reports that this new action toy has been received with much enthusiasm wherever it has been presented. 17½" long it has both eye appeal and value retailing at $1.00.

Razzle Dazzle is one of the latest developments in footballs and is offered to the trade by A. H. DELFAUSSE, 200 Fifth Ave., New York. This new football is built for volume and promotion and real service to give the boys a fast and wide open game. It has taken years of manufacturing research to develop this new ball. Information will be given by writing to the above address. Razzle Dazzle is made to retail for $1.00 and up. Samples and quotations will be sent on request.

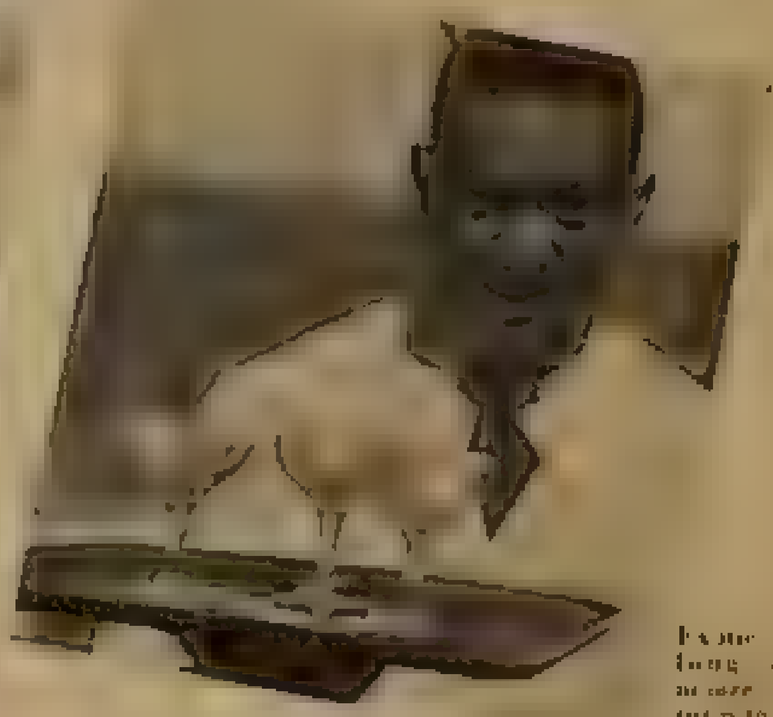
CAST YOUR CARES TO THE TRADE WINDS IN *Puerto Rico*

Swim or stretch out under a palm on the sands . . . where the white surf rolls and sprays against the coral. Rhumba beneath the stars . . . do the smart clubs and casinos. For the joy of living's in the air —in the climate . . . the seas, the trade winds and mountains see to that. Puerto Rico's average summer temperature is only 76 degrees—winter 75 degrees. Lose track of time in old Spanish gardens, baloonized streets, cathedrals . . . or golf, fish, play tennis, sail. Cast your cares to the trade winds in Puerto Rico this summer.

For full information and attractive new literature . . . see your travel agent—or write to the Government of Puerto Rico, Institute of Tourism, 630 Fifth Avenue, New York City.

There's gift to be in Puerto Rico, too. Peaks 4,000 feet high, waterfalls, mountain streams, rainforest parks. A short, beautiful ride across the seashore.



Exotic cocktails, long, cool drinks await you with the tantalizing lilt of Puerto Rican rum.

Puerto Rico's nearly 2 million people buy over 90 million dollars worth of goods from mainland U.S.A. every year. In fact Puerto Rico is rated sixth among U.S. world customers.

DISCOVER *Puerto Rico* U.S.A.

IT'S ALWAYS FAIR WEATHER IN

Puerto Rico

FORGET THE SEASONS in Puerto Rico. The average summer temperature is 76°, winter, 73°. The sun yields to clouds and rain only on an average of five full days a year.

Bring your beach togs, golf clubs, tennis rackets, evening dress . . . you'll use them all and then some.

You'll enjoy the tropics in Puerto Rico . . . where the balmy trade winds star the palms . . . the blue sea sprays white against the coral . . . surf and sand glisten in the sun . . . fleecy clouds tip the mountains . . . where lovely days blend into soft and starry tropic nights. Pack up and *live* in Puerto Rico this vacation.

See your travel agent—or write to the Government of Puerto Rico, Institute of Tourism, 666 Fifth Ave., New York City.

PUERTO RICO with its nearly two million people is the sixth best world customer of the mainland U.S.A. buying more than 90 million dollars worth of American farm produce and factory products each year.

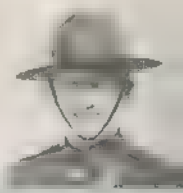
DISCOVER *Puerto Rico* U.S.A.

YOU'LL SEE AUTUMN AT ITS LOVELIEST IN Pennsylvania

Write Dept. A, Pennsylvania State Publicity Commission, Harrisburg, Pa., for your Hospitality Passport; also for Picture Booklet and Touring Guide to points of scenic beauty and historic interest

It's great to be in Pennsylvania in October! There's a bracing, "chin-up" tang in the air—a breath of frost in the sun's warmth. Mother Nature has lighted her autumn fires, and the rolling, forest-clad mountains are a blaze of beauty . . . it's like driving through a rainbow! ●Come and enjoy Pennsylvania this Fall, in the *restful* time of year.

We're making it mighty easy for you—with 30,000 miles of fine highways to roam; good hotels and pleasant friendliness wherever you stop. Spend a weekend or a week; you'll enjoy every minute and every mile.



The famed Motor Police—your guide in Pennsylvania.

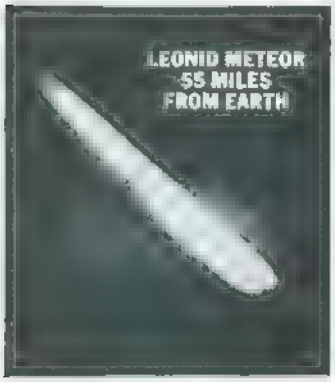
Born in a Meteor's Burst...Story of Metal

THOUSANDS OF YEARS AGO, a savage found a fallen meteor—broke a piece from it—beat it into a crude spearhead. Thus began the Iron Age! Read how Plymouth treats metals today—to give you the brilliant performance and economy of "the car that stands up best!"



1 **Meteors Carry** metal ores! Man's discovery of how to use metal was a big step forward. Read about the better metals that go into Plymouth!

2 **4000-Year-Old Spearhead** found in Egypt. Today, Plymouth scientists produce special alloys just as precisely as a pharmacist mixes drugs. Example: Plymouth's super-hard pistons.

3 **This Electric Arc** turns metal to vapor—shows all its elements! Plymouth's flexible, Amola steel springs resulted from such advanced metallurgy.

4 **Bronze that's Pure Oil!** Here's a Plymouth bushing made of marvelous Oilite. It looks like solid metal...but under pressure, oil oozes out! Plymouth had them first among low-priced cars.

5 **Fine as a King's Sword** is this steel crankshaft. It resists strain and vibration...has 4 main bearings.. helps make Plymouth "smoothest."

6 **Plymouth's All-Steel Body** is formed into beautiful lines under pressure of 3 million lbs. The body is safer—and quieter.

7 **"Meteor" Heat Makes Safer Bodies.** This worker is welding a joint. Pioneering in metals made Plymouth one of the first cars with a Safety-steel body!

8 **1938 Plymouth De Luxe 4-Door Sedan with Trunk** delivers in Detroit for $815; other models as low as $645; including Federal taxes. State, local taxes not included. See a Dodge, De Soto or Chrysler dealer. Plymouth Division of Chrysler Corporation, Detroit, Michigan.

NOW! MORE ROOM, MORE CONVENIENCE, SAME ECONOMY in The New Pullman Convertible

Single OCCUPANCY Section

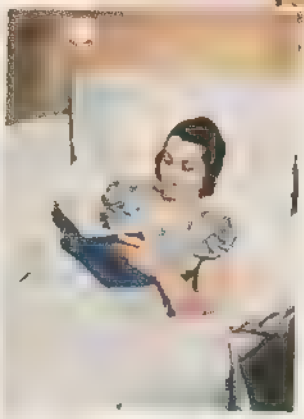
This new Pullman convenience—the Convertible Single Occupancy Section—allows you to dress or undress while standing full height. Or you may dress while sitting, if you like. The dressing space is created through a device by which you fold half the bed up out of the way on retiring or arising. This great improvement in the Single Occupancy Section will cost you *not a penny extra!* All you pay, in addition to the regular first-class rail fare, is the cost of one lower berth plus half the cost of an upper. Great convenience and comfort at little cost—that's what Pullman offers, plus the ***safest travel in the world!*** Ask your ticket agent for details of Pullman accommodations. Or write.

THE PULLMAN COMPANY • CHICAGO

The upper berth is left closed above you in the new convertible Single Occupancy Section, giving full head room. Convenient dressing shelf for small articles. In this illustration curtains are left open. At night, when drawn and secured, they insure complete privacy.

You can easily lower or raise your bed yourself. Or the Pullman porter will gladly do it for you—as shown in illustration above or, with curtains closed, by controls *outside*.

The Single Occupancy Section is your private domain—two double seats facing all to yourself. At your request, porter will gladly install a convenient table for writing or games.



Extra facilities for hanging clothing. No wrinkling or crushing. Note heavy light-proof curtains for privacy.

You sleep on *two* comfortable mattresses. Freshly laundered sheets. You awake refreshed after a sound night's sleep.

Pullman and Rail—The safe way to go and the sure way to get there

TRAVEL AND SLEEP IN PULLMANS

Copyright 1938, The Pullman Company

THE DOLLAR-WISE... THE TRAVEL-WISE... CHOOSE

THE NEW CONVERTIBLE SINGLE OCCUPANCY SECTION

An ingenious device enables you to raise half the bed upright, creating ample space for convenient dressing. The upper berth is left closed above you, giving full headroom. Convenient seat, handy dressing shelf, facilities for hanging clothing. You sleep on mattresses *two deep!* Freshly laundered linen. Your rest is complete, relaxing, refreshing! You can easily raise or lower the Convertible bed yourself, or your porter will do it for you, if you like by separate controls from the aisle with curtains closed.

DAYTIME LOUNGING

You can stretch out and take your ease as freely as on the sofa at home when your S. O. S. is made up for daytime lounging. Just ask the porter to arrange it whenever you feel like forty-winks or want to recline and relax as you read. Or, if you prefer, your S. O. S. by day becomes a private nook for reading, writing or games on a spacious table. Both double seats facing are yours alone.

Pullman's NEW CONVERTIBLE S.O.S.*

FOR LOW-PRICED COMFORT AND CONVENIENCE

Think of it! At no increase over the rate for the regular section you can now get a Pullman Single Occupancy Section which provides ample space for dressing . . . allows you to stand up, sit down . . . right in your own accommodation. Never before has such Pullman convenience been available except in a room-type accommodation.

Men who know how to travel . . . travelers who want to get the most for their money . . . they're all adopting the S. O. S. habit. Actual Pullman sales figures show this increasing popularity of the Single Occupancy Section. The New Convertible feature is now being installed as rapidly as possible throughout the Pullman system. Try this new, more comfortable way to get there. Ask your conductor or porter to demonstrate the New Convertible Single Occupancy Section for you.

Safest Travel in the World

As this advertisement is written, there has not been a passenger fatality in a Pullman-owned and operated car in four years. Your ticket agent will gladly tell you the cost of Pullman accommodations and give you full details for any trip you contemplate. Or write

THE PULLMAN COMPANY, CHICAGO

* SINGLE *Occupancy* SECTION

Because of increased operating expenses, the Interstate Commerce Commission authorized an increase of 5% in the rates for all Pullman accommodations. The rate for upper berths, however, was not increased. New rates became effective August 1, 1938.

Pullman and Rail—The safe way to go and the sure way to get there

Copyright 1938, The Pullman Company

NO WONDER IT'S POPULAR . . .

THE PULLMAN *Single Occupancy Section*

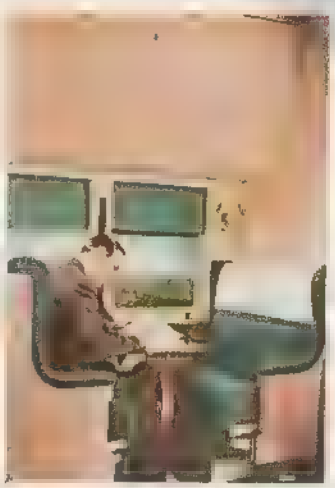
SO MUCH EXTRA CONVENIENCE AT SO LITTLE ADDITIONAL COST

● Travelers by the hundreds of thousands each year are learning to appreciate how much more extra comfort the Pullman Single Occupancy Section gives them for so little additional cost—extra privacy—more room by day and night and other added conveniences. All other benefits of Pullman travel are also theirs—quiet quarters, cleanliness, courteous service and ***the safest travel in the world.*** You will be surprised at the extra enjoyment you experience in traveling in this popular accommodation.

It takes only the simplest of arithmetic to figure the slight extra cost of all its special conveniences. The rate is only one half the charge for an upper berth added to the regular charge for a lower berth. For the single traveler only one railroad ticket is required.

In planning your next trip remember to ask the ticket agent about the reasonable cost of the Pullman Single Occupancy Section or write for full information to

THE PULLMAN COMPANY • CHICAGO



By day you have two double seats facing, all to yourself, with plenty of room to move about. The porter will place at your disposal a convenient table for work or play.

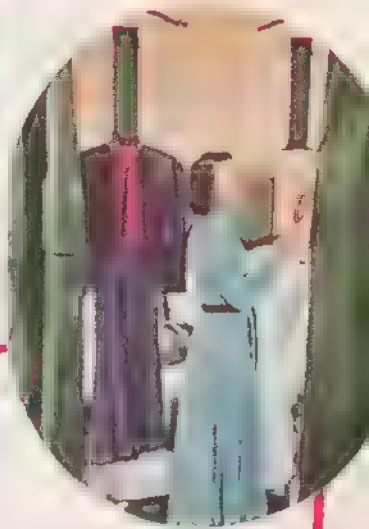
Lightproof curtains, secured from the inside, assure complete privacy. Every convenience for disposing your clothing and belongings. Two to four pillows, as desired. Sleep comes quickly on the comfortable mattresses—two deep.

For small articles, there is a convenient shelf covered with freshly laundered linen.

●

An expert crew, trained to anticipate your wants and serve you graciously, unobtrusively.

You have the use of four hangers to keep your clothing fresh and clean—you arrive at your journey's end as well-groomed and fresh as when you started out.



Pullman and Rail—The safe way to go and the sure way to get there

FOR A GLORIOUS TRIP
TO

GERMANY

• Bright, happy Germany. Where centuries of architecture and modern progress vie with each other to present a picture impossible to find a city devoid of interest and beauty. Even the steel and glass towers of the industrial centers such as Dusseldorf or Essen are framed in parks and fine gardens and sculptures. The Trade Fair city of Leipzig is also the world's book center. The great port of Hamburg has its Old Town with quaint streets and waterways, Bremen proudly presents its medieval architecture, Lübeck its splendid Gothic and Renaissance buildings surrounded by pastoral woodlands hedering on the picturesque shorewaters.

Then there are Düsseldorf, Rothenburg and Nordhausen, exquisite museum pieces themselves which would miss Nürnberg, the home of toys and Meistersingers, and of magnificent modern development. Old Heidelberg, synonym for the ambiance of university days, or the re-lived memories of Goethe, Worms and Speyer, Cologne's Fraueukirche enchanting Dresden, Munich with her mountain air and city Hofbräu.

Every region has its individual charm. In the Rhineland you drift over wave by vine-yarded slope and romantic castle, in the Black Forest smooth motor roads wind you through picturesque villages to resort Baden-Baden. The snow-capped peaks of the Bavarian Alps are reflected in the azure beauty of sparkling lakes.

Life begins now, and the magic charm of Germany's famous spas, Nauheim, Homburg, Bad Wiesbaden to meet the highly few well-known names, summers out of health and into wonderful physical form. The Black Forest, Thuringia, Bavaria

And remember, your travel dollar will go a long way, perfect vacation whether you visit Germany's great cities or magnificent countryside, **still further reduced by the use of registered Travel Marks.** And remember, you can also get your **60% reduction of rail fares.** Now is the time to visit sunny

FOR A GLORIOUS TRIP
TO

GERMANY

• Turn romantic pages of history in Germany. The time-awed ruins of ancient castles, the tomb of Charlemagne, the elaborate Guild Halls of medieval cities, the Romanesque and Gothic cathedrals of Cologne, Freiburg, Worms and Speyer and Frederick the Great's palace of Sanssouci — these and many others. What glories of the past they echo. What message of romance they bring you, as you tour through Germany — where museums and festivals, stage-craft and symphonies evidence a world-wide love of music, the workshop genius of Goethe, Wagner, Beethoven and Bach.

But the world marches on in Germany, also. Here you will find 20th Century progress in modern sports and many thousand sturdy Germans paddling at decks on the Wasserkuppe or breasting the Rhine in a fo'c'sle boat. Then too, there are great cities like Berlin with their gay night life, splendid theatres, hotels and restaurants. And centers of culture and art and learning like Munich, famed for its museums as well as its brew; Dresden, Nuremberg, Frankfort, Stuttgart, Bayreuth, Weimar — all with a rich tradition of their own.

As for scenery, the Bavarian Alps, the Black Forest, Harz and Thuringian, the castles and vineyards of the Rhine and its gentle, winding tributaries, the fruit trees and gardens of the Bergstrasse, the ever-changing sky along the Baltic and North Sea. And the charm of the country folk in their native costumes.

All this and more, and more, and more, awaits you in Germany, where the cost of living is lower than in almost any other country in Europe, and where your travel dollar will be **still further reduced by the use of registered Travel Marks.** And remember, you can get your **60% reduction of rail fares.** Now is the time to see Germany. Begin planning your trip today.

WRITE FOR FREE BOOKLET 30

GERMAN RAILROADS INFORMATION OFFICE

665 Fifth Avenue at 53rd Street, New York, N. Y.

Germany

A castle by the Rhine thrusts its ancient turrets defiantly toward the sky. A picturesque village lies dreamily beside a trout stream in the fir-scented Black Forest. In Munich's Hofbräuhaus there's lusty singing of "ein Prosit"... Gay crowds circulate on Berlin's Unter den Linden and by the blue Danube in romantic Vienna. The spirits of the Meistersingers live in Nuremberg. Students sing in the shadow of Heidelberg Castle. Aboard a sleek German Railroads streamliner from Hamburg to the capital, passengers wine and dine while traveling at 100 miles an hour.

All this is happy Germany—and more. In Aachen the great Charlemagne lies in state. . . . At Bonn, Beethoven's birthplace stands unspoiled. In Bayreuth is Wagner's shrine. Music Festivals where Munich, Frankfurt, Dresden, Leipzig, Salzburg, other cities and resorts make celebrations. Health, gaiety and sport reside at famous spas such as Baden-Baden, Homburg, Nauheim, Wiesbaden.

AND SOUTHWESTERN TRAVEL

Here is the outstanding travel announcement of many years!

For your pleasure on 1938 California and Southwestern journeys, Santa Fe presents 13 magnificent new trains, streamlined in stainless steel!

This fleet, embodying the very latest in rail travel comfort, beauty and speed, includes by far the largest array of ultra-modern passenger equipment on any American railroad. It is designed to add new dash and joy to economy travel and deluxe travel alike. It is ready, NOW, to fit into your spring and summer travel plans.

A BIG STORY IN A FEW WORDS

● There is now twice-a-week service on the superb streamlined Super Chief, extra-fare, **solid-Pullman** 39¾ hour train between Chicago and Los Angeles ● Six new streamlined Chiefs further emphasize the distinction of this finest, fastest, only extra-fare California **daily** train.

● The revolutionary new streamlined El Capitan **—only all-chair-car transcontinental train**—adds thrill and color to economy travel. It saves days and dollars. It combines low fares and low-cost meals with beauty, comfort and the supreme speed of the Super Chief.

● Then there are new Santa Fe streamliners between Los Angeles and San Diego, and Chicago and Kansas City; with improved schedules and equipment on other popular and long-established trains. All fit into a wonderfully complete picture of up-to-the-minute California and Southwestern transportation.

Would you like to know more about Santa Fe's great 1938 western travel program? Just mail the coupon below.

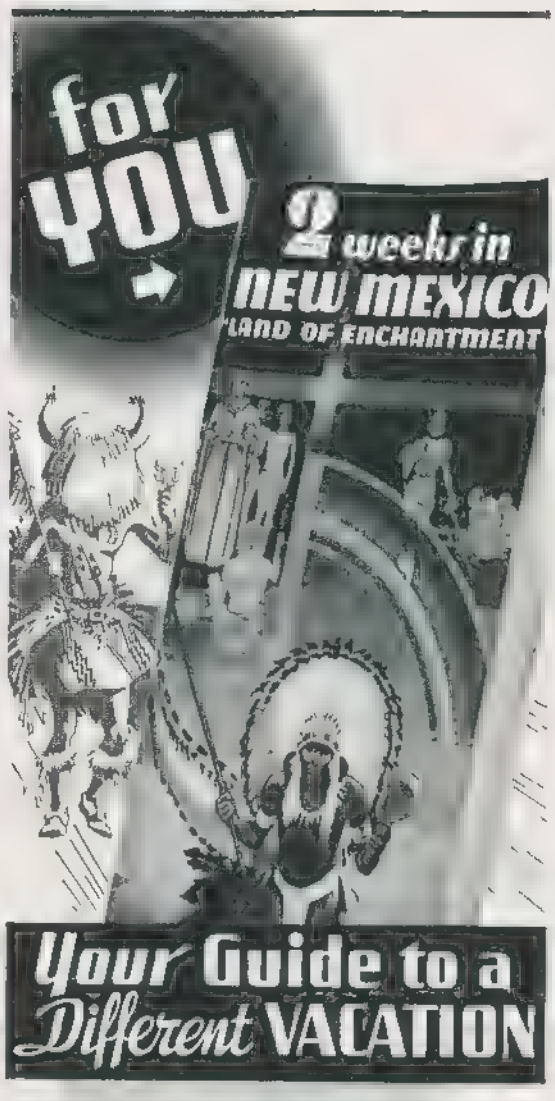
1938 IS A SANTA FE YEAR



Your Guide to a Different VACATION

LET this free booklet, packed with accurate and authentic information, help you plan your trip in New Mexico. It shows where the most amazing attractions are located and it will be accompanied by our Official 1938 Road Map showing exactly how to reach them. It tells when the strangest Indian ceremonial dances are held. Its colorful pages are filled with illustrations from photographs and drawings. It will bring you a breath from the majestic sweeping mesas and towering mountains, the quaint villages and modern cities that are all a part of the state so truly called "The Land of Enchantment". Mail the coupon for your copy—today!

new mexico

STATE TOURIST BUREAU, Room 451,
State Capitol, Santa Fe, New Mexico

Please send your road map and free booklet, "Two Weeks in New Mexico" to.

THIS year—come to the land where history parades before your eyes in a living, colorful pageant. Would you like to follow in Coronado's footsteps to the Indian Pueblos he discovered in 1540? Watch painted Indians in the same weird ceremonial dances that amazed the Spanish Conquistadores? Explore remote mountain villages where life flows on much as it did when this land was ruled by the Spanish Crown?

This year—visit New Mexico, land of dramatic contrasts, where it is but a step from modern metropolitan cities to unspoiled mountain playgrounds—where broad highways lead you swiftly from modern scenes into the heart of a changeless empire of living history.

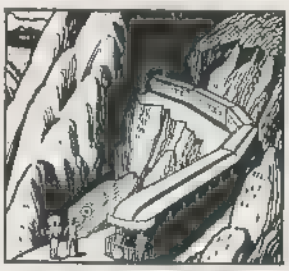
How to see TWICE AS MUCH of MEXICO!

THE BEST WAY to *see* Mexico is by train. You speed right through the heart of the country, through dozens of picturesque villages where the arrival of the train is the big event of the day.

The beach at Mazatlan

Southern Pacific offers you a simple way to see twice as much of Mexico: go by train and *go one way, return another*, using the romantic West Coast Route one way. As the map shows, this route starts at Tucson, Arizona, and skirts the West Coast of Mexico, touching Guaymas (stop at our Hotel Playa de Cortés for fine deep-sea fishing) and sleepy Mazatlan, then climbs through the wild Barrancas to Guadalajara and Mexico City.

FREE! More than 250,000 people have enjoyed Southern Pacific's famous booklet, *I've Been to Mexico.* We will send you a free copy of the fifth edition if you'll write O. P. Bartlett, Dept. NT-3, 310 So. Michigan Ave., Chicago, Illinois.



The Barrancas of Nayarit

Southern Pacific

Leica

Brings you the Island of Bali

"Island of Bali", by Miguel Covarrubias, is one of the most talked about travel books of the year. Rose Rolando, the author's wife, took the 114 Leica pictures which capture wholly the exotic charm of Bali's scenery and its people.

And you, too, can get equally good pictures, indoors or out, with an action-stopping Leica. Ask your dealer about the new Leica time-payment plan, today.

Write for full information and dramatic examples of Leica Photography—FREE.

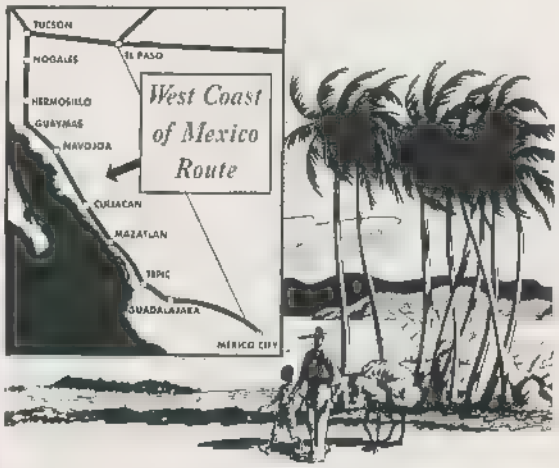
HOW TO SEE TWICE AS MUCH OF MEXICO!

If you want to really see the *heart* of Mexico in *comfort* and *safety*, you'll decide to go by train. From your Pullman seat in a modern, air-conditioned train, you'll see the Mexico that's off the beaten path—a pageant of colorful native life that changes with every mile.

When you go to Mexico City by train, plan to *go one way* and *return another*, using the West Coast Route one way. By doing this, you'll see TWICE AS MUCH of Mexico as you would by



going and returning on the same route. You'll add lazy Mazatlan to your trip, and the enchanting markets of Guadalajara. (Stopover at Guaymas for a bit of deep-sea fishing at Southern Pacific's new Hotel Playa de Cortés).

Going to California? ADD MEXICO TO YOUR TRIP

If you're going to California on Southern Pacific this year, you can add a side trip to Mexico City and back for very little extra rail fare.

FREE! Join the 250,000 people who have enjoyed Southern Pacific's famous booklet, *I've Been to Mexico*. For your free copy, write O. P. Bartlett, Dept. NT-4, 310 So. Michigan Avenue, Chicago, Illinois.

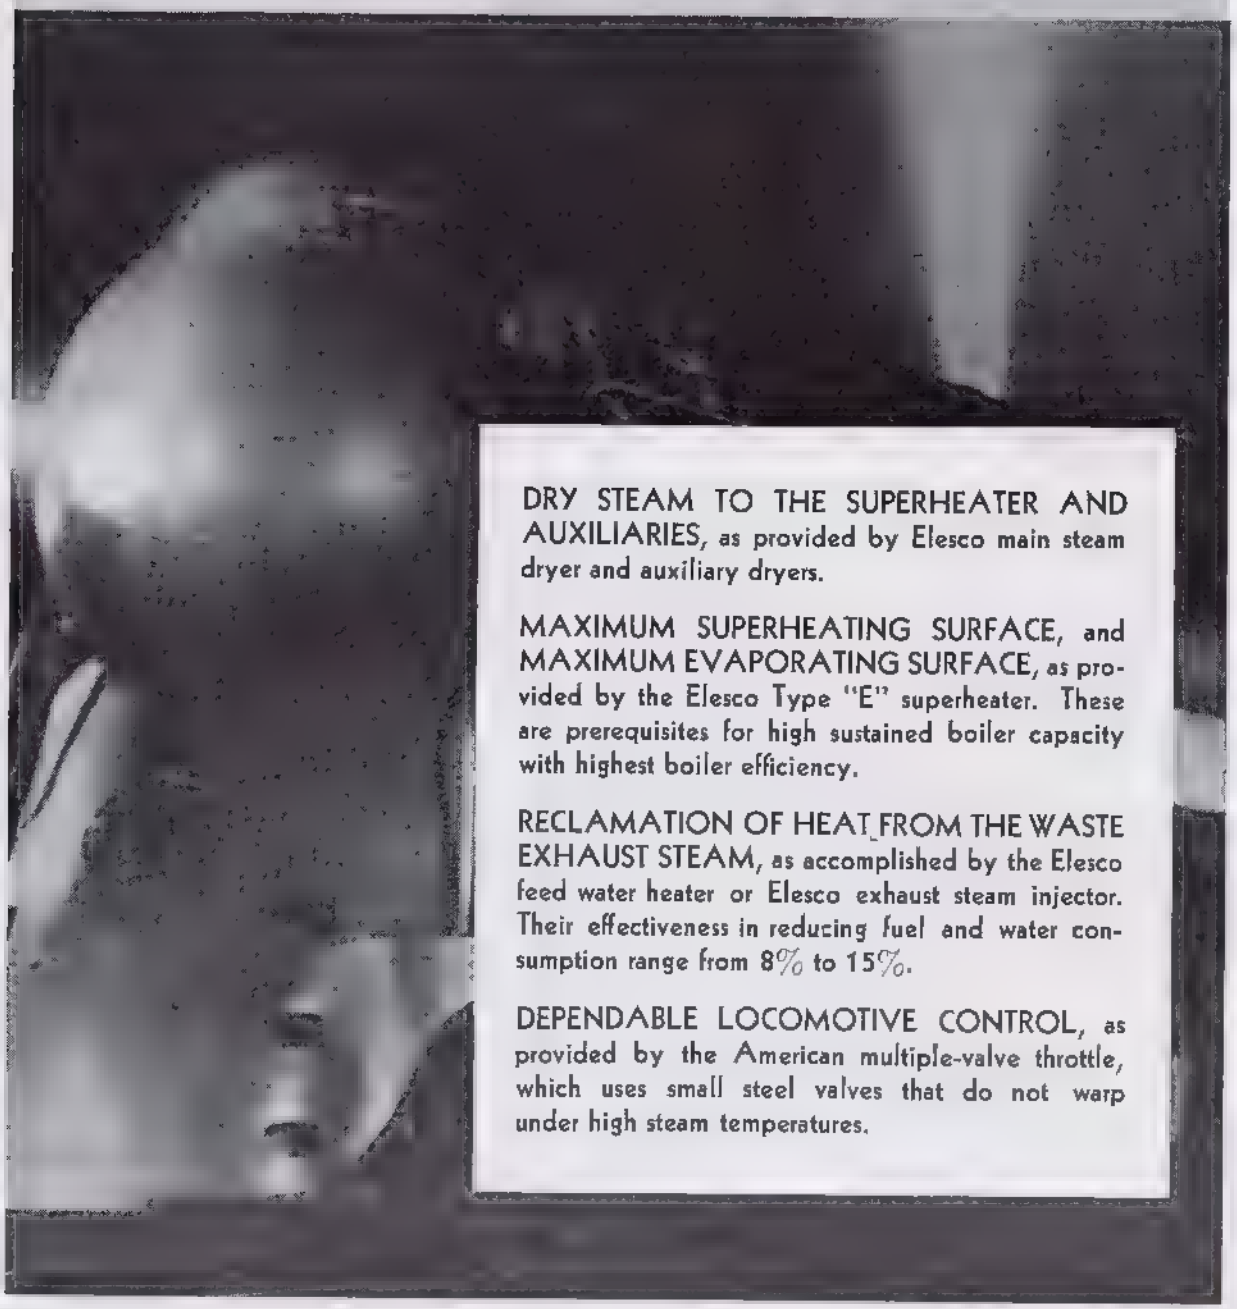
4 Requirements for Efficient Power



DRY STEAM TO THE SUPERHEATER AND AUXILIARIES, as provided by Elesco main steam dryer and auxiliary dryers.

MAXIMUM SUPERHEATING SURFACE, and MAXIMUM EVAPORATING SURFACE, as provided by the Elesco Type "E" superheater. These are prerequisites for high sustained boiler capacity with highest boiler efficiency.

RECLAMATION OF HEAT FROM THE WASTE EXHAUST STEAM, as accomplished by the Elesco feed water heater or Elesco exhaust steam injector. Their effectiveness in reducing fuel and water consumption range from 8% to 15%.

DEPENDABLE LOCOMOTIVE CONTROL, as provided by the American multiple-valve throttle, which uses small steel valves that do not warp under high steam temperatures.

"WHERE PALM AND EVERGREEN GROW SIDE BY SIDE

Christmas IN MEXICO*

Did you ever dream of Christmas spent under the bluest sky with pints of sunshine, fresh flowers in your garden, the mercury 70° above 0°? Such is Christmas time in Mexico City!

You might think it just wouldn't be like Christmas since there's no snow or fog or biting cold wind in the picture. But the spirit of the season's right there! In the streets full of gaiety and the bustle of shoppers music in the air, good will in every heart, a smile on each face... bright decorations everywhere reminiscent of those Christmas! And yet so *different!* Something to write home about.

Shake the snow off your shoulders and spend the merriest Christmas of your life in cosmopolitan Mexico City. Or, if you so prefer, join those in search of quieter places in provincial Mexico. Pátzcuaro, Uruapan, Morelia, Guanajuato and scores of other colorful towns offer you a quaint, romantic atmosphere in Mexico's glorious balmy winter.

Write us for information on rail trip to Mexico. Let through up-to-date train service and our latest illustrated folders to come will bring you a beautiful seven color pictorial map of Mexico.

MEXICO

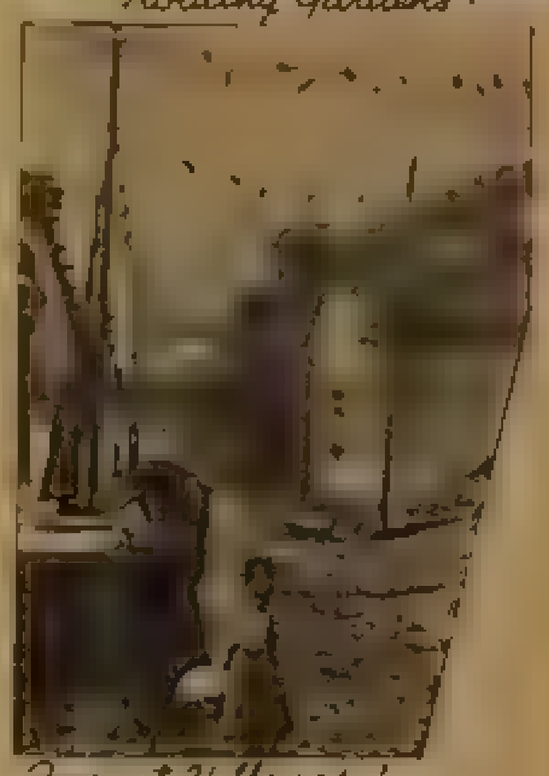
Diversion on a Silver Platter..

and on a moderate budget, too!

Tenth Century Monuments!

Floating Gardens!



Quaint Villages!

What does a cultured Greek mean when he gives the word "tourist"?

DIVERSION of course. Our good friend Webster defines diversion as that which diverts the mind from care and business and amuses. Amusement, entertainment, pastime, recreation, sport, game, play, etc. are mere synonyms and diversion

A Mexican Holiday constitutes the best diversion. Contrasts are to be found everywhere both among things Mexican and also as regards Mexico as viewed in the United States

Will Rogers that great American philosopher who loved to pose as a humorous person once said when he said

QUAINT MEXICANA the thing that strikes me is that we go away over to Europe and prowl around hunting for odd and different things and there they are at our very doorstep I was all around Spain and Italy Russia Switzerland Holland and all of them and there's more quaintness and different things to see here in Mexico than I saw in the whole of Europe

There is a round trip tourist ticket to a region designated MEXICO

Through up-to-date service Prevailing rate of exchange virtually renders your Mexican vacation less expensive than staying at home

You are welcome to make the Mexican Railways your headquarters for complete travel information. Write the nearest office listed below.

Every Highway

a way to High Adventure

THE seven thousand miles of highways in Tennessee offer an invitation to explore and an opportunity for adventure. Highways that lead through a state rich in romance and history with a scenic background unsurpassed in America. It's a land of contrasts where most modern conditions exist beside remnants of a picturesque past — where colleges and Indian villages are a few miles apart — negroes sing in the cotton fields — and over all a charm of manner and a graciousness that is distinctly Southern.

Send now for profusely illustrated booklets of this state of thrills and heart throbs.

THE GOOD EARTH

...yields a new saving for motorists

No need to buy so much motor oil for your car today! Your engine gets better lubrication yet you use less oil . . . the crankcase of your car *stays* FULL *longer.*

This saving is a gift from Mother Earth. Her farm crops, wheat, oats, corn, rice, cotton-seed, sugar-cane, are utilized by science to make the amazing, new oil cleanser...known as *Furfural.* It removes the harmful tar and gum forming elements . . . leaves a better oil, *free from impurities* . . . an oil that is 100% pure lubricant—New Texaco Motor Oil.

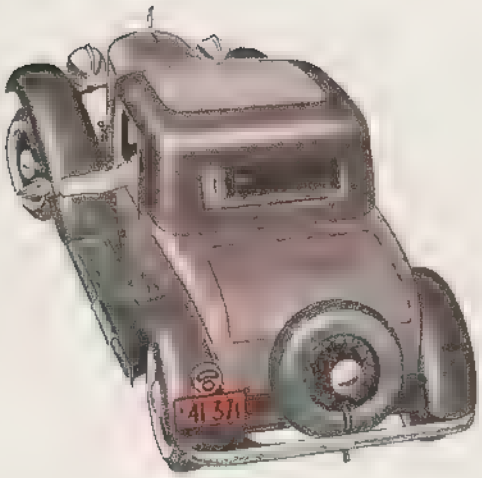
Look for a Texaco Dealer. Drive in... and ask for *longer-lasting* New Texaco Motor Oil.

RESULT: *Stays* FULL *longer*

Your modern, high-speed engine requires the purest, cleanest of motor oils. Furfural refining completely *removes the impurities that lead to damage in the engine, and to the waste of oil.*

25¢ A QUART

TUNE in EDDIE CANTOR in "TEXACO TOWN". Every WEDNESDAY NIGHT..COLUMBIA NETWORK..8:30 EST 7:30 CST 9:30 MST 8.30 PST



"THERE HE GOES AGAIN FOR SOME MORE OIL"

"MAYBE WE'D BETTER TELL HIM ABOUT THAT NEW TEXACO MOTOR OIL"

You can't get a better oil at 25¢

REASON *(for the technically minded)*:

New Texaco Motor Oil puts you ahead two ways. Your crankcase stays FULL longer…your engine gets FULL protection. Fur-fur-al refining makes it possible. Removes all harmful impurities. Leaves pure lubricant. Get this oil…at Texaco Dealers.

Prices Higher in Canada

Stays FULL longer

POST CARD
MONTREAL
JUNE 3
1938
P.O.
Dear J.
You're right about that new Texaco Motor Oil! Car's running swell - haven't bought a quart of oil since I left Evansville - 1063 miles back!
Home in a couple of weeks Bill
Mr. J. J. Barnett
362 Alden Road
Evansville
Indiana
U.S.A.

You can't get a better oil at

REASON—*for the technically minded:*

Enjoy more miles of travel between quarts of New Texaco Motor Oil. Give the credit to *Fur-fur-al*—a remarkable oil purifier. Impurities lead to oil waste. *Fur-fur-al* process removes them . . . leaves pure lubricant . . . New Texaco Motor Oil. Get it! Save!

Prices higher in Canada

Stays FULL longer

Copyright 1938, by
The Texas Company

You can't get a better oil at

WHY: *—if you're interested in technical talk...*

Your crankcase "stays FULL longer," and here's why. This oil starts as a fine crude. Then good Texaco refining makes it better. Finally it goes through the Fur-fur-al Process. This removes every wasteful impurity. Only pure lubricant is left...New Texaco Motor Oil. Get it for your car ... because it will make your crankcase "stay FULL longer."

GET IT WHERE YOU BUY *FIRE-CHIEF*

Price slightly higher in Canada

Stays FULL *longer*

Copyright 1938, by
The Texas Company

"I'M HELPIN' TOO

. . . to make your motor oil last longer"

You save real money when your car's oil gauge keeps repeating *"Full . . . full . . . full"* instead of *"You need another quart."*

Thanks to America's farmers, your crankcase now stays "FULL" longer . . . you use *less* oil yet get *better* lubrication for your engine.

Their crops are now producing a new and amazingly efficient oil cleanser — Fur-fur-al. Fur-fur-al refined New Texaco Motor Oil is completely free of the wasteful impurities that cause a dirty engine and waste of the oil itself.

If you want to enjoy a saving, ask for Fur-fur-al refined New Texaco Motor Oil at your Texaco Dealer's.

RESULT: *Stays FULL longer*

Farm products make possible Fur-fur-al and longer-lasting New Texaco Motor Oil that lubricates your engine fully.

25 CENTS A QUART

The Island of Fakaofo

Note the walled shores of Fakaofo, built up by the natives as a protection against hurricanes.

One of the most curious islands of the South Pacific is Fakaofo, north of Samoa.

It is virtually a man-made island, about a sixth of a mile in diameter. The natives built it upon a coral foundation, erecting a wall of coral blocks around the outer edge and filling in the center, so that the entire island rises about 15 feet above sea level.

The reason? Fakaofo lies in the path of hurricanes. And when these storms drive the sea over the low-lying shores of neighboring islands, the 600 inhabitants of Fakaofo remain safe and snug.

Nearly any man can, if he only will, build his own Island of Fakaofo to shelter him from financial storms. Upon a foundation of thrift, he can erect a protecting wall of insurance that will keep all he owns from being swept away by sudden disasters. And on this island of security he can dwell in happiness and peace of mind.

An experienced Travelers representative will be glad to help you build just such security for yourself.

SYSTEMATIC INVESTORS

Because of their safety, freedom from price fluctuation, increasing value, and easy redemption, United States Savings Bonds are enabling investors to meet many problems.

Systematic investors have found in the regular purchase of these bonds—

1—A practical way to establish financial independence.

2—A convenient way to enlarge funds set aside for—Education of Children, Care of Dependents, Creation of a Cash Estate, Travel and Recreation.

For investors, both individual and institutional, United States Savings Bonds fit logically into requirements for a backlog security that will not shrink in dollar value. In ten years, these bonds add 33⅓% to the amount invested and are tax exempt both as to principal and interest to the same extent as other Treasury bonds. They may be redeemed in cash at any time after 60 days from issue date at their full purchase price, plus any accruals due.

UNITED STATES SAVINGS BONDS

DIRECT OBLIGATIONS OF THE UNITED STATES GOVERNMENT

MONEY FOR THE FUTURE

If you invest **$18.75, $37.50, $75** or **$375** each month in Savings Bonds, under the present offering, there will be payable each month, beginning at the end of ten years from your first investment, a sum 33⅓% greater than the amount of each purchase, and continuing for as many months as you may have made the original investments.

If you do not already own the maximum holdings of Savings Bonds for 1938, you may increase your ownership to the maximum of $10,000, maturity value, for this year. Also, subject to the continuation of the offering of these bonds, you may acquire an additional $10,000, maturity value, in 1939 and in each calendar year thereafter.

UNITED STATES SAVINGS BONDS

DIRECT OBLIGATIONS OF THE UNITED STATES GOVERNMENT

An Investment That Takes Care of Itself

Anyone who has known *troublesome investment problems* will appreciate the *investment ease* that United States Savings Bonds afford. They require no attention. There are no day to day price changes, no coupons to clip, no interest to reinvest. The investor knows exactly what his bond is worth from the moment he buys it until it matures, in ten years, for 33⅓% more than he paid.

After the first year a Savings Bond is worth more than its purchase price and each six months thereafter it gains in dollar value until maturity. Any Savings Bond may be redeemed for cash any time after 60 days from its issue date.

Emergencies, arising without warning, may change the entire course of an investor's affairs unless he is prepared to meet them successfully. United States Savings Bonds offer a way to be fortified against emergencies, while establishing financial independence.

MONEY FOR THE FUTURE

If you invest **$18.75, $37.50, $75** or **$375** each month in Savings Bonds, under the present offering, there will be payable each month, beginning at the end of ten years from your first investment, a sum 33⅓% greater than the amount of each purchase, and continuing just as long as you may have made the original investments.

Among the reasons why a million investors have placed more than a billion dollars in Savings Bonds are:

Free from price fluctuation—the fixed cash redemption values, which are never less than the purchase price, are printed on the face of each bond.

Tax exempt both as to principal and interest to the same extent as other Treasury bonds.

Ownership by two persons—they may be registered in the names of two (but not more than two) individuals. Such bonds may be redeemed by either person named as coowner.

Protection against loss—should your bond be lost, burned, or otherwise destroyed a duplicate will normally be issued upon satisfactory proof of loss.

For a Growing Sense of Security

United States Savings Bonds contribute to a *serene present* and a *secure future.* Present returns are measured in peace of mind and freedom from investment detail. Future returns consist of a 33⅓ per cent increase on investment in ten years. Every investor in Savings Bonds knows that—

1—His funds are safe . . .

2—They will increase in dollar value every year until maturity of the bonds . . .

3—The bonds are free from price fluctuation.

This knowledge gives him and those dependent upon him a sense of security, which grows as their savings grow to meet future needs. Today's investment of $75 in Savings Bonds grows to $100 in ten years. As little as $18.75 or as much as $7,500 may be invested each calendar year for each member of the family.*

By registering Savings Bonds in the alternative such as *Mr. John K. Smith OR Mrs. Isabelle Gordon Smith,* an investor affords mutual protection to himself and wife. Bonds thus registered may be redeemed by either person named as co-owner without the signature of the other.

UNITED STATES SAVINGS BONDS

DIRECT OBLIGATIONS OF THE UNITED STATES GOVERNMENT

Small steamers ply the fascinating island regions of Puget Sound

Play 2 Weeks in WASHINGTON STATE

and you'll want to come live here

Yes, it does things to you—the pine-scented air as you ride down Mount Baker's shoulder to your cozy lodge . . . the thrill as you hook your first salmon . . . the bigness of Grand Coulee Dam . . . the sunshine on white-beached islands in Puget Sound . . . the spell of forests grown a thousand years tall . . .

WASHINGTON is the *adventure* state! Come enjoy it — *in your own way!*

Know Mount Rainier...towering 2 miles above the clouds. Wearing as a crown the largest single glacier system in the United States! With grand inns nestling on its sides. With snow lilies and 556 varieties of wild flowers blooming along trails you ride to sky-blue lakes . . .

The Olympic Peninsula wonderland. With forests that were giant-old when Columbus sailed. Elk herds. Snow peaks. And white water rapids you run in Indian dugout canoes . . .

The desert where you find trees turned to stone ...where power and water from Grand Coulee Dam will build an empire—turn desert into garden . . .

Grand Coulee Dam (that foundation is 11 stories high)

Love mountains? Come play on Rainier!

The 172 sun-drenched San Juan Islands of sheltered Puget Sound. Where you sail, troll for the fighting salmon, swim, relax on wide verandas . . .

All this you can enjoy at the cost of an ordinary vacation! Send for Washington State costs, places to see and easy ways of getting there. Mail coupon for *free* illustrated booklet.

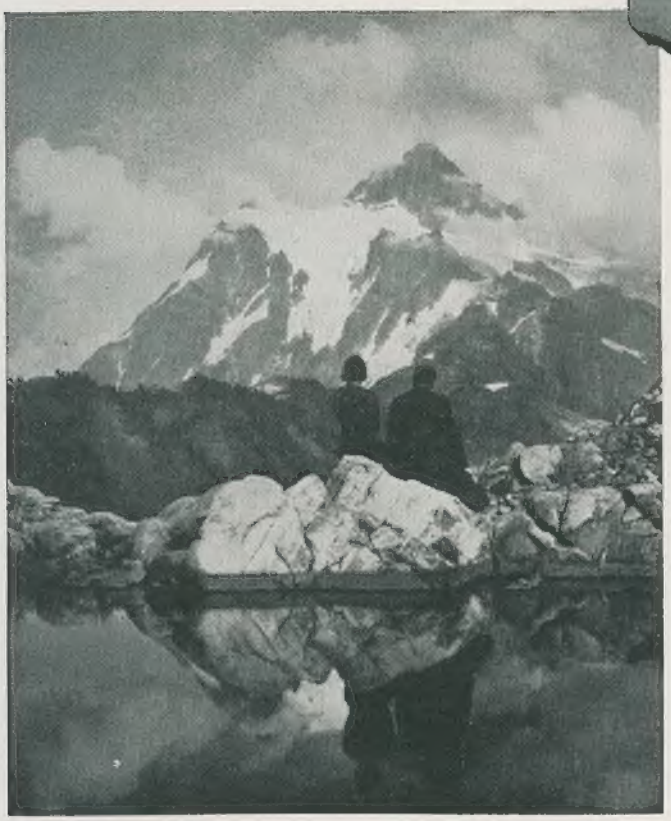
When you vacation in this unspoiled STATE of WASHINGTON

you'll want to come here to live!

Take your pick of 172 of the prettiest islands you ever saw rise out of the blue sea . . . wander through woods grown a thousand years tall . . . see Grand Coulee Dam . . . ride up, up, up towards the glacier crown of Mount Rainier! Treat yourself to grand fun, new thrills . . . out here in Washington State



YOU'LL have fun here . . . it's *your kind* of country! Big. Varied. Refreshing as the salt breezes that blow here.

You'll visit the painted desert . . . find trees of opal . . . see Dry Falls, where "40 Niagaras" once thundered . . . stand before the miracle of Grand Coulee Dam . . . power for Industry, water for nearly two thousand square miles of land—an Empire in the making!

You'll know that silent moment . . . when first you see Mount Rainier. Above blue lakes and wild snow lilies you'll ride the sunlit trails of Mount Baker. You'll swim and fish and laze among the Islands of Puget Sound. Play on the Olympic Peninsula under trees giant-grown before there was an "America." *All this you'll do . . . and more . . .*

A great place to play, a good place to live! Find out how little it will cost you to explore Washington State, the vacationists' Last Frontier. Where to go, how to get there, what you do and see is all in a *free* new book. Just send the coupon.

WASHINGTON STATE PROGRESS COMMISSION
